CAMPAIGN CLOCK IS STARTED ON ITS RUN

Solicitors at First Noonday Luncheon Report Subscriptions Swelling Mossman Gift of \$50,000.

Fifty-five thousand, nine hundred and sixty dollars was reported Tuesday at the first noon-day meeting of the workers in the Young Men's Christian association campaign, making a total of \$105,960, including the munificent gift of \$50,000 of W. E. Mossman announced at the business men's dinner, Monday evening.

A total of \$35,710 was reported by the captains of the twenty teams and \$20,250 by the executive committee, which included the following subscriptions: Mr. and Mrs. Arthur H. Perfect, \$5,000; Mr. and Mrs. E. A. K. Hackett, \$5,000; and C. H. Worden, \$3,000. Another subscription was announced, but by request the name was withheld.

Big Clock is Started.
After the meeting and luncheon the workers marched to the southwest corner of the court house where a large Y. M. C. A. clock has been erected and amid the cheers of the workers the hands were turned by H. A. Perfect to the \$105,960 mark.

The honor fell to Mr. Perfect for the reason that the team of which he is the captain made the best report. Besides this honor his team was awarded two pennants; one for reporting the largest amount of any team and another for leading division B. Captain G. H. Heine was awarded a pennant for leading division A. There was a total of 236 subscriptions.

The report of the various captains was as follows:

Poor Boy Gives \$1.
In giving the report of his team Captain Arthur Smith told of a young man, poorly clad, entering the Shive building Monday and handing to him \$1. The young man said he happened to be passing and noticed the sign across the building thought he would contribute \$1 to the cause. He was a stranger and had but \$2 to his name.

Mr. Smith asked him his name, but he refused to divulge it. He told Mr. Smith to just say that it came from a friend.

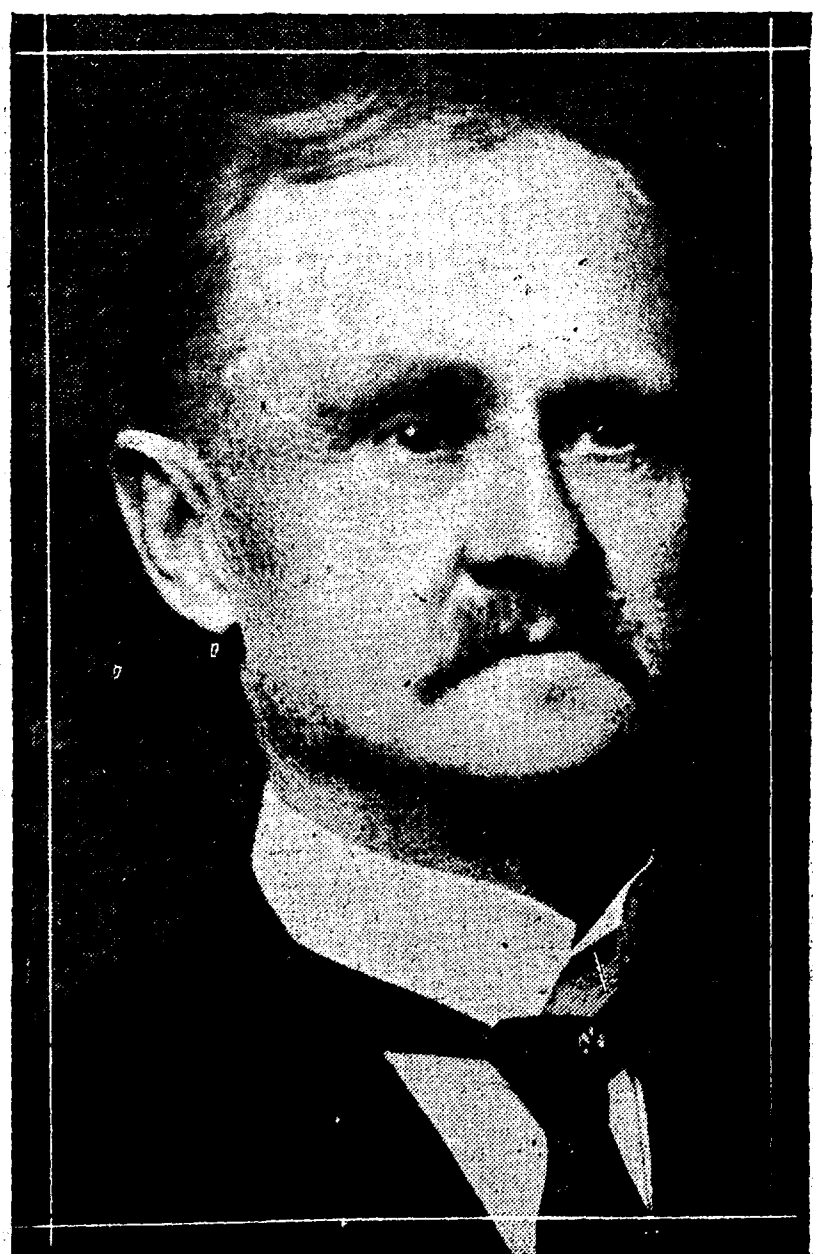

E. J. Buchanan, of Indianapolis, a worker in the Y. M. C. A. movement, gave a short talk and suggested the following motto: "Something from every team every day."

The lunch was served by the Sophie R. Wright circle of King's Daughters, to whom a vote of thanks was extended. E. M. Popp, of the International Business college, presided at the blackboard. There was no end of enthusiasm. Campaign Director Mogge declaring it to be the greatest first day's meeting he had ever attended.

W. E. Mossman Gives \$50,000.
Announcement of a pledge of \$50,000 subscribed by William E. Mossman was the outstanding feature of the business men's dinner, Monday evening, at the Shive building, which precipitated a wonderful demonstration that continued.

HE PUTS THE "WAY" IN FT. WAYNE WITH HIS GIFT OF \$50,000 TO Y. M. C. A.

WILLIAM E. MOSSMAN.

After Mr. Mossman's magnificent gift of \$50,000 for the Fort Wayne Y. M. C. A. had been announced Monday evening, Campaign Director Mogge declared that Mr. Mossman is the man who had put the "way" in Fort Wayne for its Y. M. C. A. effort.

William Dollar Wounds

and Self at Macy.

SHOCKING TRAGEDY COMES TO LIGHT

Mourning Over Death of His
Wife Had Unsettled
Man's Reason.

Rochester, Ind., May 16.—William Dollar, 27, a miller at Macy, a village near here, shot and killed his mother and daughter, fatally wounding his son and baby and then went to a nearby cemetery, where he killed himself on the grave of his wife.

The shooting occurred last night, the bodies being found today. It is believed that the recent sudden death of Dollar's wife caused insanity. The dead are: Mrs. Anna Dollar, 50, mother of William Dollar; Agnes, Dollar, 5, daughter of the dead man.

The wounded, George Dollar, 11, son, and Ida, 2, daughter of William Dollar. The tragedy was discovered when Mrs. Henry Cloud went to the mill today to buy chicken feed. The mill door was locked and she went across the street to the Dollar home. Finding the door there unlocked she entered and found the mother and three children in bed but Dollar was missing.

Mrs. Cloud called in the neighbors and then began a search for Dollar, whose body was found later in the cemetery. The wounded children were taken to the county hospital at Peru and it is said there is little chance for them to recover. Since Dollar's wife died about a month ago he has spent most of the time, when he was not on duty at the mill, mourning over her grave and his grief is believed to have driven him insane.

YELLOWSTONE TRAIL BOOSTERS TO MEET

State Meeting Will Be Held
at Columbia City Next
Thursday.

Through the efforts of Charles L. Biedersdorf, secretary of the Fort Wayne Commercial club, a state meeting of Indiana boosters for the proposed Yellowstone trail which will pass through this city will be held at Columbia City on Thursday, May 18. One of the principal addresses will be delivered by Mr. Biedersdorf, who will talk on "Organization." The program is as follows: Forenoon—Reception of visiting boosters at Commercial club room with "the big brass band a-playin'" all the time. Afternoon, 1:30 o'clock—Assembly at Commercial club rooms; address of welcome by H. O. Cooley, secretary and general manager of the Yellowstone Trail association; organization talk by Charles L. Biedersdorf, secretary of the Fort Wayne Commercial club; business of organizing and electing officers of Indiana branch of the Yellowstone Trail association. The proposition is to extend the road east to Plymouth Rock, thus making "a good road from Plymouth Rock to Puget Sound."

FOUR GOVERNORS TO MARCH.

San Francisco, May 16.—Four western governors will march in a preparedness parade which is to be held in San Francisco in June under the auspices of the Pacific Coast Defense League, according to an announcement made here today. Militiamen from ten states and local labor and fraternal organizations will also be in line. The state executives who have accepted the invitations to participate are Gov. Hiram W. Johnson, of California; Gov. E. D. Boyle, of Nevada; Gov. James Withycombe, of Oregon; and Gov. Ernest Lister, of Washington.

The first section of the grandstand at the pageant grounds was finished Tuesday noon, and the stage was well under way. The lower picture shows Superintendent George W. Brown, of Chicago, who is in personal charge of the gigantic seating job.

MORE WELLS TO BE STARTED IN FEW DAYS

Rich Vein is Struck by the
Flat Rock Oil, Gas &
Mining Company.

Following the successful shooting of a well drilled by the Flat Rock Oil, Gas and Mining company on the Davidson farm in Monroe township, late Monday afternoon, operations will begin within the next few days on the drilling of another well 600 feet west on the farm of Charles Simmers.

Before being shot the well on the Davidson farm averaged from twenty to twenty-five barrels a day. Since being shot it is conservatively estimated that it will produce 100 barrels a day.

The Flat Rock Oil, Gas and Mining company is composed almost entirely of Fort Wayne men, all of whom are jubilant over the favorable prospects for extensive operations in the future. The company has leased a total of 1,400 acres of land and other companies have taken option on as much land as possible in the county. A company of Marion capitalists expect to start a well two miles east of the Davidson farm. The officers of the Flat Rock Oil, Gas and Mining company are: John Tillman, president; Ralph W. Guenther, vice president; William Scheele, treasurer; and Robert O'Connor, secretary. The other members of the company are Frank Falls, A. D. Palmer, James McNeal, Irvin Geddes, L. E. Roussey and William B. Weaver.

JEFFERSON SCHOOL PLANS OPEN NIGHT

With the desire to afford parents, and especially the fathers of pupils an opportunity to see the actual work of their children in school, Principal F. W. Miles, of the Jefferson school, will hold an "open night" at that school on Friday evening, May 19, from 7:30 o'clock to 9 o'clock. There will be a demonstration of work in the solid branches, such as reading, writing and arithmetic.

"We will have no school in our building during the afternoon of that day," says Principal Miles, "so that pupils may rest and get ready for the evening. Parents who are thoughtful will have their children go to bed in the afternoon, so they may be wide awake at night. It is hoped that all parents will grasp this opportunity to see their children at work. It is a great chance for fathers."

VILLA SEEKS A NEW ARMY

Bandit Has Recovered and
is Attempting to Recruit

BORDER SITUATION NOW LESS CRITICAL

Gen. Scott Believes Gen.
Obregon is Acting in
Good Faith.

Field Headquarters in Mexico (Via Wireless to Columbus, N. M.), May 16.—Francisco Villa has recovered from his wounds and has been busy for some weeks attempting to raise a new army in the state of Durango, according to a story told here today by a Mexican who was captured in the engagement at Ojosazules late in April.

Cavalrymen are riding hard on the trail of small bands of bandits in the vicinity of Rubio ranch 20 miles from here where three Villa bandits were slain by an American forage detachment yesterday. It was reported there were about 50 in the band.

Julio Cardena, one of the slain, wore clothing indicating that he possibly participated in the raid upon Columbus.

NET RESULTS ARE GOOD.

Scott Believes Border Conference Accomplished Much.

Washington, May 16.—The net result of the military conferences at El Paso, as reported today by Maj. Gen. Scott to Secretary Baker, has been to convince the Carranza government that the United States has no other purpose in its operations in northern Mexico than to stamp out brigandage and as a consequence there exists substantially an unwritten understanding that the Carranza forces shall endeavor to demonstrate their ability to handle the situation as the necessary first step toward withdrawal of the American punitive expedition.

Gen. Scott believes Gen. Obregon is acting in good faith and that the border situation is less critical today, so far as the American government is concerned.

LAST MINUTE NEWS.

BERLIN IN WARNING TO NEUTRAL SHIPS.

Washington, May 16.—Germany, in a note presented to Secretary Lansing by Count von Bernstorff today warns that merchant ships flying neutral flags must obey the provisions of international law in regard to their conduct when stopped by a German submarine, and that they in our danger should they turn their ships in the direction of a submarine.

GEN. CARRANZA HAS GIVEN HIS APPROVAL.

Washington, May 16.—Gen. Carranza has agreed to Major Gen. Scott's informal understanding with Gen. Obregon which provides that Carranza forces shall endeavor to show their ability to control the situation in northern Mexico while American troops remain in the time being.

GERMAN GUNFIRE STILL INCESSANT

Still Hammering Away at
French Positions Before
Verdun.

Today's War News Given in Summary

German activities on the Verdun front are being continued energetically west of the Meuse where the French positions in Avocourt wood and hill 304 are being subjected to an incessant bombardment. There is a hint of possible developments of importance east of the fortress on the French right flank, heavy shelling of the French lines in the Eix and Moulinville sectors of the Woivre region being reported. The only infantry activity mentioned in this afternoon's official bulletin from Paris was in the vicinity of the Thiaumont farm northwest of the fortress, where a German hand grenade attack is declared to have been completely repulsed.

News is awaited of further movement of the German battleships reported to have left Kiel for Riga. Petrograd recently has indicated an expectation that a powerful offensive by the Germans against the Riga-Dvinsk front was in immediate prospect. Whether a sea operation is to be undertaken in conjunction with the land movement remains to be developed.

Italy is following the example of Great Britain and France in prohibiting the importation of certain luxuries and bulky articles not strictly necessities as a measure conserving the national resources for war purposes and to lessen the strain upon ocean traffic.

Paris, May 16.—The bombardment of the French position in the Avocourt wood and about hill 304 still continues, according to the French official report issued today.

A weak German attack with grenades northwest of Thiaumont farm, was repulsed. In the Woivre shelling is proceeding along the sectors at Eix and Moulinville. On the rest of the front there is quiet.

FRENCH LOSSES SANGUINARY.

Berlin, May 16.—The repulse by the Germans of several attacks against positions on hill 304, with sanguinary losses to the French, is announced in today's war office statement.

MAY CHANGE ROUTE OF LINCOLN HIGHWAY

Movement to Use Monroe-
ville Road is Discussed at
Meeting.

For the purpose of discussing the proposed changing of the route of the Lincoln highway, switching from the present route to the Monroeville road, a meeting of thirty Ohio and Indiana members of the Lincoln highway association interested in the highway east of Fort Wayne was held Tuesday at the Anthony hotel. Martin H. Luecke presided. The meeting was attended by the Allen county board of commissioners, the Ohio councilor, Indiana Councilor W. M. Griffin, representatives of the highway association and others interested in the proposed changing of the route. The matter was discussed at length, but no action was taken as the matter must first be presented to the officials of the Lincoln highway association, the state highway commissioners of Ohio and the Allen county commissioners. That the change will eventually be made was the consensus of opinion of those in attendance. The meeting followed a luncheon served in the dining room of the Anthony.

NEW ARMY IS STILL LARGER

Analysis Shows a Bigger
Fighting Force Than
First Announced.

BILL A GOOD ONE, SAYS CHAMBERLAIN

National Guard on Trial
During Next Few Years,
He Declares.

Washington, May 16.—Revised figures on the army reorganization bill agreed upon by the house and senate conferees and submitted to the senate today by Chairman Chamberlain show that the new army will be even larger than announced when agreement was reached last Saturday.

Careful analysis shows the maximum strength in time of peace will be 211,000 officers and men, including 25,000 staff troops, Philippine scouts and unassigned recruits and that the war strength will be 236,500 troops, which with staff troops, scouts, etc., added, will bring the aggregate maximum strength of the regular army to 281,500. The national guard as reorganized would total 457,000, making a total of 718,500 available.

Good Bill, Says Chamberlain.
"The results of the work of the conferees, while possibly disappointing to some few who have made hobbies of certain features," Senator Chamberlain told the senate, "must as a whole be welcomed by all who are reasonable and unprejudiced as a good bill. For the first time in our history we have provided for an army that is well-balanced throughout and which will be an efficient fighting machine. It provides for troops enough for the required overseas garrisons and remaining troops at home will be such as will make up complete brigades and divisions, and the regular army will no longer be a hit and mist collection of regiments and battalions as it has heretofore been, due to piecemeal legislation of former years. Not only are the higher tactical units properly provided for but the internal structure of regiments and companies of all arms have been improved to meet the requirements of lessons learned in recent wars."

Real Working Units.
"The company units will no longer be skeletons, but real working units of about two-thirds war strength. An infantry company will be 100 men in peace and 150 in war; a troop of cavalry will be seventy in peace and 105 in war; a battery will be 126 men in peace and 190 in war."

"The officers' reserve corps and the reserve officers' training corps have been adopted as written in both original bills. They provide for the education, selection and training of civilians in time of peace for the duties of officers in time of war, and to a great extent they will obviate the past selections of untried and unknown persons for commissions on the outbreak of war."

National Guard on Trial.
"The national guard will have greater inducements to improve and progress than was hoped for before this year and it will be tried during the next few years to prove that the claims made by its representatives were correct and that it was only held back from becoming a real asset in our national defenses by forces over which it had no control. These obstacles, it is hoped, have been removed in the new bill and time alone can tell whether the national guard will take its place as an important factor in the army."

FORT WAYNE NIGHT JUNE 6

Opening Pageant Presentation to Be Brilliant Affair.

TAKING CARE OF VISITORS PROBLEM

Home-Coming Committee is Badly in Need of Many

• More Rooms.

SPACE AT EXPO.

On account of a rearrangement of the space for the circus acts and some of the exhibit booths, additional space at the Fort Wayne Industrial exposition is now available. Apply to R. B. Garmire, the office secretary of the Centennial office, Commercial club, for space and terms.

DON'T MAKE A MISTAKE.

If you have bought a one-dollar ticket for the pageant, and have laid it away with the belief that it is a reserved seat ticket, get it out quick and take it to the reservation booth at Wolf & Dessauer's where you will receive a reserved seat ticket in exchange for it, free of charge. The regular ticket is NOT reserved unless you do this. Don't make a mistake. If you haven't bought a ticket yet, you can go direct to the reservation booth if you wish, and buy your reservation. If you want to call the ticket booth by phone ask for 3280.

Will you be on hand "Fort Wayne Night?"

That's the big opening event of the Fort Wayne pageant, Tuesday, June 6. This first night has been named "Fort Wayne Night" in order that the people of Fort Wayne may attend the performance on the initial evening and give to it their enthusiastic and earnest approval. In no better way can the true community spirit find expression, for the hundreds of persons in the east, knowing that their own friends are looking upon their work with sympathetic consideration, will put into their work the force of their best efforts.

Many of the pageant box parties are being planned for this night which opens the series of three presentations of the great play, and it looks as if the opening event would find Fort Wayne on hand with its enthusiasm and appreciation to give the production the encouragement of its whole-hearted sympathy and applause.

Some, who are deeply interested in the play, and who believe that to get from it all that the production has to give, it will be desirable to see it more than once. Hence, their anxiety to witness the opening presentation of the play.

Others, fearing the possibility of rain during any of the three evenings, want to make doubly sure of seeing the play; hence their purchase of tickets for the opening night.

Still others, viewing the matter from a patriotic viewpoint, believe that it is due the out-of-town friends that the people of Fort Wayne insure them a seeing of the play when they come pouring in for the second and third nights.

Splendid Seat Sale Today.

Harry Triest, in charge of the reserved seat booth, is a mighty busy boy today. "The business opened up much better this morning than it did yesterday," said he. "The people are glad to know that 'Fort Wayne Night,' and they're going to make it a real event as far as the audience is concerned. A good many box parties are being formed, and these seats are going nicely."

NAMES POURING IN.

Homecoming Committee, However, Needs Prompt Help.

R. B. Garmire, office secretary of the Centennial association, is more than

WHOOPEE! HE'S AFTER HIM!

busy this week sending out invitations to the thousands of former citizens whose names are being furnished by the home friends.

Four hundred names per day have been pouring in upon the office, and the clerical force has been busy mailing out the invitations as rapidly as possible. It is believed that the number of home-comers will run up into the thousands, although many of them will be unable to send word of their acceptance of the invitation until during the last few days before the celebration.

Rooms Are Needed.

This brings up two important problems for the solution of the homecoming committee—problems which require the active assistance of hundreds of loyal Fort Wayne people. The first of these problems is the matter of securing places for these people to stay during their visit to the city. They will not expect to be entertained at the expense of the association or anybody else. They will come with the belief that Fort Wayne people will at least tell them where they can find ample and comfortable sleeping rooms where they may stay during their visit to the old home, which has urged them to come. Therefore, the committee pleads with the people of Fort Wayne to assist in finding places for these home-comers to stay.

Information with R. B. Garmire at the Centennial headquarters, where it can be kept for reference when needed. Or, if anyone has a suggestion of a place whereby these people can be entertained, come forward and co-operate with the committee in extending the glad hand in the way of comfortable places to stay. The visitors are coming with the means to pay for their entertainment, but it is up to Fort Wayne to help them find rooms which shall serve as their homes while they are here.

The other problems which confronts the homecoming committee is the securing of two hundred automobiles for use on the morning of Homecoming and Historic day—Wednesday, June 7—when all of these friends will be taken on a 25-mile automobile ride over the entire city. Those who will tender the use of their machines with driver, may notify Mr. Garmire at the Centennial headquarters or V. H. Schlemmer, chairman of the homecoming committee.

MERCHANTS ARE BUSY

Preparing for the Elaborate Decoration of Their Buildings.

One point in the matter of preparing for the centennial which has been somewhat overlooked for the present, but which will blossom forth in all its patriotic beauty, is the quiet activity of the merchants and business block owners in preparing to decorate their places. "Just to indicate what's doing," observed J. B. Crankshaw, chairman of the committee on decorating and illumination, "there's one business house half a square off Calhoun street, on one of Dry Goods Co., Wolf & Dessauer and J. H. Gastoff & Co.—have been in frequent consultation with the decorating the east-and-west streets, that has let a contract for decorating at \$100. Another business building has given contracts for a total of \$250. I want to tell you there will be one beautiful transformation when this work is completed."

Three decorating firms—the Rurde committee, and these are placing decorations on business houses entirely in harmony with the general scheme of decorating adopted for the street work.

MR. FOSTER AT BLOOMINGTON

To Tell About the Fort Wayne Centennial and Other Celebration.

Samuel M. Foster, member of the Indiana historical commission, is at Bloomington today, to deliver an address on the occasion of the opening of the present there in connection with the state university. This pageant will be given in the daytime on the beautiful campus of the university. State Pageant Master, Langdon, is in charge. A number of other Fort Wayne people, chiefly graduates of the university, will witness the great outdoor play. Mr. Foster, in his address, will refer to the Fort Wayne pageant and speak in a broad way of the influence of the

modern dramatic portrayal of the story of the community.

AT THE WOMAN'S BUILDING

Preparing the Rooms to Receive Their Exhibits for Centennial.

A misunderstanding with reference to the plans of conducting the Woman's building display and service, has gone out to many who are entitled to an explanation. Everything in the Woman's building will be absolutely free, except admission to one room, namely, that which will be known as the loan exhibit of rare and beautiful and reminders of the days gone by. A charge of ten cents will be asked at the entrance to this room. Everything else is absolutely free to all.

In one of the other rooms will be the display of birds confined exclusively to the showing of the feathered creatures which inhabit northern Indiana. The children, when they view this wonderful exhibit, in charge of Miss Margaret Hanna, will not be shown a collection of birds from the tropics or from the distant regions of the earth, but they will all be specimens from the community in which these children have seen them in their wild state. Experts will imitate the songs of the birds, and in every way the exhibit will be a true educational demonstration of bird life about Fort Wayne. This display is free.

Many people will loan their collection of curios of all sorts, all suitably labeled and placed in cases. This display also, is free.

The Woman's league is preparing a room for the use of visitors, where refreshment punch will be served and where conveniences for writing and reading will be provided. The hostesses will be the past presidents of the club assisted by others who have added to the success of the organization. All will be welcomed to this room. Mrs. Brod & Co. are providing the furniture.

A Model Sick Room.

In charge of Miss Irene Byron and Red Cross nurses, a model sick room will form one of the good exhibits of the Woman's building. In one of the windows will be placed a model bed for the provision of out-door air to the invalid in the treatment of tuberculosis.

The Mary Wayne Pénrose chapter, Daughters of the American Revolution, is preparing an appropriate exhibit and rest rooms in the building, free to all.

Mrs. Will Noll will have the general charge over the large display in what it to be called the commercial exhibit room. Here will be shown many articles of special interest to women, and the methods of their manufacture.

Mrs. Ben Levy will have charge of the rest room features of the entire building. Arrangements have been made for rest room space in many parts of the building.

QUESTIONS AND ANSWERS

Q—Is it true that all of the circus acts at the industrial exposition are free.

A—Anyone who pays 25 cents to see the exposition gets the circus acts and the concerts by the Highlands band free.

Q—Is there a parade in connection with the pageant?

A—No. The pageant is not a parade. It is given on a stage, the same as a theatrical performance, only on a much larger scale. All of the parades are entirely separate from the pageant. The pageant is given only at night—June 6, 7 and 8.

Q—Where do I send in names of former Fort Wayne citizens so an invitation can be sent to them to come to the celebration?

A—Call phone 3900, the centennial headquarters, and give the name to the party that answers. R. B. Garmire, the office secretary, will see to it that the invitations are sent out the very same day.

Q—I want to get reserved seats for the pageant, and I don't know who is selling them. Where can I get tickets?

A—Go direct to the ticket booth at Wolf & Dessauer's.

THE "CORN DANCE" CHILDREN

Are Called for Rehearsal Wednesday Afternoon at 4 O'clock.

A special rehearsal of the boys and girls who take part in the "corn dance" at the opening of Scene 1 of the pageant is called for Wednesday afternoon at 4 o'clock at Shrine hall, Saengerbund building, West Main street and Maiden lane.

All who have been cast for this picturesque part of the opening scene will be expected to report promptly and bring their part up to a high degree of perfection Wednesday afternoon.

WHO?

She is Mabel Van Buren, who was one of the five leading members of "The Man of the Hour" company in Chicago ten years ago. The five players are now engaged in the movies. Miss Van Buren plays the part of Ramona Gonzaga in Clune's "Ramona." Before entering the motion picture field she had many notable engagements on the stage in the support of many of the best known stars.

METHODISTS ALMOST A UNIT FOR UNION

Conference Action Paves Way for Final Action in 1918 and 1920.

Saratoga Springs, N. Y., May 16.—The unification of the Methodist Episcopal church and the Methodist Episcopal church south, was endorsed almost unanimously by the Methodist general conference today.

The conference adopted the report of the committee on unification, which provides for further negotiations with the southern church, paving the way for final action by the general conference of the southern church in 1918 and by the northern church's general conference in 1920.

Vigorous Contests Loom.

Two vigorous contests were forecast by the announcements that the committee on episcopacy had voted to make a supplemental report recommending a further increase in the number of new bishops to be elected and that the committee on state of the church had decided against striking from the requirements for church membership the prohibition against theaters, cards and dancing. Both recommendations, it was predicted by conference leaders, would meet with much opposition.

The committee at a special meeting finally voted, 173 to 37, to recommend the election of seven bishops with powers of general superintendents, and a missionary bishop for Singapore.

Dr. Martin Is Heard.

"I beg of you to make provision for the church of the orient which will lay the foundations of the Methodist Episcopal church there," said Dr. Wallace W. Martin, district superintendent of the Methodist Episcopal church of the Fort Wayne (Ind.) district, in a speech yesterday opposing an increase in the number of bishops in addition to the two missionary bishops for Africa.

The amusement question came up for action before the committee on state of the church, which adopted the minority report of a sub-committee which had deliberated on the matter. The majority of the sub-committee, headed by Chancellor James R. Day, of Syracuse university, recommended that the prohibition against theaters, cards and dancing, and games of chance be eliminated while the minority recommended that the discipline remain unchanged. The vote of the full committee in favor of the minority report was 113 to 43.

GEORGE ADE TELLS WHY HE RESIGNED

Opposes Attitude of Purdue Faculty Toward Student Enterprises.

Brook, Ind., May 16.—George Ade, who has tendered his resignation to Governor Kistner as a member of the board of trustees of Purdue university, has issued the following statement:

"I am not resigning at this time because of any recent complications or sudden disagreement with anything happening at Purdue. For a long time I have not been in full accord with the faculty general policy of repression and regulation in the matter of student enterprises. No doubt the faculty must exercise a pretty firm control of undergraduate activities, but I think this could be done without nagging the students into a sullen and resentful mood. I could write a book about eccentricities and irresponsibilities of college students, but I am still of the opinion that you cannot teach a bird to fly by tying him to a limb. It has seemed to me that the kind of control exercised at Purdue in recent years did not encourage the boys to be self-reliant or cultivate a spirit of initiative. It was good training for subordinates, but not for executives. I am not maintaining that a faculty should take orders from the students, but I think there should be a sort of fellowship between the bodies, especially when it comes to getting out and making a fight for the reputation of the university. I believe that the tact and diplomacy necessary to secure a hearty and friendly co-operation between the faculty and students needs the inspiration of leadership as much as the iron hand of discipline. I was supposed to represent the alumni on the board. I was not sure that my private opinions would be approved by the alumni. I had definite instructions from the association. My duties as trustee were largely perfunctory. I did not feel that I was wielding much influence and so I was content to let some other alumnus step in and serve a term."

HEARING FOR MORIN IN UPRISING PLOT

Kingsville, Texas, May 16.—Jose M. Morin, former Villa army officer and alleged leader of a proposed uprising of Mexicans in Texas, New Mexico and Arizona, now in jail here, probably will be taken to San Antonio tomorrow for a preliminary hearing, according to United States officers. Twenty-seven men in all, it was said, are held in jail here in connection with the alleged plot. Arrests continued in the case, according to federal officers, and it is believed all the leaders will be detained before night. The proposed outbreak, it is alleged, originally was set for May 5. Later it was postponed until May 10, but before this date Morin was arrested.

SHE HAS FOUND WAY TO INTEREST HUBBY

MRS. B. F. ROLLER

San Francisco, Cal., May 16.—Mrs. B. F. Roller, "the physical culture bride," has discovered the way to hold a husband.

Here is the recipe:

"Wrestle for 10 minutes before breakfast so that he will start out the day feeling healthy."

"Know something about all the sports he knows. Be able to talk of the baseball game intelligently and outpoint him on plays if you can. This keeps him from the club where he goes to talk of sports and lends an air of companionship which makes a wife seem like a pal."

"Keep in athletic trim so that he will admire your suppleness, and by constant exercise be able to indulge in some of his sports, such as wrestling or boxing."

Mrs. Roller is the wife of Dr. B. F. Roller, the well-known wrestler, formerly in Seattle, but now in the east. Mrs. Roller is in San Francisco, having returned recently from a trip to Honolulu. Fearing to get out of trim while en route, Mrs. Roller astonished passengers by running a mile around the steamer decks each morning, manipulating ropes and teaching other young women tricks in wrestling.

1,855 PATIENTS CARED FOR DURING THE YEAR

Lutheran Hospital Society Holds Annual Meeting Monday Afternoon.

During the past year 1,855 patients were cared for at the Lutheran hospital, according to the report which was submitted at the annual meeting of the hospital society held Monday afternoon in the auditorium of the nurses' home. Of this number 926 were residents of Fort Wayne, while 721 were non-residents. There were also 123 babies born at the hospital during the past twelve months.

All the officers were re-elected for another year and are as follows: Rev. Philip Wambagans, president; R. Moeller, vice-president; Rev. August Lange, secretary; August Freese, treasurer; William Baude, financial secretary; W. Moeller, O. Bengt and C. Schlaudroff, trustees. Rev. Frederick Wambagans and Rev. Paul Miller were re-elected chaplains of the hospital. Hospital Sunday will be observed on the first Sunday in August at which time a special program will be rendered in the hospital grove.

The receipts during the year, which amounted to \$56,860.47, was sufficient to cover all the expenses of the institution, including \$2,000 interest. The property of the association is valued at \$155,063.06. During the year a portion of the expenses is listed as follows: Salaries, \$10,677.58; groceries, \$7,140; eggs, \$1,394; meat, \$4,307; milk, \$1,854; butter, \$2,993.

Mrs. Herman Mackwitz, secretary of the Aid society of the hospital, stated in her report that the society now had a membership of one hundred and fifty. During the year the members made the following articles: Three comforters, twenty-six quilts, thirty-seven towels, forty-four dresser covers, 243 bed sheets, 430 pillowslips and 993 pads.

NEWS OF FORT WAYNE'S NEIGHBORS

LIGHTNING BURNS TWO BARN.

Warsaw, Ind., May 16.—Two barns were completely consumed by fire and one slightly damaged as the result of the electrical storm which passed over Kosciusko county. The barn of Theodore Haab, who resides a short distance west of Milford, was burned to the ground and four head of horses consumed. The members of the family heard the crash and looking out of the window saw the flames shooting up from the roof of the building. Owing to the large quantities of hay stored in the barn the flames spread rapidly and it was almost impossible to save any of the contents. The loss is covered by insurance carried in the Farmers' Mutual. Fire destroyed the barn of Sarah Garman, located two miles south of Claypool.

FORMER PONENTO MAN KILLED.

Montpelier, Ind., May 16.—Milton L. Collins, 28, formerly a Poneto young man, who has been in Indianapolis and was an employee of the real estate department of the Fletcher Savings and Trust company of that city, was killed in an automobile accident near that city and C. E. McMorris, clerk at the Claypool hotel, was injured slightly. M. S. Lloyd, a driver from a garage in that city, was driving the machine and attempted to pass another machine going at the rate of about forty miles an hour when it skidded. Collins was thrown against a watering tank and his neck was broken.

BAD CHECK CAUSES ARREST.

Warsaw, Ind., May 16.—An attempt to cash a check for \$125 on the Globe Clothing company here caused the arrest of Miles Makemson, the seventeen-year-old son of Homer Makemson, who resides a short distance north of Piercetown. Young Makemson bought a suit of clothes at the Globe and offered in payment a check for \$125, bearing the signature of John Perry. The check was made out to Carl Betz and was payable at the Piercetown bank. When questioned the boy stated that he had been given the check by a party at Piercetown and as a reward for passing it was to get a new suit of clothes and one dollar besides. He refused to divulge the name of the party.

WARSAW COUPLE MARRIED.

Warsaw, Ind., May 16.—A very pretty wedding in which Everett Shipley and Miss Lucile Morris were united in marriage, was performed at the home of the bride's parents, Mr. and Mrs. B. Q. Morris, Monday. The ceremony was performed in the presence of a few of the intimate friends of the young couple. The ceremony was performed by Rev. A. W. Littrell, the beautiful ring service being used. The home was artistically decorated with white lilies and pink sweet peas. After a honeymoon at Yellow Banks Mr. and Mrs. Shipley will be at home to their friends at their farm seven miles southwest of this city.

KNOCKED DOWN BY LIGHTNING.

Columbia City, Ind., May 16.—Ray Phillips, salesman at the William Shiner grocery, was knocked down by lightning during the morning storm. He and his father had been working in the back house some distance from the rear of their dwelling and when the storm came up they were ready to start for the house. The young man was carrying a pair of pinches in his hand and when the lightning flash came the pinches were thrown for a distance of fifty feet. There is a slight ravine between the house and the shed at the Phillips home and it was while in the ravine that the lightning struck him. Mr. Phillips, who was wearing a pair of rubber boots, escaped the shock. He picked his son up and he was soon all right and they continued their journey to the house.

INDOOR LIFE MAKES FAT

TRY OIL OF KOREIN TO KEEP WEIGHT DOWN, OR TO REDUCE SUPERFLUOUS FAT.

People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against over stoutness, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any persons who are satisfied in their own mind that they are too stout are advised to go to a good druggist and get a box of oil of korein capsules, and take one after each meal and one just before retiring at night.

Even a few days treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of the old energy; footsteps become lighter and the skin less flabby in appearance as superfluous fat disappears.

Oil of korein is inexpensive, cannot injure, and helps the digestion. Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial. Advertisement.

has resigned, following an investigation instigated by the school board of alleged misconduct on the part of the school principal. It was alleged that Mr. Hayden was indiscreet in his actions toward certain pupils at the school. Complaint of Mr. Hayden was made by girl pupils, it is understood, whose parents believed, after hearing their stories, that the principal carried his protestations of friendship too far. Whether with good or bad intentions, it was felt that such actions should not be permitted.

CHILD HAS NARROW ESCAPE.

Bluffton, Ind., May 16.—Vera Johnson, the small granddaughter of Mr. and Mrs. Levi Jacobson in whose home she is visiting in Liberty township, met with a painful experience, which nearly cost her life. She ate some medicine, thinking it was candy. Dr. Garrett was summoned and succeeded in reviving the child who had gone into convulsions. Although out of danger, the child still is very weak.

INFANT DROWNS IN JAR.

Portland, Ind., May 16.—Clara Grace Caster, aged sixteen months, and the only child of Harley C. and Mary Bailey Caster, was accidentally drowned at the family home on a mile west of Westchester. The baby was playing near a twelve-gallon jar, which contained less than five inches of water. Having dropped a comb and several articles into the jar it is supposed the child attempted to reach for them and fell head first into the water, pulling a bucket into the jar as she fell, the bucket concealing her from view.

NO MORE SUNDAY FUNERALS.

Auburn, Ind., May 16.—There will be no more Sunday funerals in Auburn if the wishes of the Auburn Ministerial association are carried out. At their meeting at the Y. M. C. A. Monday night every pastor of the city was present. A motion was made to discourage the idea of Sunday funerals, this motion to be announced to the public. The association decided to hold meetings on the streets Saturday evenings whenever possible. The street meetings will be of an evangelistic nature.

SYRACUSE BOY IN CAMP.

Warsaw, Ind., May 16.—Dallas McClintic, of Syracuse, is representing Kosciusko county at the camp of military instruction, which opened today at the Culver Military academy on Lake Maxinkuckee. The camp will end May 20. This short term is open only to the high schools of the state.

CULVER CAMP IS OPENED.

Over 500 High School Students in Military Training There.

Culver, Ind., May 16.—"Camp Woodrow Wilson" sprang into being yesterday when more than 500 high school students arrived at the Culver Military academy and began two weeks of military training. The boys were issued uniforms, rifles and mess kits and assigned to companies. Culver cadets, which includes the famous "black horse troop," are assisting the officers of the academy in instructing the recruits.

The course is designed primarily to train high school boys so that they may be leaders in schools which plan to introduce military instructions as a part of the school work next year.

Among the states represented at "Camp Woodrow Wilson" are Illinois, Indiana, Ohio, Michigan, Iowa and Kentucky.

HOOSIER POET IN FILMS.

Locke Street Scenes to Be Shown in Centennial "Movies."

Indianapolis, May 16.—James Whitcomb Riley made his debut as a motion picture star at his home on Locke street yesterday. A large number of scenes showing Mr. Riley telling a score of small children the history of their state were staged. The individual "star" of the scenes, in addition to Mr. Riley, was his niece, Miss Elva Riley Eitel, the 3-year-old daughter of Mr. and Mrs. Edmund H. Eitel. Miss Eitel was not one bit "camera shy."

The scenes staged are to form the part of the state centennial film which is to be a feature of the various centennial celebrations this year.

NEW CANDIDATES START CLIMBING TOWARD THE TOP

Offer of Ninety Thousand Bonus Votes for Combination of Twenty-Five Dollars Worth of New Subscription Payments in Sentinel Big Automobile Campaign Interests Many Who Join Merry Race.

Not since the original announcement of The Sentinel's big automobile and prize campaign has anything been received with such genuine enthusiasm and favor as the 90,000 vote bonus and \$200 in gold. As a special reward it bids fair to stand out in this interesting campaign as the most liberal inducement placed before the eager candidates.

An impressive feature in connection with the offer is the number of new candidates that are now entering and the many who, hitherto inactive, are getting busy. Still, this is not surprising when it is considered that now, and during the next twelve days of this offer, more votes can be gotten on new subscriptions than at any time later. Older candidates are finding it expedient to look to their laurels, for these candidates carry an impressive air about them that denotes they mean business.

Concerning this phase, one of the entrants said: "You can believe that I mean business. Here I've put off entering the campaign for three or four weeks. But I just couldn't stay out. I saw my friends getting closer every day to one of the automobiles, and I decided I could do it, too. I am certainly going to win a car. I have not had a bit of trouble in reaching the top of the list, and I'm going to stay there until the end."

For a new candidate to negotiate the distance to the top is easier than it may appear. Frankly, new subscription will accomplish twice as much in advancing a candidate as old subscriptions. Every effort should be bent in the direction of new subscriptions. Some may say to get new subscriptions is hard, but if it is hard for one it is hard for all, and the best you can. Other are getting new ones, so can you.

A certain candidate came to the Campaign Office yesterday and handed in five office weeks subscriptions. "There," she said, "that's my work. Of course, they are little ones, but they help. I induced those people to take the paper for fifteen weeks to see how they liked the paper. They only spent \$1.50 for it, and in two or three weeks I'll call back and try to get a special payment for a longer time. In the meantime I'm working for the special offer."

The same can be done by any other woman. Ask your friends and neighbors—everybody in your neighborhood—for a subscription. If they demur at a long term subscription, get them for fifteen weeks anyhow. Once they are receiving the paper they will want to continue it and candidates can thus secure second payments which will count as new subscriptions if the original payment was also "new."

All such subscriptions in fact, say bonus five new subscriptions to The Sentinel from fifteen weeks to five years, can be clubbed together in building up a combination of \$25. Not only do the regular votes issued on each individual subscription, but an extra bonus of 90,000 extra votes will be given on the club.

Candidates can turn in as many clubs as they desire and they will receive credit for each. This special offer extends till May 20, 9 p. m.

Another thing: Candidates who secure second payments on new subscriptions turned in on the last offer, can apply them on the present offer.

The \$200 in gold, which will be given free to the four highest candidates who turn in the four highest amounts of votes, can be clubbed together also, during the vote offer, and also during the contestants on to redoubled efforts. They are single minded in the hope that they will win one of the four gold prizes, many thousands of extra votes, and in the end, one of the four automobiles.

To guard against the possibility of making mistakes in turning in subscriptions, every candidate should observe that under no circumstances will the practice of "switching" subscriptions be tolerated, and any attempt to thus gain extra votes will prove utterly useless and only lose the votes in the end.

Some candidates are under the misapprehension that if The Sentinel is going to a certain address and is merely changed to another member of the family or household or any other person at the same address, that such procedure will make a new subscription out of an old one. IT WILL NOT.

The object of this campaign is to

Dyspeptics Should Avoid Drugs And Medicines

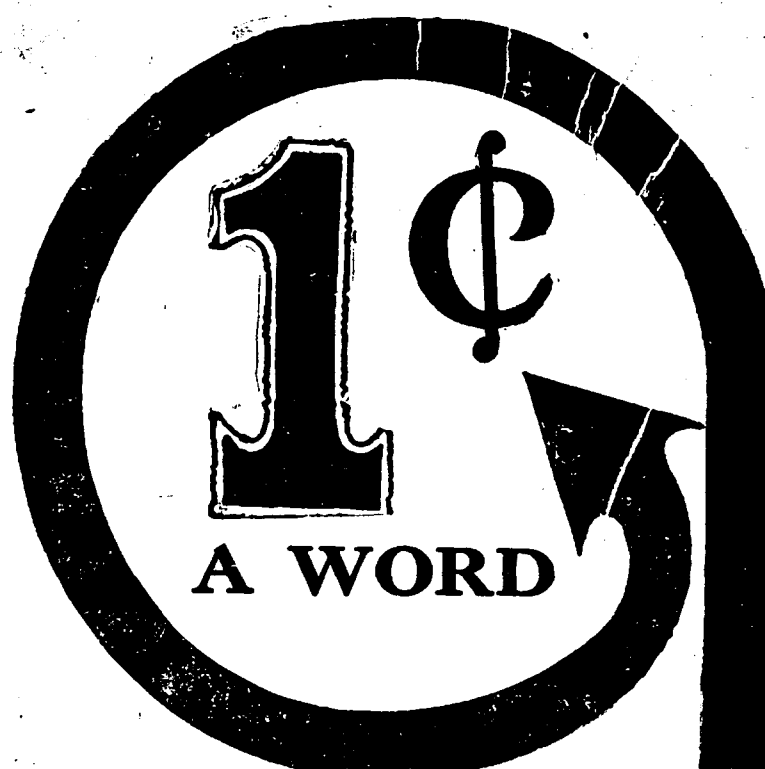

Try a Little Magnesia Instead. Some people instinctively shut their eyes to danger, and it may be that instinct or custom or habit cause dyspeptics to take dangerous, costly and medicinal, artificial stimulants, etc.

But closing the eyes does not banish the danger, and it is certain that neither drugs nor medicines possess the power to destroy the harmful excessive acid in the stomach, which is the underlying cause of most forms of indigestion and dyspepsia. They may give temporary relief, but ever increasing quantities must be taken, and all the time the acid remains in the stomach as dangerous as ever.

Physicians know this and that is why their advice so often to sufferers from digestive and stomach trouble is "Just get about an ounce of pure bicarbonate of magnesia from your druggist and take a teaspoonful in a little water immediately after every meal. This will instantly neutralize the harmful acid in the stomach and stop all food fermentation, thus enabling you to enjoy hearty meals without experiencing that painful or unpleasantness afterward."

INCREASE the number of legitimate subscribers to this paper. To do that NEW subscribers, that did not exist before, must be added. Merely placing the subscription under another name would be useless.

The rules defining "new" and "old" subscribers are both simple and positive. Any person who was receiving The Sentinel on the opening day of this campaign, regardless of whether he or she was paying by the month or otherwise is an OLD SUBSCRIBER. All others are NEW.

6-5-tues-fri-17 LESS BEER CONSUMED.

But Internal Revenue Report Shows Increase in Whisky Output.

Washington, May 16.—Notwithstanding the fact that prohibition laws have become effective in seven states since July 1, 1915, approximately 7,500,000 gallons more whisky has been produced in the United States so far during this fiscal year ending June 30, than ever before.

Returns to the internal revenue bureau approximate the total increase for the year at 10,000,000 gallons.

During the same period the production of beer has decreased more than 1,500,000 barrels, or 45,000,000 gallons from last year's figures. The total production of beer for the year ending June 30, it is estimated, will be about 60,000,000 less than it was in the last fiscal year.

An extraordinary increase in the amount of cigars, cigarettes and tobacco is reported for the current year. The tax collected during the nine months ending March 31 shows an increase of approximately \$5,000,000 on tobacco, which includes cigars and cigarettes, over the last fiscal year.

FARMER IS HAPPY AT END OF TRIAL

Ralph Wise is Elated With the Results Tanlac Gave Him.

"I am mighty glad I tried Tanlac," Ralph Wise, a well known farmer, who lives on rural route No. 8, Fort Wayne, said recently while discussing the work of the new medicine in his case.

"For a long time I suffered with stomach and liver trouble," Mr. Wise continued. "There was a sore spot on my stomach that has bothered me for 5 years. Often I would cramp immediately after eating and the pain would be very severe."

"I heard about Tanlac and decided to try it. I have taken four bottles of the medicine now and am greatly improved. The pain has disappeared from my stomach. I am not bothered any more with cramps that formerly attacked me. Yes, I'm glad I tried this new medicine."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, nervousness, loss of appetite and the like and is a fine tonic, building up to health and strength weak, run down people.

Tanlac is now being introduced in Fort Wayne at the Wayne and Calhoun street stores of the Meyer Drug Co., where the Tanlac Man is explaining the new remedy. It also may be obtained in Fort Wayne at the other Meyer stores, Calhoun and Columbia, 1420 Calhoun and Broadway and Taylor.—Advertisement.

Misses Mary and Irene Ewert went to Valparaiso to attend the wedding of their cousin, Lola Belle Ewert and Stanley Swansburg. The Swansburgs will live at Akron, O.

Misses Ruby and Ruth Whitehair have returned from Miami, where they visited with Miss Dorothy Whitehair.

Mrs. Ida Thomas returned to Fort Wayne after a visit here with Mrs. Lafe Baker and others.

Miss Gladys Barrone left for Sturgis, Mich., for a visit with relatives.

Heber Fommer and Miss Bessie Wilder went to Fort Wayne today to attend the wedding of his cousin, Vashti Fommer.

Mrs. Ernest Cross and children returned to Rome City today after a visit with her parents, Mr. and Mrs. John Sprague.

Mrs. Homer Raudebusch and children went to Fort Wayne for the day.

Mrs. Melinda Frensdorf returned to Fort Wayne after a visit here and attending to business.

Mr. and Mrs. Charles Rich and P. B. Klopstein left for Archibald, O., to attend the funeral of a cousin, Mrs. Joel Nofsinger.

Mr. and Mrs. Alva Buffenbarger and son Carl returned to Fort Wayne after attending to business here.

Miss Vina Green returned to Portland after a three months' stay with her brother, Clay Green, near Pleasant Mills.

Mr. and Mrs. Harvey Springer and babe went to Berne.

Miss Alta Johnson returned to Monroe after a visit with her sister, Mrs. Fowler, at Fort Wayne.

Mrs. John Chitts was called to Fort Wayne by the serious illness of her granddaughter, Mrs. Dona Thompson.

Mrs. Henry Myers returned to Convoys, O., to prepare to move here.

Miss Mayme Deininger left for Fort Wayne on a business trip.

Mrs. C. W. Lattin, of Toledo, O., visited here with relatives and also called on her brother, Cornelius Rademaker, in Fort Wayne.

Mrs. Lawrence Green and son Stanley left for St. Louis, Mo., for a visit with her sister, Mrs. William Chambers.

Mr. and Mrs. Charles Bauer, of near Preble, were shoppers here.

Mrs. Thomas Dowling was given a surprise party, the same being in the nature of a house warming, at their home on West Monroe street, to which they recently moved.

Abie Boch returned last evening to Fort Wayne after attending to business here.

Ruth Patterson and Joseph Rapp, of Syracuse, were guests at the C. J. Lutz home.

Inasmuch as there are no cases ready for trial, the June session of the federal court will probably not be held and the cases pending will not come up for trial until the winter session in December.

TEN-DOLLAR HOSS BONE OF LAWSUIT

Ed Evans Acquitted in City Court on Charge of Selling Diseased Animal.

A little mare than changed hands recently for a cash consideration of \$10 and again for \$10 and still later was a detail of a joblot \$40 bargain that included a good buggy and a tolerable set of harness, figured as the bone of contention in a state case that engaged one hour of the good time of the city court and near half a score of witnesses in the municipal tribunal Tuesday morning. Edward L. Shondell, rural route 15, charged Ed Evans with selling a horse knowing the animal to be diseased. The precise affliction of the little mare is a case of heaves, which Shondell said gripped her when he made the purchase and which Evans declared was a post-bargain development. Dr. Charles J. Gruber, president of the Indiana board of veterinary registration, was called to the witness stand as an expert. Shondell declared he had purchased the animal along with the buggy and harness for \$40 on the guarantee that the mare was perfectly sound. The court seemed to think that a nag that could hop the market in ten-dollar deals was entitled to some latitude for indulgence of the hypochondria of her sex and acquitted the defendant.

John Driver Fined. William Wordell, driver of a jitney bus, drew a fine of \$1 and costs, amounting in all to about \$15, on being convicted of a charge that he had driven his carryall past a street car standing to discharge passengers at Main and Harrison streets. He did not deny driving by, but said he saw no passengers entering or leaving the car. Two passengers—a very large lady and a child—had just stepped from the car as the jitney man whizzed by.

Other City Court Cases. Frank Kelly was conducting an interesting experiment respecting the effects of copious doses of alcohol on the human system and its mental equipment when he was doing an animal dance on all fours at the city dump, when Officer Joe Degitz, of the wagon squad, and Patrolman George Heller got to him. He was coerced from his trance and locked up. Judge Korr let him go.

Dell Chapman, a drunk, was fined \$1 and costs, Robert Connor, another, was continued until Wednesday, and Henry Freitag, held for several days to become thoroughly sober, was allowed to go home.

Prosecutor John C. Hoffman dismissed the assault and battery case against Fred Sheldon.

The \$100 bond of Laura Baugh, a negro arrested on a loitering charge pending investigation of her part in the robbery of a white man on the street, was declared forfeited. The woman jumped her bail and went to Toledo.

FORGER REDMOND ESCAPES.

Dispatches from Michigan City do all the escape from the state prison there of George Redmond, who was sentenced from this county last December for forgery. He was detailed as a trusty and employed as chef to the warden of the penitentiary. He disappeared from the prison Monday morning soon after he had been discharged from his cell to the Warden's residence to get breakfast, feigning illness and getting into the hospital, where he was supposed to be until afternoon, when his absence was discovered. Redmond forged a \$25 check here last fall with the name of Rev. Robert E. Kelly, of the cathedral clergy, and passed it at the Wabash depot for a ticket to St. Louis and received the balance in change. He was arrested by Officer Frank Cheiron. Redmond is a skillful forger and served a term in the Minnesota prison at Stillwater for a similar offense. The man is crippled.

STOLEN TOOLS PAWNED.

A lot of stonecutters' tools stolen from two chests at the Geake stone yards Saturday, were found at a pawnshop by Detective Sergeant W. E. Papert, who has a description of the men who pawned them.

WOMAN TAKES BAD CHECK.

A stranger who engaged a room of Mrs. Laura Blackburn, 1444 Broadway, paying \$4 in advance, gave her a check for \$10 and received \$6 cash in change. The check is worthless and the stranger evidently has disappeared.

WILL DEVELOP BOND BUSINESS.

Department is Established by German-American National Bank.

A bond department has been established by the German-American National bank and J. Herman Bueter, ex-county treasurer, has been placed in charge. The bond department is to be conducted in connection with the bank, particular attention being paid to the purchase of municipal, gravel road and street improvement bonds and other tax-exempt securities. Theodore Wertz and Mr. Bueter Monday purchased \$100,000 worth of road bonds from the county treasurer of Jay county and also \$10,000 worth of the same kind of bonds from the treasurer of Adams county.

HAIRCUTS 35 CENTS.

Increase Will Go Into Effect in Union Shops on June 5.

Effective Monday, June 5, haircuts in all the union shops in the city will be 35 cents, an advance ten cents. This action was taken Monday evening at the regular meeting of the Fort Wayne Barbers Union. All other prices in the tansorial line are to remain the same. As a result of the increase in the price of haircuts the barbers employed in the various union shops of the city are to receive an increase in wages of \$1 on the week.

Special hours were adopted at the meeting for centennial week. The shops will open one hour earlier, at 7 o'clock, and close at the usual hour, at 8 o'clock.

There is little change in the condition of Mrs. James Clark, 1203 St. Mary's avenue, who stepped backward off the curb at the Anthony hotel Sunday evening directly in front of a jitney bus and was knocked down. She is conscious only part of the time.

Society

On every side is heard talk of the Centennial celebration and the pageant. Club women are enthusiastic on the subject and the woman's league is striving to make June 8 one of the representative days by having Fort Wayne's prominent citizens present and so far as possible occupy box seats and in other ways lending distinction to the appearance of the audience and thereby gracing the occasion when Gov. Ralston and Hon. William H. Taft are present.

With Miss Marie Centlivre in the leading feminine role, Miss Maribel Olds as the comedienne and Earl Thompson, Al Gessler and Ross Davis all in important roles, the promised "movies" of local people in a real play at the Jefferson theater is being eagerly anticipated. Real rehearsals began today and there are to be pictures of Fort Wayne crowds and dancers and scenery, just as is done in working out any scenario before the camera.

The Lakeside Normal school is planning to have a flower festival on June 10.

Mr. and Mrs. H. B. Master and family left on Monday for a two weeks' stay at Atlantic City.

Miss Martha Vail, of South Webster street, entertained the So-Char-Rea club Tuesday afternoon.

Mrs. Lucinda Benner, of Tiffin, Ohio, is visiting her sister, Mrs. Anna Hazard, of Third street.

Miss Ethel Rohan left on Sunday evening for Pueblo, Co., to visit her sister for some months.

Mrs. Stephen Trentman has returned to Chicago after a few days' visit with Mrs. H. O. Bruggeman.

Mrs. Peter A. Thompson, of Kinnaird avenue, is going to Lafayette on Thursday for a visit with relatives.

The Dywidi club will be entertained on Wednesday afternoon by Mrs. Charles Rossett, of Riverside avenue.

Misses Marjorie Kilgore and Bessie Smith are going to Delphi to visit Miss Kilgore's grandmother for a few days.

TODAY'S AID TO BEAUTY

An especially fine shampoo for this weather, one that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be made at trifling expense by simply dissolving a teaspoonful of cantharox in a cup of hot water. Pour slowly on scalp and massage briskly. This creates a soothing, cooling layer. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a fluffiness which makes it seem much heavier than it is. After a cantharox shampoo arranging the hair is a pleasure.

ROSE-BUD SODAS
"The Cracker for You That Splits in Two."
Your Grocer Sells Them

of Miss Mary Redmond, 1026 Washington boulevard east, recently. Lilacs and lilacs of the valley formed a beautiful decoration and a buffet luncheon was enjoyed during the time. Other guests who enjoyed the occasion were Misses Mildred Scherer, Elenora Gause, Emma Franke, Esther Harper, Louise Markonider and Henrietta Drake. Miss Mayne Chapman, of 802 Witt street, has issued invitations to a shower party to be given in honor of Miss Scherer.

The Misses Marie and Louise Schoenherr were honored in a very enjoyable birthday party given Sunday at the residence of Mr. and Mrs. Martin Kennerk, on the Bluffton road, seven miles south of the city. There were games, refreshments and a general good time. The guests included John Schwartz, Herman Wesley, Mr. and Mrs. Hart and daughter, Mr. and Mrs. John Cramer, Mrs. Verweire and daughter, Mr. and Mrs. Will Sovine and daughter, Mrs. Tirza Kennerk and family, Louis Colvin, Mr. and Mrs. Homer Sovine and daughter, Mr. and Mrs. Fred Pressler and son, Arthur Sovine, Ed Breese, Mr. and Mrs. Ray Doctor and daughter, Misses Phoebe and Martha Tomkinson, Misses Ruth, Helen and Velma Riehl, Misses Etta and Flora Hilleker, and Misses Elsie and Mary Kennerk.

Hoffman-Fonner.

Miss Yashti M. Fonner, daughter of Mrs. Lillian M. Fonner, and Mr. Alois M. Hoffman were married at 8 o'clock Tuesday morning at the Cathedral. Rev. J. A. McCarthy officiated at the marriage ceremony and mass. The bride was attended by Miss Frances McGuire and the groom by his brother, Mr. Eugene Hoffman. The ushers were Messrs. Clem Eckrich and Clarence Alter. The bride looked very lovely in a plain old-fashioned looking suit of blue taffeta, with short full skirt and a cape-like effect about the jacket, with which she wore a flower bonnet of "crushed" pink roses. The bride carried a white prayerbook with marbled endpapers and a small bouquet of pink roses. The bridesmaid wore a brown silk suit with hat to correspond and held a bouquet of pink roses. After the service the wedding party were served a breakfast at the home of the bride, 1031 Fairfield avenue. The dining room was tastefully decorated in spring flowers with pink and white the prevailing colors. Later in the day the bride and groom left via the Pennsylvania lines for a two weeks' absence. Mr. Hoffman is a clerk in the G. R. & I. offices and is a highly respected young man. The bride is an attractive and sweet young woman with many friends. After their return Mr. and Mrs. Hoffman will make their home with Mrs. Fonner.

SATURDAY CLUB CLOSING YEAR.

Mrs. H. B. Sale Hostess and Miss Hanna Talks on Birds.

The Saturday club held its closing meeting for the season on Monday afternoon with Mrs. H. Brook Sale, president of the club, at her home west of the city, Hickoryhurst. Miss Margaret Hanna had been invited to give a talk on birds, of which she has made a study for several years and the members of the club in attendance spent a delightful hour hearing of the songsters right about them, but with which few were familiar. The club decided to change its meeting days from the first and third Mondays in the month to the second and fourth Mondays and will begin its next seasons work on October 9. Mrs. Charles R. Lane read the program of study laid out for the next year's work. It will be a continuation of the study of Indiana. Mrs. Sale served refreshments and was assisted at the time by Mrs. E. G. Hoffman and Mrs. J. J. Kline. Mrs. G. W. McCaskey extended an invitation to the Saturday club to attend a lecture by the state biologist at the First Presbyterian church, for which Mrs. D. W. Moffat will be the hostess and other members of the Woman's Reading club will be assisting hostesses. Mrs. McCaskey said the invitation is extended to all club women of the city. The date will be announced. The members of the Saturday club are: Mesdames D. J. Corey, W. H. Crighton, G. F. Bliss, J. H. Breidenstein, A. J. Detzer, C. R. Dryer, G. P. Evans, J. P. Evans, M. B. Fisher, H. R. Freeman, J. C. Hoffman, Thomas Jackson, John Jacobs, C. R. Lane.

Favorite Recipes of Movie Players

Irene Hunt

(By Irene Hunt.)
To me there isn't anything more delightfully different than donning a big apron and fussing around in the kitchen.

My cooking fancy leads me to creating light dishes and adornments, rather than the heavier foods. I have been very successful at making dandelion cream salad dressing.

This is the recipe I use in following proportions:
Two eggs, 2 tablespoonsful of sugar, 1 teaspoonful of salt, cayenne pepper, 1 tablespoonful of butter, 1 cup of vinegar, 1 cup of water and one teaspoon of cornstarch. After beating the eggs, add the sugar and mustard, salt, pepper and cornstarch. Beat all smooth. Add vinegar, water and butter. Put this on a slow fire and stir steadily. Let it come to a boil for about two minutes and then remove from the fire.

AT KEITH PALACE

THE LETTER FROM HOME.

Playlet at New Palace Ridicules Demencia Americana.

Demencia Americana, the defense made famous in the recent popular history of this country, is ridiculed cleverly in the sketch, "A Letter From Home," which Thomas P. Jackson and company are presenting on the current bill at the Palace. "Don't get sore on yourself and your wife and the fellow she ran away with. Be sorry for the fellow that took her," is the trend of advice given the brooding young fellow whose wife had found life with him too much on the doldrum order and eloped with another fellow.

The real sensation of the bill is the Princess Kalona, the red-head hula hula dancer, who, with the assistance of William Rao, is presenting fifteen minutes of Hawaiian entertainment, including vocal and instrumental selections as well as the famous native dance. Neil McKinley, the prominent nut, sings a bit, tells some funny stories and presides at a ludicrous mock wedding in the course of a real single act. John Geiger, the fiddling wop with the talking violin, provides a group of surprises with his bow and strings. Tearing paper and playing organs sounds rather puerile, but there's nothing childish about the way the Morton Brothers do these things in the opening act on the bill. One of them fashions a fancy table cover and tears the words "Palace, Fort Wayne" in the paper while telling stories and seemingly doing everything except paying attention to the job in his hands.

AT THE TEMPLE.

POPULAR MELODRAMA

Continues to Please Patrons of Temple Theater.

"The Banker, the Thief and the Girl" continues to please the patrons of the Temple theater and the large crowds which have witnessed the show have said it is a decided success. The Timothy H. Hart play is a melodrama of city life and the underworld and a lesson for all is acted out on the stage. There is not a dull moment and thrills abound from the opening curtain to the close. There is a villain whose plans are eventually foiled by the hero and hisses for the villain and applause for the hero are frequent. It is a melodrama of the old but popular type and last but not least it is a consistent

Hubby Will Leave for War After He Marries This Girl

MISS MARGUERITE B. LAWRENCE

Alameda, Cal., May 16.—Miss Marguerite Burns Lawrence is soon to be a "war bride." She will leave here shortly for Montreal, Canada, to become the wife of Walter S. Sutherland, who intends to enlist for war service following his marriage.

Miss Lawrence, who is an accomplished musician, is the daughter of Anos J. Lawrence of Montreal. She has, however, been living with her sister, Mrs. A. J. Messenger, of Alameda, for several years. Sutherland, a civil engineer, is a recent graduate of McGill university.

FIRST DELEGATE TO REACH CHICAGO FOR CONVENTION IS A WOMAN.

Mrs. L. F. Lusk

"Men are emotional sex," declares Mrs. Lusk of Montana; "You can't drive women to frenzy by a keynote speech!"

By Honor Fanning.

Chicago, Ill., May 15.—"When women share with men responsibility for national politics, national conventions will not be the tumultuous, nerve straining gatherings they are today—for women will bring into politics deliberation, sincerity and serenity."

So says Mrs. Louise F. Lusk of Missoula, Mont., first of the republican national convention delegates to arrive in Chicago, and one of the eight delegates to represent Montana in the convention that opens June 7.

Having blandly quashed man's indictment that woman sometimes sins

against serenity, Mrs. Lusk proceeded to tumble one tradition down upon another.

"Men are the emotional sex, not women," said the woman delegate, with a winsome smile that had the imp of fun in it. "Men are more nervous and high-strung than women. The strain of modern life presses harder upon men than upon women."

"Women are taking politics seriously. They will be serious in conventions and conferences; they will act, I am sure, with deliberation, with dignity and with a high purpose."

"They will not be driven to frenzy by the phrases of a keynote speech; they will give judicial consideration to the business of the convention."

"The national conventions will be the voting woman's opportunity, her first big opportunity to show that she has passed beyond the kindergarten of politics, that she is ready to deal with the affairs of the nation!"

"There will be less than half a dozen women among 1,000 men in the republican convention, but we will make our presence felt. We are prepared to act on committees, to remain locked in the Coliseum for as many sessions as they want to keep us there; we will work like delegates, and expect no privileges or immunities because we are women."

Mrs. Lusk is a director in the First National bank of Missoula, and works at her roll-top desk every day, the same as other directors. Her husband, Frank Lusk, will be a convention guest.

SEATTLE OUTCLASSES RENO AS CITY OF EASY DIVORCES.

King county has taken the record from Reno, as the "City of Easy Divorces."

By Jack Jungmeyer.

Seattle, Wash., May 16.—Seattle has ousted Reno from the distinction of being the divorce center of the United States.

The tower of the King county court house here is the symbol of easy and prolific severance of marriage ties.

It has been dubbed "the divorce mill." Sixty-two default divorce cases tried here in one day recently called attention anew to the fact that Washington state leads the Union in the number of shattered marriages. The proportion is in excess of 500 per 100,000 of population.

The average grist of the mill is from 22 to 25 divorces a week in Seattle alone. On many days the mismeated are separated at the rate of one every hour.

The documents in these cases afford an interesting commentary on why people no longer stay wed.

Cruelty—given a rather wide latitude here—leads the list. Of 33 decrees recently granted, 14 hinged on this ugly passion.

Non-support, cases where love seems to have simply fizzled out slowly, comes next with eight out of the 33.

Drink alone was chief factor in only

two divorces, but had a bearing on five others. Desertion claimed a toll of seven. Immorality featured five; jealousy two, and extravagance two.

Women were the plaintiffs in 25 of the 33 cases tabulated.

Ten years seems about the average time for marital discord to reach the breaking point.

Half the homes considered in the above list were childless, and in the other half 20 children were affected. The wife sought custody in only seven instances.

That alimony is a comparatively unimportant consideration in breaking the bonds is shown in the fact that it was demanded in only six suits, averaging \$32.50 per month.

Superior court judges here agree that the law, permitting a wide latitude in divorce, is making serious inroads on the binding quality of marriages.

Lack of legal machinery to check up on default cases, where suits are not contested, is also a big factor in making divorce easy.

As a result, one family in every 200 in the state of Washington is scheduled to be disrupted by divorce, with the proportion much greater in Seattle.

FEAR OF ATTACK IN EGYPT IS PASSING

Turk is Not Expected to Launch Extensive Raids in Future.

Cairo, Egypt, April 15.—(Correspondence of the Associated Press)—Serious Turkish attacks on the Suez canal and Egypt, with the coming of the hot weather and the drying up of many of the desert water-holes, are now thought to be only a remote possibility, though sharp raids may, it is thought by the allied military authorities, be attempted by the Ottoman commanders.

Turkish troops are still on the Sinai peninsula, an arid tract of Egyptian territory lying between the Suez canal and the nominal boundary of Turkey in Asia, stretching across from Rafa on the Mediterranean to Akaba on the gulf of the same name forming an arm of the Red Sea. They are, however, the object of repeated observation on the part of the allied armies, and reconnoitering parties have been sent to watch them and made themselves fully acquainted with their dispositions. Only recently the occupation by allied troops of Jifjafa, about sixty miles to the east of the Suez canal, placed an obstacle in what would have to be the main line of a Turkish advance toward the Suez.

This runs from El Audja to Ismailia. Two other practicable routes lead from the Turkish positions across the desert sands towards Egypt proper. The first runs parallel with the Mediterranean coast line from Rafa through El Arish and Katia to El Kantara, but some time ago the Katia district with its water supply came into the allies' possession and rendered difficult any attempt by the Turks to force their way along to the canal banks and Port Said.

The second remaining line of possible approach is further to the south from Akaba by way of the oasis of El Hasana towards Suez. It was this oasis occupied by Turks and Arab horsemen which was bombed by allied airmen in March.

Nothing is permitted to be recorded of the preparations made by the allies to meet any effort at a Turkish offensive movement.

The Prince of Wales, now a staff captain, a few weeks ago made a tour of the entire front and saw the allied troops at their work of strengthening their line, which runs through districts where the Israelites once fled from Egypt are said to have drunk from wells still in daily use.

OSSIAN NEWS.

Ossian, Ind., May 16.—Mrs. Josephine Peel, of Los Angeles, Cal., came to Ossian Friday afternoon and was a week-end guest with her mother, Mrs. Winifred Thurber, and with her brother and sister-in-law, Mr. and Mrs. Frank M. Thurber.

Thomas M. Doan, who has been at Huntsburg, O., thirty-four miles east of Cleveland, for the past few months, returned to Ossian Saturday and is visiting with his daughter and son-in-law, Mr. and Mrs. E. H. Roe.

Mr. and Mrs. H. C. Trevey went to Fort Wayne Sunday to see the former's brother, William Trevey, who has been very ill with pneumonia.

Mr. and Mrs. Floyd Hayes and family spent Sunday at Kingsland, visiting with Mr. Hayes' mother, Mrs. George Green.

Mr. and Mrs. William Colton and children, Catherine and Franklin, went to Prospect Sunday where they spent the day visiting with Mr. and Mrs. Steve Colton.

Mr. and Mrs. Charles Karns, of Danville, Ill.; Mrs. C. E. Sturgis, Mrs. Clara Deam, Mrs. Anna Sissy and Miss Martha Boyd, of Bluffton, were Sunday afternoon guests of Mrs. Fred M. Bolton.

Mr. and Mrs. Harry Bolton of Fort Wayne, came to Ossian Saturday and visited till Sunday with Mrs. Bolton's parents, Mr. and Mrs. Conrad Norwalt, Jr. They then went to Bluffton where they took Sunday dinner with Mr. Bolton's parents.

Rev. A. Johnston went to Montpelier Sunday to attend the funeral of his cousin, Mrs. Will C. Johnston. Mrs. Johnston was quite well known in Ossian, having frequently visited here with her uncles, David Craig and James Johnston. She died Friday at 2:15 a. m. following an operation for carcinoma of the kidney. She is survived by one daughter, Mary Janet Johnston.

Mrs. L. F. Chalfant and Miss Marie Chalfant left Monday for Garrett, where

they visited until today in the home of the former's son and daughter-in-law, Mr. and Mrs. Fred Chalfant. They then went from Garrett to Mishawaka to visit with Mrs. Chalfant's daughter, Mrs. Ella Wolf. Mrs. Chalfant will return to Ossian Saturday, but Miss Chalfant will remain several weeks.

Mr. and Mrs. Don Davis and baby spent Sunday at the home of Mr. and Mrs. Harry Glass.

Miss Mary Rita Weissell, of Bluffton, was a week-end guest with Miss Mary F. Harter. They both spent Sunday afternoon as guests of Mr. and Mrs. G. A. Morton.

Mr. and Mrs. John Gilbert and family, of Bluffton, spent Sunday as guests of Mr. and Mrs. Ernest Vananda. Mrs. Gilbert and Mrs. Vananda are sisters. Mrs. Frank M. Thurber, Mrs. Winifred Thurber and their guest, Mrs. Josephine Peel, of Los Angeles, Cal., motored to Mayville, Monday, to visit with Mr. and Mrs. Alfred Richards, the latter a daughter of Mrs. Winifred Thurber and a sister of Mrs. Peel. Mrs. Peel and her mother will remain for an extended visit.

Mrs. Frank E. Foughty was in Montpelier Sunday attending the funeral of Mrs. Zada Johnston, widow of W. C. Johnston.

Mrs. Jasper McCormick, of Toledo, O., came to Ossian Saturday and spent the week-end with her friend, Mrs. Carl Wilson. She left Monday evening for Wilshire. Mr. and Mrs. Fred Vananda and family spent Sunday with Mrs. McCormick in the Wilson home.

Mr. and Mrs. John Kleinknight and children visited Sunday in Kingsland with the former's parents, Mr. and Mrs. Kleinknight.

The members of the Friendship circle of the M. E. church were guests last night of Mrs. Dora Hoover.

Russell Wake, of Roanoke, was a Sunday guest of Miss Mary Way. Mrs. Albert Numbers, of Fort Wayne, was in Ossian Saturday calling on friends and looking after their property. They expect to move back to Ossian about June 16.

Miss Grace Derr was a visitor in Fort Wayne Saturday.

Miss Lucile Davis is on the sick list again.

Mr. and Mrs. Lester Henline had as Sunday guests Mr. and Mrs. Chase Clark and family and Mr. and Mrs. E. M. Kelsey, of Zanesville, and Mrs. Rose Brooks, of Fort Wayne.

Mr. and Mrs. Wesley Swank are entertaining a little daughter, who arrived Monday morning. This makes the thirteenth child in the family.

Mother's Day was appropriately observed at the several Ossian churches on Sunday. The exercises were held in the Presbyterian and M. E. churches in the morning and at the U. S. church in the evening. Rev. Garfield Dowe, of the Ossian M. E. circuit, delivered a Mother's Day sermon at the Emmaus church. The floral decorations at all the churches were very pretty and each mother was presented with a beautiful bouquet of fruit salad, cake and coffee.

At the Presbyterian church a girls' choir sang a number of selections and at the M. E. meeting Miss Mary Way sang a solo and a mixed quartet also sang. The various pastors delivered especially helpful sermons on Motherhood.

Miss May Weaver was hostess for the Philathon girls' Friday evening. The devotional exercises were led by Mrs. A. F. Roe, the teacher, and Mrs. Frank K. Baker conducted the book study. A social hour followed during which contests and conundrums were enjoyed. The hostess served very delicious refreshments of fruit salad, cake and coffee.

Those present were Misses Katherine Baker, Blanch Wilson, Ida Kreigh, Mary Roe and Marjory Nill and Mesdames Otto Wilson, A. F. Roe and Frank K. Baker. The next meeting will be with Mrs. F. K. Baker.

D. King and Dr. Van Horny of Findlay, O., were in Ossian Sunday to see the former's sister, Mrs. Mary E. Ullom, who is ill at the home of her daughter, Mrs. A. H. Stoker. Mrs. Ullom's condition continues about the same.

Miss Daisy Spaulding has returned to her home in Monroeville after a several days' visit with Dr. and Mrs. D. C. Wybourn.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation approved by the addition of other ingredients, costing about 50 cents a large bottle, at drug-stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness by darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.

FASCINATING FLORENZO HIRES LAWYER TO WARD OFF ADMIRERS.

Left to right: Signor Florencio Constantino and his protector, Attorney Charles A. Kleinman.

Seattle, Wash., May 16.—He believes in safety first.

That's why Signor Constantino carries an attorney with him.

Temperamental grand opera artist in whose repertoire stage love-making plays the most important part, Florencio Constantino, a Buenos Aires Castilian, is taking no chances with the mashing female of the species.

To keep these fair hero worshipers at a respectful distance is the job of Charles A. Kleinman, his attorney, who accompanies him.

"Constantino is very temperamental, you understand," said Kleinman, here. "It is my job to keep his heart surrounded with barbed wire entanglements, preventing any assault from his admirers, as well as to keep the Signor from becoming too earnest in his artistry."

"He has to be handled just like a boy, because he has the enthusiasms and impulses of a boy. But for some protection, Constantino would be constantly subjected to the blandishments of women who are not content to admire him, merely as a great singer."

Since his debut in America the Spanish artist has been known as the "man of many law suits."

He lives in Los Angeles, and has a wife and family.

Backache is Discouraging

But Not So Bad If You Know How to Reach the Cause.

Nothing more discouraging than a constant backache. Lame when you awaken, pains pierce you when you bend or lift. It's hard to work or to rest. Backache often indicates bad kidneys. Fort Wayne people recommend Doan's Kidney Pills. Read this case:

Mrs. W. F. Thiele, 1531 E. Lewis street, Fort Wayne, says: "I had been suffering from backache and sharp twinges through my kidneys, especially when I leaned over or in any way used the muscles of my back. This, with other common symptoms of kidney trouble, caused my health to run down. I used several boxes of Doan's Kidney Pills and I was greatly joyed at the rapid improvement they made. They gave me complete relief from my suffering."

ENCOURAGE USE OF WOODEN SHOES

German School Authorities
Advocate Them for
the Pupils.

Berlin, April 20.—(Correspondence of The Associated Press.)—After more than a century and a half of relative unpopularity and disuse, except among the peasantry, wooden shoes are becoming the vogue with school children once more, and their use is being actively and practically encouraged by school authorities.

The reason, of course, is the scarcity and unprecedented expensiveness of leather shoes which gradually have caused people to forget old time dislike of and stigma attaching to wooden shoes. Hundreds of school children in the past few weeks have taken, either to leather shoes with wooden soles, or to the old all-wooden "pantine."

The first move in favor of a resumption of wooden shoes was taken by the school authorities in notifying teachers that they should countenance the use of such things, in spite of all the noise made when the children clattered about the bare floors in them.

Then the authorities of the suburb of Lichterfelde went a step farther and offered a premium of one mark to all children being in part or entirely supported by their parents, who would wear wooden shoes for a period of four weeks. Those authorities who have charge of supporting the families of soldiers spent a considerable sum of money in the purchase of several hundred pairs of shoes, which were offered to the public at prices ranging from a little over a dollar to a dollar and a half a pair.

At first only the boys took to the new shoes, but gradually the girls too have adopted them, and hundreds of children of both sexes wear them to school daily and save their expensive leather shoes for Sundays and special occasions. Gradually they are winning a vogue in other parts of Berlin, and, of course, are widely worn in the country districts.

The history of the "pantine" or wooden slipper, generally without heels of any sort, goes back for centuries. Along in the early years of the eighteenth century an edict was issued in Prussia against their use, and not only were persons who disobeyed punished, but communities which permitted their use were fined heavily. For a long time, however, they continued to be so popular that the edict had to be renewed more than once.

People really stopped wearing them only when they became a sort of badge of poverty, and their use has never entirely disappeared in country districts where they are far better protection than leather against mud and wet, and where their durability naturally commends itself to the peasants.

Paper shortage, like the leather shortage, is also having its effects in the Prussian schools in the decree by the minister of education that from now on slates shall to the fullest possible extent replace the old-time paper booklets in which the children have been accustomed to do their lessons.

In issuing his decree, Minister von Trott zu Solz called the attention of teachers to the fact that because of the shortage of paper children who still have to use the bound books must be made to use up every available space, and that the books no longer need to be enclosed in a heavy paper cover, all of which goes to waste.

FIND SOFT WATER IN WELL.

Drillers for Orleans New Waterworks Encounter Second Phenomenon.

Orleans, Ind., May 16.—When the third well for the waterworks system, under construction here, was completed at a depth of 115 feet, an analysis at the state laboratory showed the water was soft and entirely different from that in either of the other wells, although the water from each is pure. The powerful stream of water found twenty-eight feet below the surface, the mystery of which remains unsolved, seems to bear an unlimited quantity of water, and the speed of the stream is unchecked. It is planned to use this underground stream as a reserve supply.

PRIZES AWARDED IN ESSAY COMPETITION

At the offices of the city board of health, Monday afternoon, Mrs. Josephine L. Nesbitt bestowed the prizes awarded in the composition contest engaged in by some two hundred pupils of the grade schools on the subject, "What Clean Up and Beauty?" a large crowd of the pupils assembling for the event. The prizes were given to Edward Averill, George Massey, William O. Master, Mabel Fell, Lewis Wilson, Frank J. Travers and Thelma E. Elliott. The prizes were in cash donated by Mrs. Nesbitt. Col. D. N. Foster, president of the board, spoke briefly to the children, commending the interest they had taken in the campaign for making Fort Wayne a city of cleanliness and beauty and saying to them that they would in time become citizens who would be leaders in the work for good civic conditions. The women counselors in the backyards campaign are meeting Tuesday afternoon with Mrs. Fred McCulloch, 3836 East Berry street, to complete their arrangements for inspection of backyards entered in the competition. The inspection is to begin Wednesday.

CAMPAIGN CLOCK IS STARTED ON ITS RUN

(Continued from Page One.)

for several minutes and started the campaign for a Young Men's Christian Association building with an enthusiasm that assures success.

The gift of Mr. Mossman is the largest individual benefaction ever given in Fort Wayne. The letter announcing the gift was read by Arthur H. Perfect, president of the Y. M. C. A., following an illustrated lecture showing the work of the Y. M. C. A. all over the world by Eugene E. Stacy, state secretary of the Y. M. C. A. After cheer went up, a speech was demanded from Mr. Mossman and as he arose to speak the cheering was renewed, together with the waving of handkerchiefs. Mr. Mossman was visibly affected by the demonstration and the genuine enthusiasm with which his munificent contribution had been received.

"I have been thinking for some time what I could do for Fort Wayne," he said. "Some time ago my son, B. Paul Mossman, came to me and told me of the contemplated Y. M. C. A. campaign. He told me he wanted me to start the ball rolling. I did not decide until my visit to Muncie to inspect the Y. M. C. A. building at that place. While it means a sacrifice I thought it would be better to give while I was living than to regret what I might have done if I had lived longer. I feel it is now up to you people to come across and make me pay the subscription. I want to do it."

Mr. Mossman had concluded the banqueters demanded to hear from B. Paul Mossman. He, too, was affected by the ovation that had been given to his father. "It is the happiest moment of my life," he said. "I'm proud of my father. I know we will succeed in this campaign and in less than ten days we will have our \$300,000."

S. F. Bowser is toastmaster. "It certainly looks as if this crowd is master of the situation," declared S. F. Bowser upon taking charge as toastmaster of the evening. When Governor Ralston arose to speak he was given a most hearty welcome. "I did not come to make a speech, but for the purpose of indicating by my presence that I am personally and officially interested and in sympathy with the movement you promote tonight," he said. "But I cannot help but think how ineffective are my words and my presence as compared with the generous offer of this grand old man. It is men like he that make me doubly proud of being governor of Indiana." Governor Ralston's address in full appears elsewhere in this issue.

Frank C. Ball, president of the Ball Brothers Glass Manufacturing company, was the third speaker of the evening. "I want to extend greetings from the Muncie Y. M. C. A. to the new Fort Wayne Y. M. C. A.," he said. "You'll win with such a company of men in this movement. I knew of your enthusiasm before I came, but I did not expect so much enthusiasm. I am glad to see so many interested in this work. I venture to say that the gentleman who has given this generous subscription has made many good investments, but never before has he made an investment that will bring him such returns as he made tonight. These are the kind of investments that pay in investments that are made for the public good."

"The Young Men's Christian association is the best institution in the world for forming good character and manhood. I believe that Fort Wayne is destined to be one of the leading cities of the middle west. Build for the future."

Mr. Ball declared that the Young Men's Christian association is fast becoming a world power and that the establishment of such an institution in Fort Wayne would be the most important event in the history of the city. The Y. M. C. A. embodies the three greatest institutions in the world, the home, the church and the school.

"So many young men are drifting with no fixed purpose in life and unless they are rescued they will drift upon the rocks," he continued. "The Young Men's Christian association is that safe harbor in which many young men have drifted to safety. We are laying the foundation upon which the future generations will rest and the future generations depend largely upon what we do."

The speaker declared that in his opinion conservation of manhood and manhood of the country was far more important than the conservation of the forests, streams and minerals. "I believe we should be prepared to defend the honor of our country, but give the young men hearts and pure souls and it will not take them long to defend our country."

MR. MOSSMAN'S LETTER GIVING \$50,000 TO THE FORT WAYNE Y. M. C. A.

Mr. Arthur H. Perfect, President Fort Wayne Y. M. C. A.—My Dear Mr. Perfect—I want to have a part in helping the boys and young men of Fort Wayne and Allen county build a Y. M. C. A. I realize they cannot do it themselves; we older fellows will have to help and help LIBERALLY, to put through this campaign for \$300,000 for an institution that will mean so much to this and future generations.

I was born and reared on the farm, so I am interested in the farmer boys, and I want them to have a part in this Y. M. C. A. As a young man I engaged in manufacturing and in mercantile business, so I am equally interested in the young business men of our city. I believe that a Y. M. C. A. should be a home and a center for all the activities of the boys and men of both city and county. I want the boys of this beautiful city of ours to have the best opportunities to get a start in life. The Y. M. C. A. throws around the boy the best environment and safeguards him from many bad habits and evil ways. It gives to every boy, rich or poor, a chance to educate himself, to develop his physical powers and to awaken the spiritual side of his nature. In short, the Y. M. C. A. helps to make ALL-ROUND men, the greatest asset a community can have.

Therefore, I feel that this campaign is a city and county-wide movement, and that all gifts to this Y. M. C. A. are gifts to the city and county for an institution that is just as much needed as any other public benefaction.

With these thoughts in mind I take great pleasure in presenting to you for the Fort Wayne Y. M. C. A. campaign fund my subscription for fifty thousand dollars (\$50,000.00), to be paid according to the regular subscription plan as outlined by your committee, and on condition that the sum of \$300,000.00 is pledged to this fund in this campaign.

Yours respectfully,
W. E. MOSSMAN.

goodly company, the flower among men, to serve a model for the world, and be the fair beginning of a time."

"The success of this campaign does not depend upon the campaign director, but it does depend upon every man and woman," he said. He closed with an illustration of a foot ball game between Cornell and Princeton, in which Cornell scored a virtual victory in the face of impending defeat by holding Princeton for downs when there were only a few minutes to play and the ball was in Princeton's possession on Cornell's five yard line. Mr. Mogge told of the Cornell routers urging their men to get together, which they did and thus saved the day. He pointed out that Fort Wayne people must get together.

"The new Fort Wayne official flag has the 'Y' in it. It represents the big field of opportunity for the 'Y' with its streams of whiter, purer, nobler life for men. There are two stars—one is W. E. Mossman; it shines brilliantly tonight. The other star to equal this must yet be discovered and named."

A vote of thanks was tendered to Mrs. Margaret S. Olds and the ladies for the magnificent dinner and the splendid manner in which it was served. Pledge for \$100.

At a meeting Monday of the Saturday club at Hickoryhurst, the suburban home of Mrs. H. Brooke Sale, the members voted to pledge one hundred dollars to the new Y. M. C. A. to furnish a room therein, which will also be maintained by the club.

Some Reasons Why
The prospectus sets forth the following reasons why Fort Wayne should have a modern association building: "Fort Wayne needs just such a place for the boys and young men to spend their leisure under wholesome influence. The association helps struggling young men to help themselves—a wise philosophy, not a charity. The association is a clearing house in the interests of manhood. It is a practical every-day-in-the-year agency of tested merit for the betterment of boys and young men."

"There are a hundred and one attractions of a demoralizing nature open to young men. A well-organized association is the great counter attraction. Its preventive value alone makes it tremendously worth while."

"Fort Wayne manufacturers, corporations and business houses will be able more and more each year to depend upon the association for young men of character to enter their employ."

"Membership privileges are open to all young men, regardless of class or creed, and there are probably twenty thousand men and boys of membership age available to the influence of the association in Fort Wayne."

"The association attracts, reaches and benefits hundreds of young men who work for moderate salaries and who need and deserve some respectable place under Christian influences in which to spend their social and recreative hours."

"The association, its friendships, fellowships, helpful course environment and privileges meet an actual and vital need in the community not met by any other single organization."

"Provision has been made for the young women—why not the young men? The young men of today are the husbands and fathers of the future. They are the social and political leaders, they are our men of affairs and business. The boys and young men should have the very best training possible for life's responsibilities."

THREATENED HIS LANDLORD.

Andrew Ireland, of Cedar Creek township, was fined \$10 and costs Monday afternoon in the court of Squire Henry J. Grabner for pointing a deadly weapon at his landlord, Joseph Mayhew. Unable to settle he was taken to the county jail.

Because of lack of evidence the case against Ella Bauers, charged with provocation, was dismissed by Squire C. W. Rayhouser. The complaining witness was Mattie Waters. The two women are neighbors residing on Thompson avenue.

An affidavit charging insanity has been filed in the court of Squire Grabner against George P. Nickelson, 39 years old, a well known young farmer residing in Lafayette township. He has an estate valued at \$1,600.

SEEK TO FIX BLAME FOR AKRON DISASTER

Nine Killed, 28 Injured
When Restaurant Building Collapses.

Akron, O., May 16.—State and city officials today were planning a searching inquiry into the collapse of the Crystal restaurant here last night in which nine persons were killed and twenty-eight injured, two probably fatally.

The restaurant was crowded when it was wrecked, and slid into an excavation on an adjoining lot where a new building is to be constructed. Survivors told of hearing the sound of blasting on the adjoining site just before the building fell.

Search Is Completed.
Searchers completed a hunt of the wreckage early today without finding any more bodies and all of the missing have been accounted for. None of the injured died during the night.

Word came from Columbus that state building inspector, announced today day to assist either in the mayor's investigation or conduct one of their own.

Blasts of Dynamite.
Blasts of dynamite, set off in an excavation for a new building directly north of the restaurant, unsettled the foundation. The restaurant was a one-story structure, with a two-story false front, and the latter toppling backward added a great weight to the falling roof.

A dynamite charge, set off fifty feet away from the restaurant a few minutes before the disaster, is believed to have been the direct cause.

The crash came at 6:10 p. m. in the midst of dinner, when the restaurant was crowded and when thousands were on the streets during the evening rush.

So suddenly did the ceiling cave in and the walls crumble that those who were not instantly killed were knocked unconscious.

W. C. THEEK WILL GO TO NAPOLEON

Succeeds C. D. Porter as Wabash Freight Agent at That Point.

W. C. Theek has been appointed Wabash freight agent at Napoleon, Ohio, succeeding Charles P. Porter, who was promoted and transferred to Fort Wayne two weeks ago. For a number of years Mr. Theek was agent at West Unity for the company. Napoleon is his native town and it is with considerable gratification that he is able to return there with a desirable and lucrative office. Fifteen years ago he was a telegraph operator at Napoleon. The announcement of an agent at West Unity has not been made.

Timekeeper Frank J. Greer, of the Pennsylvania Western division, has returned from Wawasee, where he owns a cottage, bringing the information that the greatest rise in the history of the lake, time considered, occurred last Sunday, when the water arose eight inches in twenty-four hours.

HELPED BUILD RAILROAD.

Old Paper Revives Memories of Pioneer Railroad Man.

In looking over some old papers at his home yesterday Frank Kincade, engineer at the Rudisill school, found a recommendation written for his father over fifty-two years ago. It bore date of June 1, 1864, and stated that "the bearer, John H. Kincade, has been in the service of the Pittsburgh, Fort Wayne and Chicago road twelve years in the capacity of foreman of repairs in the maintenance of way, embracing the several duties of conductor of gravel and freight and passenger trains. I consider him a prompt and efficient man, quite competent to the satisfactory discharge of such duties and I take pleasure in testifying that while in the service of this company his labors have been of advantage to the company and creditable to himself." Augt. Bradley, Supt. Eastern Division.

There are many old employees in Fort Wayne who remember John Kincade. He commenced work with the road when it was under construction and helped to grade the roadbed and lay the tracks down Lafayette street, to the old canal, which was the terminus of the road for many years. He died about thirty years ago.

DETOURING WABASH TRAINS.

Washout on Chicago Division Tied Up the Line Several Hours.

The terrific rain last night caused a washout on the Chicago division of the Wabash and made it necessary to detour three trains. The trains detoured were west bound passenger train No. 3, eastbound passenger train No. 6 and westbound freight train No. 55. They came over the Wabash via Montpelier, Ohio, to Fort Wayne and thence west over the Pennsylvania to Clark Junction. No serious damage, other than the breaking of the line, resulted from the washout.

JOINT MEMORIAL SERVICE.

B. L. E. and Auxiliary Hold Services at Bethany Church.

Division No. 537, B. L. E., and Division 513, G. I. A. to B. L. E., will hold memorial services at Bethany church, Rev. Shirley officiating, on Sunday, June 11. The B. L. E. will pay tribute to the memory of five of its deceased members and the auxiliary will honor the memory of two deceased members. The flower ceremony will be observed.

TO VOTE ON EXCURSION ROUTE.

F. Walburn, chairman of the transportation committee for the annual excursion of the Mutual Benefit association of the General Electric works, announces that the excursion will be to Cedar Point, none of the other points talked of offering good inducements. "The only matter of doubt," said Mr. Walburn, "is the road over which the trip will be made—the New York Central or the Nickel Plate—and this question will be put to a vote at the works in a week or two," he continued. The excursion will be on Saturday, August 12.

COMPLETING OFFICE TODAY.

The north end of the second floor of the new store house at the General Electric works has been transformed into a large office, which will be occupied jointly by R. O. Orr, head of the receiving department; J. F. Keiss, head of the

shipping department, and Walter Crise, head of the claims department. The combined clerical force numbers about fifty. Mr. Orr is already installed in his new office and Mr. Keiss and his clerks will be there the latter part of the week.

ONE ACCIDENT IN SIX WEEKS.

The officers and employees at the Wayne Knitting Mills are feeling quite jubilant over the result of their "safety first" operations at the big plant. During the past six weeks only one accident worthy of note occurred, which is a record of employees is taken in consideration. This splendid condition is the result of the efforts in the safety first movement practiced by all of the employees.

IN CHARGE AT HARRISON STREET.

William Burtsfield and A. E. Pember are the gatekeepers at the new Harrison street crossing of the N. Y. C., the former working during the daytime and the latter at night. The watchman's shanty was set in position yesterday and will be installed in a few days, the foundations having already been built.

TO HOLD ELECTION MAY 23.

The Electro-Technic club, of the General Electric works, will hold its annual meeting and election in the firemen's quarters in the basement of the office building on Tuesday night, May 23. It is proposed to nominate and elect officers the same night without any ceremony. Following the election the annual field day will come in for some discussion, and the meeting will close with a banquet.

FIRE IN WABASH CAR SHOPS.

A fire which started in a pile of shavings created some excitement and slight loss to property in the Wabash car shops at Toledo last evening. The blaze looked serious for awhile, because of the very inflammable character of the shavings, but the fire was extinguished by the company firemen before the city department reached the scene.

HANDLING A CIRCUS TRAIN.

The Pennsylvania is handling the Wheeler Brothers circus this week. Tonight the show will be transferred from Mansfield to Bucyrus, tomorrow it will be taken to Lima and Thursday it will be taken to Delphos, where it will be delivered to the Clover Leaf. There are twenty-two cars in the train.

PRESBYTERIANS GOING EAST.

A twelve-car train, loaded with Presbyterians from the west, passed through the city at 1:30 o'clock this afternoon. The party is en route to Atlantic City, where a convention is to be held.

Machinist William Markey, of the Pennsylvania, has returned from Gary, where he spent three days with relatives.

Nickel Plate Brakeman C. W. Carries is taking a few days off duty at the Nickel Plate to attend to some private business.

Mrs. W. A. Coulter, wife of the Nickel Plate engineer, is again seriously ill and he is unable to take his run out of the road on account of her condition.

John Horstmeier, a cab builder at the Pennsylvania shops, is off duty again after ten days' lay off on account of sickness.

Division Passenger Agent W. H. Shorey, of the Wabash, returned home this morning after accompanying the

Thirtieth U. S. regiment to Kansas City. M. V. Didion and J. J. Ferguson, of the Pennsylvania erecting shop, resumed work this morning after being sick three weeks.

Foreman C. J. Lopshire, of the finishing department at the General Electric works, added three men to his working force this morning.

C. J. Burns, bouremaker, and E. Ballinger, a tank repairman, have returned to work in the Pennsylvania shops after being sick a few days.

A. B. VanMeter, Nickel Plate conductor, has returned from Indianapolis, where he spent several days looking after some business matters.

Machinist B. J. Kessman, of the Pennsylvania vice department, will leave today for Hammond to attend a convention in that city.

George H. Kronmiller and John E. People, who have their eyes injured, resumed work at the Pennsylvania planing mills this morning.

Nickel Plate Fireman F. W. Leidolf, who is taking ten days off duty, has gone to Baldwin, Mich., to fix up his cottage for the season.

Forest May, the transformer department of the General Electric works, is detained at home by the serious illness of his wife. She shows some improvement today, however.

Conductors T. H. Gallivan, who has been sick a few days, and E. H. Roe, who had been looking after private business, resumed work on the Nickel Plate this morning.

Brakeman E. M. Dutton is at work again on the Nickel Plate. Two weeks ago he had one of his fingers crushed while out on the road.

Brakemen F. H. Showers and George Ross, who had been taking rest, resumed work on the Nickel Plate this morning.

Nickel Plate Brakeman A. Hess has returned from New York, where he spent a week or ten days with relatives and friends. That city was his former home.

L. G. Otten, day yard clerk at the New York Central, was off duty yesterday on account of illness. Clerk William Kroener, jr., took his place in the yard office.

Machinist William Tieman has been transferred to the day track in the machine shop, and William Richey has been transferred from the day to the night track.

Louis Shady, an assembler in the main machine room at the General Electric works, has been called to Decatur to attend the funeral of his sister-in-law.

General Foreman B. F. Sarver, of the Pennsylvania boiler department, who has been very sick, is reported to be improving. He may go to a sanitarium to stay a week or two.

Firemen B. F. Ambler and H. D. Wiegman, of the Nickel Plate, have returned from Lake James, where they spent a week fixing up their cottage and boats. They did not fish while at the lake.

Mr. and Mrs. E. L. Stone are preparing to go to Detroit the latter part of the week to attend the conventions of the B. R. T. and the Ladies' Auxiliary conventions. Mr. Stone is employed on the Nickel Plate.

Pat Buckley, who was hurt a few days ago, and E. L. Waibel, who was sick several days, reported for work at the big machine shop of the General Electric works, Charles Brenner, foreman, this morning.

J. W. Wells, Nickel Plate engineer, who was taken sick last Friday, reported for duty this morning and was assigned to the high class freight run of Daniel Grubb, who is temporarily on a passenger run.

T. P. Scherer and J. Goehring reported for work at the Pennsylvania machine shop this morning, after being off duty on account of accident or sickness.

Salaries have been increased on the Illinois Central as follows: Trainmen to \$100; chief dispatchers to \$165; night chiefs to \$155; main line dispatchers to \$145; and branch line dispatchers to \$135.

H. E. Auspach is not at his work at the Pennsylvania blacksmith shop today. Instead he is at home getting acquainted with the pretty baby girl who arrived there yesterday. This is the first child of the family.

J. W. Patch, of the transformer department of the General Electric works, has returned from a vacation trip out west. He was slightly injured in an accident while in Iowa and was not able to show up at the office this morning.

Engineer of Maintenance of Way W. S. Danes and Assistant D. B. Gillis, of the Wabash, were in the city yesterday noting progress on the Taylor street subway, now nearing completion. They remained over night in the city, leaving this morning for Defiance.

The body of Bernard Wessier, which was found near Oakwood, on the Nickel Plate, where he had fallen from a train Saturday night, has been forwarded to his former home in Brooklyn, N. Y. Wessier was recently a soldier in the Philippines, but his term of enlistment had expired and he was en route to his home, preferring to steal rides on freight trains rather than pay fare.

YOUNG JOY RIDERS ARE GIVEN CHANCE

Lads Who Borrowed Automobiles Fined in the Circuit Court.

In the circuit court, Tuesday, charges of grand larceny were changed to unlawful possession of an automobile in the cases of Merritt Monroe, 17, of 2707 Lillie street, and Robert Lippes, 16, of 116 Masterson avenue, who were bound over from the city court Monday for the theft of an automobile belonging to Henry C. Pequinot, the real estate man. The lads were represented by Attorney Herbert L. Somers and entered pleas of guilty, receiving fines of \$25 and costs and thirty days in jail. The jail sentences were suspended during the behavior. To Detective Sergeant Walter Immel, who apprehended them, and Chief of Police Charles Lenz the lads had confessed to taking three automobiles within the last two weeks, using the cars for joy-riding and then abandoning them. Judge John W. Eggenman gave them a good scoring and counseled them to better ways if they would avoid more rigorous penalty of the law.

Claims to Be Common-Law Wife.

Barntenders' local union No. 350 and Alexander Lomont, president, and William Jackson, secretary, of the organization, have begun suit in the circuit court against Earl Burman, a carpenter, Elita Rose and Elita Burman to have the court determine who should be the lawful beneficiary of \$100 in death benefit that is the due of someone by reason of the decease of Paul Burman, a member of the union who died this year. The deceased designated no beneficiary and both his parents, Mr. and Mrs. Carl Burman, and Elita Rose-Burman, who declares she is the common-law wife of Paul Burman, lay claim to the \$100 death benefit. The local union has the cash ready to pay to someone, when it can be determined who is lawfully entitled to receive it. The complaint states that the plaintiffs have been informed that Elita Rose or Elita Rose-Burman was not the wife of Paul Burman. Emrick & Emrick are attorneys for the plaintiff.

Notes of the Courts.

In the cases of Diederich J. and Louis J. Brandt vs. Diederich Brandt, the circuit court has rendered judgment on the findings of Special Judge David E. Smith for the defendant and both plaintiffs have prayed and have been granted an appeal to the appellate court.

The suit of Emil Vandrick vs. the Holland and Louis Sugar company, for damages, has been set for trial July 1 before a jury in the superior court. The case came here on a change of venue from Adams county.

The suit of Donald Akey vs. Noah Stuckey has been sent from the superior court to DeKalb county on a change of venue.

The superior court has given judgment for \$86.92 to the plaintiff in the suit of W. D. Sager vs. Arthur Bitner.

On her cross-complaint the superior court has given a divorce to Emma Baker from Arthur Baker and restored her maiden name, Bobay.

By the will of the late Carl Mesing his entire estate is left to his wife, Wilhelmine Mesing, and Cara F. and Louis Mesing are named executors.

The case of Harry M. Best vs. Morris Meyer for \$103 damages will be heard by a jury in the circuit court May 24.

Robert J. Dawson stood for trial on an indictment charging criminal assault on 15-Year-Old Elsie Harker, of Monroeville, was presented in the circuit court Tuesday for sentence and received two to twenty-one years in the Jeffersonville reformatory. Dawson seemed little concerned when sentenced.

WILL HAVE 19 STATIONS.

C. C. East, superintendent of transportation for the Ohio Electric Interurban, has notified William Tonkel, superintendent of highways in Allen county, that nineteen stations will be established from the overhead bridge in Monroeville to the city limits of Fort Wayne where the interurban will unload broken stone for repairs and construction on the Lincoln highway, which parallels the electric line from the way from Fort Wayne to Monroeville. The stone is brought from Middleport, O., and these stations will establish a great convenience. Superintendent Tonkel will go over the line in a few days with an official of the company and designate the precise location of these stations.

SPRING TAX COLLECTION.

The total collection of taxes on the spring installment, payment of which ended May 1, amounts to \$1,030,528.68. The figures have just been footed by County Treasurer W. F. Rankie and his deputies. The city paid \$833,333.26, the total and the county \$378,833.26. The total delinquencies in the city amount to \$13,917.42 and in the county to \$4,341.61. Insolvent taxes to the amount of \$62.18 were paid. A year ago the total taxes paid were \$945,825, this year showing a gain of \$84,683.68. Treasurer Rankie says the tax collections this year are the heaviest they ever have been.

The Great "Password" to Success is Self-Reliance.

Are you in debt? Would you like to square up all your old debts? Would you like to do business on a strictly cash basis, which means in a word "peace" to your whole household? If you would—THE MORRIS PLAN stands ready to serve—and serve you well. THE MORRIS PLAN does not come with a scheme to combat "USURY" by statute—THE MORRIS PLAN has a better way. It recognizes the fact that, the business of furnishing small loans is legitimate and renders that service more cheaply and efficiently—THE MORRIS PLAN realizes for the wage-earner precisely the same opportunity as the commercial banks do for the merchant and manufacturer.

Loans are made from \$25 to \$2,500, any amount you need in the following proportions and on the same repayment plan.

A loan of \$50 is canceled after making fifty weekly payments of \$1.00 each. OUR ONLY CHARGE IS INTEREST AT 8 PER CENT. PER YEAR. FOR EXAMPLE SEE TABLE BELOW:

\$25.00 for 6 months—total Cost	\$1.00
50.00 for 6 months	2.00
50.00 for 12 months	4.00
75.00 for 9 months	4.50
100.00 for 6 months	4.00
100.00 for 12 months	8.00
150.00 for 12 months	12.00
200.00 for 12 months	16.00

YUM! YUM! INDIANS KETCHUM WHALE! EAT GOOD FAT!

Makah Indians, Neenah Bay, Washington, cutting up 80-foot whale on the beach after an 8-hour battle to land the monster. The whale was killed by harpoons, floated by means of inflated seal skins, and towed ashore by the hunters in dugout canoes.

The picture shows the leviathan being cut into strips, each hunter getting a cross section of the animal, corresponding to his position in the canoe.

The meat is "jerked" and dried, the blubber or fat rendered and used as a

cooking staple of the Makah household. Sometimes a number of whales are caught during a season, and sometimes not one. There is always great excitement and hearty feasting when the hunters have good luck.

NEW YORK CENTRAL OFFICIAL IS HERE

Supt. M. L. Reynolds Visits

Proposed Improvements

With Board.

M. L. Reynolds, superintendent of the Fort Wayne division of the Lake Shore railroad, came from Hillsdale, Mich., Tuesday afternoon to discuss with the board of works several improvements in which the New York Central is interested.

With Mayor W. J. Hosey, the members of the board and the city engineer the north approach of the Harrison street bridge, the site of the proposed sewage street, subway and the Lake Shore's shop grounds were inspected. Improvements at all of these places are contemplated.

WILL BE READY FOR PAGEANT.

Good Progress in the Paving of East Creighton Avenue.

The Grace Construction company finished pouring concrete for the foundation of the new pavement on Creighton avenue from Calhoun to Lafayette, Tuesday afternoon, and operations will be suspended there until late next week to give the concrete time to season, after which the asphalt sheeting will be rolled on the street. The Grace company will have the pavement finished in ample time for the centennial pageant in Reservoir park, for which occasion the board of works has been extremely anxious for an early completion of the work.

In making a tour of inspection of public work Tuesday, Mayor W. J. Hosey and the board visited the big east end sewer and found the J. B. Sheets Construction company making good progress, but still handicapped by the difficulty of obtaining men. It is hard to get men to go into sewer trenches to work when there is more employment above ground.

BOARD OF WORKS PROCEDURE.

At its meeting Monday afternoon the board of works received from nine resident property owners a remonstrance against the resolution to pave with brick the alley between Clinton and Calhoun streets from Murray street to Wallace street and the alley between Murray and Wallace from Clinton to Calhoun. There was received a petition for the construction of a sewer in the alley between Maumee avenue and Winch street, from the alley west of Warren street to Roy street. Plans were ordered for the paving of Hanna street from Rudisill boulevard to McKinnis avenue and the final assessment rolls for the paving of Wayne trace were ordered. The board approved the plat of Federal Tenth addition, situated at Dawson and Prince streets.

BIG SIDEWALK CONTRACT.

The park board, Monday afternoon, awarded to John B. Grosjean the contract for constructing the cement sidewalk on the south side of Rudisill boulevard.

THE DEATHS.

KELSEY.

Mrs. Eliza Jane Kelsey, widow of the late Isaac J. Kelsey, died at 12:45 o'clock Tuesday morning at the family home, 1203 Spy Run avenue, at the age of 68 years and three months. Death followed a stroke of paralysis which she suffered Monday evening. She sustained the first stroke nearly a year ago.

Mrs. Kelsey was born in Starke county, Ohio, in 1848, but came to Fort Wayne in 1853 and had resided in this county ever since with the exception of a few years when the family resided in Ligonier. She was married to Mr. Kelsey in 1869. She was a member of the United Brethren church.

She is survived by a son, Homer J. Kelsey, of this city, one daughter, Mrs. John Weller, of Fort Wayne; one grandchild, three brothers, Henry Crawford, of Fort Wayne; George Crawford, of Columbia City; and John Crawford, of Los Angeles, and two sisters, Mrs. James Craig, of Churubusco, and Mrs. Allen Crawford, of Covina, Cal.

Funeral services Friday morning at 9:30 o'clock at the late residence and at 10 o'clock at the Calvary U. B. church, Rev. J. W. Borkert officiating. Interment at Lindenwood.

GALBREATH.

Robert Hagan Galbreath, aged 66 years, died at 11:45 o'clock Monday night at the home of his niece, Mrs. Herman Mann-Boulton, 2021 South Calhoun street, following an illness which extended over a period of six years. However, he had only been bedfast a few days.

The deceased was born June 8, 1850, in Ohio, near New Comerstown, but at the age of three months came with his parents to Indiana. He had resided in Adams county, near Decatur, nearly his entire life.

He is survived by two brothers, George W. of St. Louis, and J. C. Galbreath, of Denver, Col.; one sister, Mrs. Harriet Mann, and five nephews and nieces.

Funeral services Thursday morning at the residence, after which the body will be shipped to Decatur, where funeral services will be held and interment made.

FUNERAL NOTICES.

Wefel.—Funeral services for Mrs. Ella Wefel will be held private at the residence, 2710 Lillie street. Friends are asked to omit flowers.

GREAT DOUBLE OFFER IS SPLENDID CHANCE!

How Four Gold Prizes Will Be Awarded

The First Prize of \$100 in Gold, will be given to the candidate securing and turning in the largest amount in new subscription payments between the dates of May 15, and Saturday, May 27th.

The Second Prize of \$50 in Gold will be given to the candidate securing and turning in the second largest amount, between the above dates.

The Third Prize of \$30 in Gold will be given to the candidate securing and turning in the third largest amount, between the above dates.

The Fourth Prize of \$20 in Gold will be given to the candidate securing and turning in the fourth largest amount, between the above dates.

\$200 IN FOUR GOLD PRIZES

Spectacular in the remarkable benefits it confers to candidates in The Sentinel's famous Automobile and Prize Campaign, the latest special offer just announced has created a sensation. Until May 27, every woman participating in this exciting race for honor and reward is favored with an offer of double significance—votes and gold.

Convinced that the most attractive period of the campaign is at hand, these ambitious candidates are translating the conviction into action. Other feminine hearts are beating to the call. "NOW IS THE TIME!" And they are entering daily.

THE FOUR BRIGHT NEW AUTOMOBILES AND OTHER VALUABLE PRIZES WILL BE GIVEN TO SOMEONE. THE SENTINEL IS NOT CONCERNED IN WHO THE WINNERS WILL BE, EXCEPT THAT THOSE THAT HAVE THE HIGHEST VOTE TOTALS AT THE END OF THE CAMPAIGN, WHO THEY WILL BE IS ENTIRELY BEYOND THE KEN OF ANY HUMAN BEING. IT MAY BE THIS OR THAT GIRL OR WOMAN—IT MAY BE YOU.

It is not too late to enter the campaign and receive an automobile. Late starters often prove the best workers—they know they must hustle—and they do it. Consult the vote standing today and see how easy you can gain the top notch by a few subscriptions. Remember you receive 15,000 extra votes with your first subscription of six months or over.

Details of the 90,000 Vote Offer

In addition to having the chance to win one of the four extra Gold Prizes, each and every candidate will receive Extra Votes as follows:

For each and every combination of \$25 worth of New Subscription payments between the dates of this offer a special ballot of 90,000 extra votes will be given.

Candidates are not limited as to the number they may secure, and will be given credit for all over a club they secure. These Extra votes are in addition to the regular number of votes that are issued on subscriptions at all times as shown in the schedule on the cover of the receipt book.

Subscriptions should be turned in as they are secured, so that papers may be started at once. An accurate record will be kept at the campaign department, and extra votes will be mailed after the offer closes.

"If George Jacobs Says So, It's So"

Greatest Piano and Piano Player Sale Ever Put on in Ft. Wayne

Open Thursday, May 18th and Lasts Until June 1st.

The Jacobs Music House Will Enlarge and Remodel

JACOBS SAYS:--

"I am going to give the People of Fort Wayne and Northern Indiana some mighty big Piano Bargains in the next few weeks."

WHY DOES HE SAY THIS?

Because Mr. Jacobs has taken over the room adjoining his present store, now occupied by the Stoddard jewelry business, and as a result both stores are to be remodeled into one of the biggest and finest music houses in the state of Indiana, if not the Middle West.

A Great Remodeling Sale Will Be Held in Order to Reduce Stock in the Shortest Possible Time

As the store is to be turned over to carpenters, painters, paperhangers and mechanics during the process of remodeling the risk of spoiling the fine finish of instruments now in stock at the Jacobs warehouse is too great.

We have decided to place about fifty instruments from our stock of Player Pianos and Pianos on sale

AT PRACTICALLY WHOLESALE PRICES

Such instruments from the Jacobs standard line as the A. B. Chase, Kranich & Bach, Krakauer, Washburn, Shoninger, Brinkerhoff and others, will go in the lot to be sacrificed. Aside from strictly new instruments will be a number of slightly used Pianos and Players that will sell for less than half of their original cost. Here are a few of the bargains in used Pianos and Players:

One Haines Bros., former price \$350 Sale Price \$ 86
One Hinze Oak Case, in first-class condition Sale Price \$125

One \$450 Walnut Weber, elegant tone Sale Price \$160
One \$275 Huntington, can't be distinguished from new Sale Price \$146
One \$400 Wegman, practically new (used six months) Sale Price \$215
One \$375 Packard, mahogany case Sale Price \$168
One Packard walnut, looks like new Sale Price \$200
One \$600 Kimball Player Piano, oak case, looks new Sale Price \$298
One \$800 Apollo, strictly up to date, slightly used Sale Price \$350

While we are remodeling we are closing out several lines of Pianos and Players at a reduction of from \$50 to \$100. These are brand new instruments--in fact the opportunity of a lifetime that will probably never be presented again.

Two Reasons for Remodeling and Putting on This Sale.

The reputation of the Jacobs Music House for stating the plain truth in its advertisements is well established, as it has been the policy of this establishment in past years to TELL THE TRUTH. This, then, is one reason why we are remodeling. OUR INCREASED BUSINESS DEMANDS IT. We have another reason:

WE HAVE TAKEN THE AGENCY FOR THE COLUMBIA GRAPHOPHONE AND WILL FIT UP ONE OF THE FINEST STUDIOS FOR TALKING MACHINES TO BE FOUND IN THIS PART OF THE STATE AND WILL CARRY A COMPLETE LINE OF GRAPHOPHONE RECORDS.

We Have Explained the Reason--Now Profit by the Opportunity.

ALL HONOR TO THE MEN OF FORT WAYNE BACK OF THE Y. M. C. A. MOVEMENT, SAYS GOVERNOR RALSTON.

Governor Samuel M. Ralston was one of the principal speakers at the business men's dinner Monday evening, given in the new Shive building, for the purpose of arousing interest in the Y. M. C. A. campaign, which started Tuesday. Governor Ralston spoke as follows:

Mr. Toastmaster and Gentlemen: I was invited to speak to you not to exceed ten minutes and I shall respect the limitation placed upon me. I have not journeyed to your city to make you a speech, but for the purpose, and I might say the sole purpose, of indicating by my presence on this occasion that I am both personally and officially in sympathy with the movement you are proposing to launch here tonight.

Personally, I am for this movement, because in common with other fathers of Indiana, I have sons who are in need of the helpful influence of a Young Men's Christian association, and officially, I am for it, because it is a most potent social force in the life of our state. The more organizations of this character we can have in Indiana, the more secure will be both the young manhood and the public welfare of the state. Both, therefore, as father and as governor, I am back of your movement.

Man is a social being. He is a social being while he is yet a boy. It is this social attribute in him that makes his environment at times most helpful to him, and again at times most hazardous to him, and hence society's wise concern for his surroundings. When I was a young man I was asked to affirm in a debate that "Man is the architect of his own fortune, and not the creature of circumstances." To my mind, at that time, the affirmative of the question was manifestly right and any suggestion to the contrary was the quintessence of foolishness. I pressed my views--I won't say argument--so earnestly that the judges found with me, but I have since concluded this was because they knew nothing more about the question than I did. The question was and is indeed a two-sided one. There are vital truths on either side thereof and this is why we are today giving so much attention to environment in our educational, church and social work.

We like to think that man was born to rule; and that he is the master force in civilization. Every day, and every hour of every day, we are reminded that he gets on towards better things just in the degree he succeeds in turning his environment to his advantage.

It is apparent, therefore, that the matured portion of society--those who out of experience have reached the point that enables them to discern the moral element in a situation and to feel a sort of coercion to act or not to act in a given premise--should vigilantly seek, through proper environment, to strengthen the young manhood of their community.

The Young Men's Christian association movement emphasizes the important part environment plays in the life of young people, and its paramount ob-

HON. S. M. RALSTON.

ject is to surround them with proper influences. As an organization, it strives to qualify them, or perhaps I should better say, to have them to qualify themselves with moral courage and moral purity to meet the responsibilities of life. It holds before them constantly the high aim of physical, mental and moral growth, that they may eventually fill efficiently the place assigned them in life.

The game of life must be played honorably. Fools have no place among gentlemen and young men cannot learn too soon the importance of their being on the square with their fellows. The organization you are contemplating would have men to be on the square with one another, whether it be on the athletic field, in the forum or behind the counter. The man who does not measure up to this standard is deficient in moral fibre, and the chances are he could not resist betraying his trust, if he were a bank cashier. Such a young man should have the advantages for character building afforded by a Young Men's Christian association, and he should follow its ideals as faithfully as a scientist pursues the course of a star. There is no rule by which to estimate the value of such an institution to a city.

Your movement, therefore, gentlemen, will be fraught with mighty consequences. It will touch and help thousands in your community not reached by any other organization. A part of its work will be to rescue the boy on the street, who is not reached even by your churches. It will seek to educate for some useful avocation the eye and the hand of hundreds of the street urchins not reached even by your schools. It will lay hold in a gentle manner of the boys in the lower stratum of life and seek to establish them on a higher plane in society with a companionship that will encourage them towards the better things of life. It will provide innocent and high class enter-

tainment and open fields of splendid opportunity to those whose home training and advantages have been quite sufficient, but who, under changed conditions, are forced to adjust themselves to new environment. There is no reason for Fort Wayne, not having an up-to-date Young Men's Christian association. No one will presume to say that it is not needed here. Your big innkeepers are for it, and they are going to help to get it. Your big railroad men are for it, and they are going to help to get it. Your big merchants are for it, and they are going to help to get it. Your big working people are for it, and they are going to help to get it. I have not a doubt but that in truth all your good people want it, and that they will help to get it. Every city needs such an institution, and Christian people everywhere pray for it. You are a thrifty people here. Your vision of life is broad and you have the power and ability to have whatever you want to add in the creation of a better citizenship. All honor to the men of Fort Wayne back of this movement.

Some years ago Queen Victoria knighted George Williams because he founded and promoted the Young Men's Christian association, and likewise the people of this goodly city will bless the memory of the men who shall bring to Fort Wayne a greater Y. M. C. A., well housed, well equipped and well conducted.

LIFE BUT HARD KNOCKS.

Indiana Jun Dealer Has Busy Day With Quarrel and Accident.

Columbus, Ind., May 16.--Jerome Wiswell, a junk and fur dealer, has made up his mind that life is a succession of hard knocks. He had an argument with Winfield Baker about the price for old rubber, and Baker, he says, threatened to strike him with a hammer. Wiswell telephoned for the police, who responded in an automobile, and on the trip struck a small machine driven by Dr. E. A. Rickmeyer. After some delay, the police arrived and Baker was arrested. Wiswell then set out on his bicycle to attend to some business and was struck by an automobile driven by J. R. Dunlap. He suffered injuries so severe that he will be unable to appear in the city court against Baker for several days.

WILL SHOW LIFE OF LINCOLN IN INDIANA

Notable Feature of Historical Film for Hoosier Centennial.

Indianapolis, May 16.--The story of the life of Abraham Lincoln in Indiana is to play an important part in the historical motion picture being made by the Interstate Historical Pictures corporation. The picture is to be shown in every county in the state as a feature of Indiana's centennial celebration. Some of the incidents to be shown in Lincoln's early life have been a matter of history but others are as yet very little known. There is no doubt but that the motion picture will serve to revive the interest of Lincoln's life in this state. One scene which will seem familiar to everyone will be that of the boy Lincoln studying his book by the light of the log fire. Practically every history of Lincoln uses this view, which is said to be historically accurate. The beautiful and pathetic story of

Lincoln's devotion to his mother and his grief over her death, which culminated in his securing a traveling minister to speak a simple funeral service, long after she had been laid to rest, can be told in a graphic way through the motion picture. Many scenes of Lincoln's boyhood activities will be reproduced to show that even in his early life, "Abel" had begun to make "service to others" the guiding rule of his life. He will be shown as the "Flatboatman" and as the "Rail-splitter" and as he was when president of the United States. His departure from Indiana for Illinois and his return for a visit to his old home for a glance at his mother's grave and his visit to Indianapolis, on which occasion he made a speech on the site where the Claypool hotel now stands, will be shown in the centennial film.

Bon Ton and Royal Worcester Corset Demonstration in charge of a factory representative all week at Tepper's.

WILL CELEBRATE BIRTHDAY. Kekianga Review, No. 83, Woman's Benefit association of the Macabees, has completed arrangements for the celebration of the fifth anniversary which will be held Wednesday afternoon and evening, May 17, in the hall over App's store. One feature of the occasion will be a parcel post sale. Parcels have been received from all parts of the United States. Pedro, will be played both afternoon and evening and refreshments will be served. All are cordially invited to attend.

The Misses Hopkins and Dingman, of the Wayne hotel, have purchased two concessions at Cedar Point and will take possession the first of June.

STEAMSHIP SERVICE TO NOME TO RESUME

Most Northerly City in the World Isolated Since Last October.

*Seattle, Wash., May 18.--Steamship service to Nome, the most northerly city in the world, which has been isolated since last October, will be resumed on June 1 with the sailing of the steamship Unatilla from Seattle, followed by the steamship Victoria on June 2. Soon after the last south-bound steamer left Nome on October 28 last, Bering Sea was entirely frozen over, and it was necessary, because of the winter cold, to suspend mining operations at Nome. The 2,000 or more people who were left behind when the last steamer sailed prepared to face the long winter. During the winter there was a letter mail service by dogteam from Fairbanks, but newspapers, magazines and parcels were not carried. The United States signal corps maintained connection with the outside world by means of cable and wireless.

The arrival of the first steamers from the south, in the last week in June, is the occasion of even greater excitement in Nome than the finish of the annual dogteam race. The people are advised by cable of the departure of the boats from Seattle, and eager watch is kept for their smoke. Sometimes the steamers have a hard battle with the ice and are held for many days only a few miles from Nome, with ice conditions so unsafe that no one ventures to walk to shore. Again, the season may be favorable and the boats will come in sight of Nome without difficulty, and see firm ice between them and the shore. In such a case the passengers, or most of them, will walk to Nome over the ice, and will have a more prosaic landing than if they waited to be hoisted in the basket of the aerial tramway. There is no wharf at Nome and can be none, for there is no harbor. Passengers are taken ashore in the tramway and freight by lighter and tramway.

Both of the boats now preparing to sail for Nome have every berth reserved, and all the cargo room is spoken for. Much of the cargo will be reading matter, vegetables and fruit, of which the people of Nome stand in great need after eight months of imprisonment. Most of the north-bound passengers are men interested in mining at Nome, and their families. They go out in autumn and return the next summer.

Freddie Welsh is Getting in Bad

CHAMP BARRED FROM WISCONSIN AND NEW YORK RINGS FOR FOUR MONTHS.

Milwaukee, Wis., May 16.—Freddie Welsh, lightweight title holder, has been barred from fighting in Wisconsin for four months as the result of a number of violations of the rules of the boxing commission, and automatically will be barred from New York. Serious charges placed against him before the commission proved to be true in part, and the champion had so consistently evaded rulings that the commission of this state as well as the New York body, hung the can on him till September.

It was charged that during his bout with Ever Hammer Welsh licked up considerable booze between rounds. However, this charge was not pushed, and the conviction came upon only the manager. Neither Freddie Welsh nor his manager appeared at the hearing, but Tom Andrews presented a letter from Pollock

telling his side of the argument. Frank X. Borden appeared for the National A. C., which presented the charges against Welsh. Walter Houlihan, referee; Frank Mulken, Ben Steinel, of the National A. C.; J. J. Kullman and William Buelow, inspectors of the commission; Traffic Officer Emil Schultz and Joe Ornstein were among the witnesses called.

Mulken, who is head of the National A. C., which club promoted the bout, testified that Pollock refused to sign articles for the bout or post a forfeit as required by the commission.

He further declared that Pollock demanded his guarantee of \$1,500 in advance, and would not permit Welsh to enter the ring until he had the money, and that the demand caused delay of thirty minutes, while the money was being counted out.

FANS ROAST HIM; NOW LEADS LEAGUE.

"He don't know a ball game from a bench, Bob Roth going to right field. The next thing I like most about Smith, next to his natural hitting ability, is his devotion to the game. Once Elmer Smith to the sticks. 'Smittie' happen again. He is the most promising young player I have ever seen come up to the majors."

According to Tris Speaker the Red Sox of 1915 feared Smith in a pinch more than any other swatter on the Cleveland misfit.

Did Lee Fohl send the youngster back for further seasoning? He did not. Smittie studied, mastered big league ways and made good. The latest swat statistics quote him with a mark of 38.

Any young man who packs this punch doesn't belong in Waterbury, where the Cleveland fans would have consigned him to the minors. He breaks into the line-up and in the clean-up hitting position when right-handed pitchers oppose the Indians. His clouting percentage was compiled against the best slab artists in the league for every club has been putting on extra speed while trying to throttle the suddenly freshened Ohiangs. When southpaws grace the peak Smith warms the

hill, and the team would be pulled from the savdust town, President Dickerson arises to his full height and proclaims Muskegon the best town in the league, and says it has been drawing better than any other city in the circuit.

Dutch Leonard is holding down some little record so far this year. In forty-four innings opponents have collected only two runs off the Boston hurler.

Detroit, Mich., May 16.—Manager Jennings has promised to buy each member of the Detroit Americans a straw hat if the team returns home from the present eastern trip with an average of .500 or better for these games.

Ann Arbor, Mich., May 16.—Harry Tut-till, trainer for the Detroit Americans, former trainer of the West Point cadets' football eleven, and now under contract to condition the University of Michigan gridiron candidates, has issued his first order. He has told each member of the squad that from now until the training season ends, in November, there shall be no cigarette smoking.

Ann Arbor, Mich., May 16.—Track Coach Farrell has his squad in active training outdoors for the meet with Leland Stanford university here May 20. Michigan's overwhelming victory over Notre Dame recently brought satisfaction to Farrell, who is convinced that his athletes would not be considered favorites in the contest with the Californians.

Chicago, May 16.—The Chicago Nationals, although winning a greater percentage of their games so far this season, are not showing the "pep" which Manager Tinker expects them to. For this reason he stepped into the fray in the first game against the Cubs' old rivals, the New York Giants. Tinker's presence put a new spirit into the players and kept them on their toes. The grounds were muddy, but nevertheless the manager was satisfied that his players have the "stuff" if they will only cut loose with it. After the game he said he was pretty sure about the legs, but was going to jump into the pastime every time his regulars showed lack of "pep." Tinker's manager seemed as good as ever, and he seemed to have his batting eye, although he did not get a safe hit during the game.

Mothers cannot be both bread winner and mother. It is all that most fathers and mothers can do to raise a family. When the father dies, or goes to a hospital, to jail, or deserts and the mother is left with two jobs, she fails at both.

"The state pays in the end. The poverty-stricken child, neglected by the strong people of a Christian community, degenerates and becomes a charge of the state."

"The first law adopted in Illinois is the best so far adopted in any state. It is just one statement as an amendment to the juvenile court laws and reads as follows:

"If the parent or parents of such dependent or neglected child are poor and unable to care for said child, but are otherwise proper guardians and it is for the welfare of such child to remain at home, the court may enter an order finding such facts and fixing the amount of money necessary to enable the parent or parents to properly care for such child and thereupon it shall be the duty of the county board through its county agent or otherwise, to pay such parent or parents, at such times as said order may designate, the amount so specified for the care of such dependent or neglected child until further order of the court."

Joel Hunter, chief probation officer of the juvenile court in Chicago, where more child delinquency is reviewed than in any other city in the world, presented such facts and figures to show the effect of the pension system. These figures refer to two hundred children who had been delinquent and kept in public institutions at large expense to tax payers. The children were restored

to their mothers and the mothers pensioned; out of two hundred but four have again been delinquent. In Mr. Hunter's opinion this saving and preservation of homes was brought about by the pension which enabled the mothers to take care of their children and made it unnecessary for them to leave home or to spend their time doing laundry work of scrubbing as a means of livelihood.

"In addition to the saving to tax payers, the pension system is Christian legislation," said Judge Neil. "It preserves homes, and gives children and their mothers a chance to be together. The separation of mothers from their children is the cruellest punishment that can possibly be inflicted. Yet this punishment is being given to hundreds of Indiana women whose children are being taken from them and placed in institutions which the people keep up by taxes and by donations. At less expense Indiana can pension its mothers, save money and abolish child-poverty. Not to do this is an economic loss and a disgrace to civilization. Indiana is rich enough and it's strong men and women able to see that all children are properly fed, clothed, sheltered and schooled and cared for by their own mothers."

"Charity cannot accomplish this. Begging and alms and money will not produce a revenue sufficient to relieve the state of the burden of child-poverty. The mothers' pension system is similar to the public school system and is designed to abolish child-poverty in the same manner that literacy was abolished by the public school. This new principle of civilization is now fixed in the laws of twenty-six states and in 1917 Indiana will join the advance."

CALL CONTEST A DRAW Kittens Cuddle Up to Hen, But Cat Does the Feeding. Shelbyville, Ind., May 16.—Claude Cherry, living southwest of Shelbyville, in Hendricks township, has four kittens at his home which have adopted a hen for their foster mother. The hen found the four kittens a month after their birth. By some strange twist of the affections, the hen immediately decided to mother the kittens. The mother cat objected, but by the vigorous use of claws and beak, the cat was sent scurrying, while the kittens huddled beneath the wings of the old hen. When the kittens got hungry the hen would scratch and fuss about, but the kittens did not understand her language. Then the mother cat came on the scene. A fight would follow, with the kittens siding with the old cat. The young ones would then obtain their nourishment and rush back to the hen. The mother cat did not like this condition of affairs, so she carried her kittens away. The hen followed and as fast as one kitten was deposited in a new home she would call it away. The cat and the hen have now called the contest a draw, with the hen doing the brooding and the cat the feeding.

INDIANA FOOTBALL SQUAD WORKS GREAT

Bloomington, Ind., May 16.—Coach Stiehm, after a month's work, now has the spring football squad at Indiana university running so smoothly that it has the appearance of a fall squad working in mid-season form. Out of forty-four men who signed up in the course, twenty-five are out every day and all appear at least once or twice during the week.

Most of the work thus far has been in the rudiments of the game, such as handling the ball, punting, tackling and interference. There has been some scrimmaging, but this was called for chiefly in an effort to improve the work at tackling and at interference. A few new formations have been tried but they were said to have been in minor importance.

The big coach, who is spending his first year at Indiana, having come here last March as director of athletics from the University of Alaska, where he held a similar position for five years, recognizes that the crimson players are weak in many of the elementary essentials of football but expects to have them in good shape for the opening of the fall term by the end of the present semester.

Many candidates are making excellent showings and there are some who will have to be reckoned with in making out the first string players next fall. There seems to be a wealth of material for the back field positions and, according to present indications, Indiana will have one of the fastest backfields in the conference next season.

SHE TOLD HER NEIGHBOR.

"I told a neighbor whose very young child had croup about Foley's Honey and Tar," writes Mrs. Rehkamp, 2404 Herman St., Covington, Ky. "She thought that the child surely would die it was so bad. When she gave it a couple doses of Foley's Honey and Tar she was so pleased with the effect she did not know what to say. This old reliable cough syrup immediately helps coughs, colds, croup and whooping cough. Just as good for old as it is for young folks. Dreier Drug Co.—Advertisement."

RIVAL OF HURDLING KING EQUALS WORLD RECORD

Fred Kelly being defeated in high hurdles by Earl Thompson in their race in Los Angeles, recently to break the world's record. Kelly, the champion, is on the left. The race was the outcome of a previous dead heat which the men had run at one of the A. A. U. meets. Under the rules of the association all dead heats must be run off. Both men went in determined to break the present high stick record held by Kelly. In this they were unsuccessful, although Thompson won the race in 15 seconds, equalling the world's record and beating the king of hurdlers by a very slight margin. This, however, does not hurt Fred Kelly's standing as his world's record still holds.

HONOR OF VIRGINIA GENTLEMAN ENOUGH

Chicago, May 16.—Dave Robertson, right fielder for the New York Giants, will appear before Justice Carlton Pruty, of Winnetka, Ill., today on a charge of speeding in an automobile. Being a "Virginia gentleman," and having "honor" in all that saved him from being held in court yesterday with the probability that he would have missed yesterday's game with the Cubs. Robertson had been out to lunch at a suburb and was hurrying back to Chicago for the afternoon game with the Cubs when arrested. He was taken before the justice, where he gave his name and occupation. The judge consulted a sporting sheet and remarked to the ball player:

"I see you made a home run yesterday, and sent in three runs ahead."

"Yes, sir; and I want to repeat today," Robertson answered.

"Then I had better keep you here and perhaps the Cubs could win today," Justice Pruty said.

"But on the honor of a Virginia gentleman," Robertson started to say, when the judge broke in with "that will do. If you are a Virginia gentleman your honor is good until tomorrow morning at 11 o'clock."

Robertson reached the ball park in time for the game.

OHIO EXPECTS MRS. SNEATH TO TRIUMPH

Tiffin Woman May Head National Federation of Women's Clubs.

By Frank Dildine.
Tiffin, O., May 16.—Ohio's candidate for president of the Federation of Women's club, which meets in biennial sessions this month in New York city, is Mrs. Laura Stephenson Sneath, of Tiffin, Ohio, and this is the marching song

MRS. SAMUEL B. SNEATH

which the Buckeye club women, to the tune of "Tannhauser," are singing in her advocacy at their club meetings:
In Ohio! In Ohio!
We presidential timber grow.
And all approve from south and north.
Her zeal, sincerity and worth.
From Georgia Gate to Boston Town
Has shown her story of renown.
And all declare the laurel wreath
Shall go to our Mrs. Sneath,
From Ohio! From Ohio!

We come with faces all aglow,
With pride, with joy and single mind,
And one who's loyal, just and kind.
We love her well; she moves us, too;
Our very best we offer you!
Progress and peace shall rest beneath
The glorious sway of Mrs. Sneath.

For Mrs. Sneath, our Mrs. Sneath,
For you we crown the laurel wreath.
'Tis yours our heart and hand's own band
To wear the crown in this land!
For you we crown the laurel wreath,
For you we crown the laurel wreath.

Mrs. Sneath is among the leading club women of Ohio and for years has been prominent in the activities of the Federation of Women's Clubs. She was formerly president of the Ohio Federation of Women's Clubs and is now first vice president of the national association, as a worker in which she has served for a number of years as head of the varied departments of the organization. Those duties have eminently fitted her for the high office for which she is being urged.
She is a representative American woman in the true sense of the word, a student of the problems of the times which affect the interests of men, women and children and a personal exponent and example of the intellectual, constructive and cultured woman, active in those fields of usefulness which the Federation of Women's Clubs has assisted in opening up to the women of America. In this work she has won distinction.

As an executive, one who knows how to do things and who does them, Mrs. Sneath has shown her marked ability in the city schools as a teacher and as a business woman in the management of the large business affairs, following the death of her husband, the late Samuel B. Sneath. He was engaged in the banking business in Tiffin, Ohio, and also had extensive interests in New Orleans and the south. And it is significant of the capability of Mrs. Sneath that recently the stockholders of the Interstate Trust & Banking Co., of New Orleans, elected her a member of the board of directors, an unusual honor to be conferred by a great financial institution upon a woman.

The Greatest Suit Sale Announced This Year

A Final Clearance of Tailored Suits THAT WILL Amaze The City!

You Can Fairly Hear Women Saying: "How Can Even Tepper's Sell Suits This Way"

The mere announcement of a sale of such importance as this should be enough to bring women here bright and early tomorrow, and in increased numbers throughout the week!

For such chances come about once every blue moon! It has taken weeks and weeks to prepare for it—

We "lived" Tailored Suits, "dreamed" Tailored Suits—but you will know how well paid we feel when you come tomorrow—or any day this week!

And to come right in the midst of the wearing season! My what luck!

And then—

To make it even bigger and better we have taken every single solitary suit in our stock and grouped them in with the four special prices. NOT A SINGLE RESERVATION.

Every Suit in Tepper's New Store is included! And that's some announcement!

This is an event as far different from the usual season-end disposal as day is from night!

There are only two good and sufficient reasons for giving a sale of such magnitude in the midst of the wearing season; one is our fixed policy to keep this New Store Perpetually New! The other—to better emphasize to the Fort Wayne Buying Public the values that this store really DOES give.

Five store buying power means a whole lot in an event of this character!

But it's to be a sad ending for Suits so fine!

We wonder to ourselves if any woman ever had a better Suit opportunity than this.

The late Spring models are included—any and all! You couldn't pay full price if you wanted to!

When you come here to look—you're going to learn how well Facts and Figures link up together at TEPPER'S.

Tell this bit of good news to your neighbor!

Fashionable Garments----Bountiful Assortments; Prices Bordering Half

Isn't that everything your heart could wish? This store never does anything by halves—except to cut prices for our "say-so in the paper is our do-so in the store."

Suits for Business, for Street, for Dress, for Traveling! Suits for the go-away or stay-at-home!

Suits of Poplins, Serges, Gabardines, Worsted, Men's Wear Serges, Black and White Checks, Taffeta Serge and Silk Combinations, Poirer Twills, Braid on Serge, Poplin or Gabardine—or perhaps trimmings at cuff and collar, with a bit of contrasting silk.

Could any one imagine a more pleasing assemblage? And the STYLES—Remarkable how many. Long coats—short coats—coats fitted—coats loose. Some that flare—others belted—others plain.

It will be a most easy matter for you to find yours! AND THE PRICES! READ!

CHICAGO GRAIN AND PROVISIONS.

Chicago, May 16.—Assertions that owing to Hessian fly, Kansas has never had a chance for more than 100,000,000 bushels yield this season and that the harvest may easily be much less, rallied the wheat market today after an early decline.

Opening prices, which ranged from the same as yesterday's finish to 1/4c lower, with July at \$1.15 1/2 to \$1.16, and September at \$1.16 to \$1.16 1/2, were followed by a decided upturn all around.

The close was firm, 1/4c to 1/2c net higher, with July at \$1.17 1/2 and September at \$1.17 1/2 to \$1.17 3/4. Corn hardened with wheat. After opening 3/4c@1/2c off to 1/2c up, prices scored a general net gain.

The close was firm, 1/4c to 1/2c net higher. Commission house buying put some firmness into oats.

Provisions went down grade with hogs.

The day on Wall Street.

THE DAY ON WALL STREET.

New York, May 16.—Specialties, particularly the war group and motor issues, were in further demand on the renewal of trading today. Dealings were active and diversified, with free absorption of large individual offerings. Gains of one to almost two points were registered by Crucible Steel, Studebaker, Westinghouse, Industrial Alcohol, American Zinc and National Lead, while Willamette Overland scored a new high record on its four-point advance to 27 1/2. Mexicans also were strong, American Smelting rising briskly. New York Central, Canadian Pacific, Baltimore and Ohio, Erie, Norfolk and Western and U. S. Steel gained substantial fractions.

Profit taking in large volume contributed to the irregular reactions of the first hour, leading rails, U. S. Steel and some of the specialties falling under yesterday's final prices. The reversal was checked in part by advances in other parts of the list, Mercantile Marines regaining some of the recent losses and with a further advance in Crucible proving strong offsetting features. To observers, however, the character of the market assumed a more professional tone.

Indications of renewed foreign liquidation of international issues were not lacking. Bonds were steady. Industrial Alcohol and shares of the cotton carriers were active and strong in the final hour, when leading issues made up part of their midday declines. The closing was irregular.

RELICS OF HOOSIER ELECTIONS.

Old Indiana Ballots Found in New York Auction Room.
Columbus, Ind., May 16.—William G. Irwin, local banker, recently picked up in a New York auction room, actual ballots that had been voted at Indiana general elections in 1880 and 1884. He has them in a frame, and has placed them on exhibition in Irwin's bank here. The three ballots of 1880 were for the democratic ticket, headed by Stephen A. Douglas; the republican ticket, on which Abraham Lincoln ran, and the national democratic ticket with John C. Breckinridge as the presidential candidate. Reuben A. Riley, father of James Whitcomb Riley, was one of the presidential electors on the republican ticket. There are two tickets for 1884. General George B. McClellan was the candidate of the "union democratic" party, while Mr. Lincoln ran on the "unconditional union" ticket.

11-YEAR OLD LAD KICKED BY HORSE

Clarence Hantz, aged eleven years, son of Mr. and Mrs. Fred Hantz, of Angola, is a patient at St. Joseph's hospital suffering from a severe fracture of the skull which he sustained early Tuesday morning when he was kicked by a horse. He was hurried to the Fort Wayne hospital where an operation was performed at once.

The little boy had gone into the barn to do some early morning chores when the accident occurred. The horse's hoof struck him in the rear of the head, a portion of the skull, about the size of a silver dollar was caved in. He was unconscious when picked up and remained in that state until after the operation. His condition is extremely serious but it is thought by attending physicians that he will recover.

FORGER LOCKED UP; WIFE IS DESTITUTE

Erastus Trent is the name given by a young man arrested by Detective Sergeant W. F. Pappert, Tuesday, on a charge of forgery. The man ran into the arms of the officer near the transfer corner after the plain clothes man had been detected to find the fellow who passed a worthless check for \$8 at the store of Levy Bros., on Barr street, almost opposite police headquarters, Tuesday morning. Trent purchased two pairs of shoes—one pair for his wife and another pair for his little girl—and some hosiery, the bill amounting to \$2.95. He gave in payment a check for \$8 signed with the name of Lorenz & Hartshorn of the packing house, getting \$95 cash in change. When arrested he had on him a check for \$5 signed with the name of Lea Compton. At 1221 Hanna street Detective Pappert found Trent's wife and child. Mrs. Trent said they had hastened out of Lima, Ohio, where her husband was wanted for passing four bad checks. The woman told the officer she was entirely destitute. Trent and his wife belong in Chaplin, Ky.

FT. WAYNE MAY BE ON ROUTE OF AERO RACE

Van B. Perrine, president of the Commercial club, and Frank Bohn, president of the Rotary club, Tuesday wired to President Rawley, of the Aero Club of America, assuring him of the hearty cooperation of the city of Fort Wayne in the event the Pennsylvania railroad is selected as the route for the national transcontinental aeroplane competition which is scheduled to start from New York Sept. 2.

According to a message from New York the probable route will be through Baltimore, Washington, St. Louis, Kansas City, Dallas, Fort Worth, Waco, Austin, San Antonio, El Paso, Tucson, Yuma and to San Diego and thence up the coast to San Francisco. A second route proposed is through Philadelphia, Pittsburg, Canton, Mansfield, Lima and Fort Wayne.

Y. M. C. A. GATHERING NEARING ITS CLOSE

Cleveland, May 16.—Today brought the closing sessions of the International Y. M. C. A. convention and it was announced that Maj. Gen. Leonard Wood, of the United States army, who was expected to give an address this evening, would not be present as he is at a military camp at Oglethorpe, Ga. Arrangements were then made to close the convention at 6 p. m. with an address by Gen. Secretary John R. Mott on "The Added Responsibility of the North American Association Occasioned by the War."

The forenoon session was devoted to consideration of the reports of the committee on findings and of the committee on the international committee's report.

CADESSIA GROTTO INITIATES CLASS

Following a banquet at the Masonic temple Monday evening, Cadessia grotto No. 50, Veiled Prophets of the Enchanted Realm, an organization of Master Masons, presented their spring ceremonial at the majestic theater, initiating a large class. Visiting prophets from Chicago, Elkhart, Toledo and other places attended the ceremonial, among them being Grand Master of Ceremonies H. W. Ordway, of Chicago. The class was the largest given the order since Cadessia was instituted. After the initiatory rites the prophets were entertained for an hour with a special performance by the Arthur Clamage comic opera company, now playing at the Empress.

MRS. FORD STIRS UP THINGS IN DAYTON

Fort Wayne Lady Breaks Up Happy Home of Hubby and Affinity.

Mrs. William R. Ford, of Fort Wayne, did not quite make good her threat to go to Dayton, Ohio, and pump lead into Mrs. Fred Miller, the soulmate of Mr. Ford, but what she did do was quite as effectual and more satisfactory in its consequences. Mrs. Ford had her husband brought back here some two weeks ago from Dayton on a warrant charging child neglect. Ford told a plausible story in the city court, promised to pay \$16 a month to his wife to keep the children and started back to the Ohio city. Before he could get out of town he was rearrested on a warrant sworn to by his wife charging desertion. The city court ordered him to pay his wife \$2 a week and let him go. He went.

Then Mrs. Ford raised the price of carfare to Dayton, where she consulted the police, of which the upshot was a blue-coat raid on a candy shop conducted by Ford and Mrs. Miller in the purloins of that town. On a statutory charge Ford and Mrs. Miller were convicted and each drew a sentence of one year in the workhouse. Mr. Miller agreed to take his wife again to his forgiving bosom and leave Dayton with her. Later through the intercessions of Mrs. Ford and the luxuriant promises of Ford to do anything for his wife and children that lay in his power, the relevant husband was paroled to take a job at \$3 a day, whereof the juvenile court of Dayton will collect \$150 per diem and forward it to the wronged wife.

Ford ran away from Tulsa, Okla., with Mrs. Miller, in whose home he was a boarder. Miller followed them to Dayton and the dramatic personae was completed by the arrival of Mrs. Ford.

JUST ABOUT 60,000 TONS WEEK'S TOTAL

Hostile Submarines Keeping Up Blows to English Shipping.

London, May 6.—Correspondence of The Associated Press.—Hostile submarines have been sinking each week about 60,000 tons of shipping with the regularity of clockwork and the consequent scarcity of tonnage is causing the Englishmen to look forward to a food crisis in this country which is believed by many to be not far off.

About \$1,500,000,000 worth of food has to be brought to these shores every year. In normal times, with the help of neutral shipping, the British mercantile marine can just about manage it. But not so now. The underwriter's view is that the odds against making a safe passage are more than ten times as great as before the war; and, with the increase of enemy submarines, so the odds increase, neutral shipping becomes

more and more shy of entering British waters, and food becomes scarcer and dearer.

Estimates of the 1916 crop in foreign countries are not encouraging and the question is raised as to whether the foreigner is in a position to supply the demands here even if conditions were normal. The following shows the decrease in wheat lands estimated by the International Agricultural institute for 1916: Canada, 14.9 per cent., United States 11.9 per cent., and France 8.6 per cent. In other countries the decrease is said to be in the same proportion.

Although every effort has been made to remedy the situation by giving up all available land to crop raising, the British board of agriculture has been hampered by lack of labor. True, thousands of women have replaced men called to the colors but the board finds that they are not sufficient to utilize the lands to the full.

CAMPAIGN CLOCK IS STARTED ON ITS RUN

Solicitors at First Noonday Luncheon Report Subscriptions Swelling Mossman Gift of \$50,000.

Fifty-five thousand, nine hundred and sixty dollars was reported Tuesday at the first noon-day meeting of the workers in the Young Men's Christian association campaign, making a total of \$105,960, including the munificent gift of \$50,000 of W. E. Mossman announced at the business men's dinner, Monday evening.

A total of \$35,710 was reported by the captains of the twenty teams and \$20,250 by the executive committee, which included the following subscriptions: Mr. and Mrs. Arthur H. Perfect, \$5,000; Mr. and Mrs. E. A. K. Hackett, \$5,000; and C. H. Worden, \$3,000. Another subscription was announced, but by request the name was withheld.

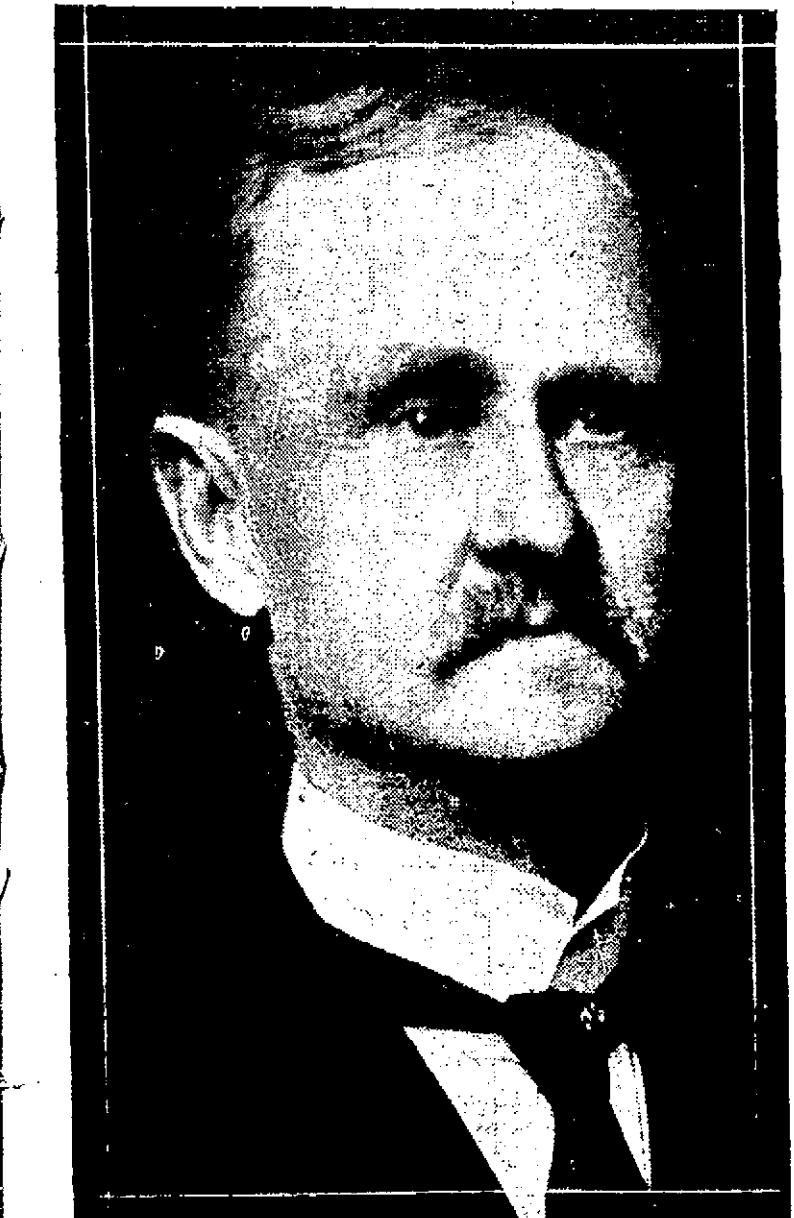

Big Clock is Started.
After the meeting and luncheon the workers marched to the southwest corner of the court house where a large Y. M. C. A. clock has been erected and amid the cheers of the workers the hands were turned by H. A. Perfect to the \$105,000 mark.

The honor fell to Mr. Perfect for the reason that the team of which he is the captain made the best report. Besides this honor his team was awarded two pennants, one for reporting the largest amount of any team and another for leading division B. Captain G. H. Heine was awarded a pennant for leading division A. There was a total of 236 subscriptions.

The report of the various captains was as follows:

William Dollar Wounds Two, Kills Mother, Daughter and Self at Macy.

SHOCKING TRAGEDY COMES TO LIGHT

Mourning Over Death of His Wife Had Unsettled Man's Reason.

Rochester, Ind., May 16.—William Dollar, 27, a miller at Macy, a village near here, shot and killed his mother and daughter, fatally wounding his son and baby and then went to a nearby cemetery, where he killed himself on the grave of his wife.

The shooting occurred last night, the bodies being found today. It is believed that the recent sudden death of Dollar's wife caused insanity. The dead are: Mrs. Anna Dollar, 50, mother of William Dollar; Agnes, Dollar, 5, daughter of the dead man.

The wounded: George Dollar, 11, son, and Ida, 2, daughter of William Dollar. The tragedy was discovered when Mrs. Henry Cloud went to the mill today to buy chicken feed. The mill door was locked and she went across the street to the Dollar home. Finding the door there unlocked she entered and found the mother and three children in bed but Dollar was missing.

Mrs. Cloud called in the neighbors and then began a search for Dollar, whose body was found later in the cemetery. The wounded children were taken to the county hospital at Peru and it is said there is little chance for them to recover.

Since Dollar's wife died about a month ago he has spent most of the time, when he was not on duty at the mill, mourning over her grave and his grief is believed to have driven him insane.

YELLOWSTONE TRAIL BOOSTERS TO MEET

State Meeting Will Be Held at Columbia City Next Thursday.

Through the efforts of Charles L. Biederwolf, secretary of the Fort Wayne Commercial club, a state meeting of Indiana boosters for the proposed Yellowstone trail which will pass through this city will be held at Columbia City on Thursday, May 18. One of the principal addresses will be delivered by Mr. Biederwolf, who will talk on "Organization."

The program is as follows: Forenoon—Reception of visiting boosters at Commercial club room with "the big brass band a-plant" all the time. Afternoon, 1:30 o'clock—Assembly at Commercial club rooms; address of welcome by H. O. Cooley, secretary and general manager of the Yellowstone Trail association; organization talk by Charles L. Biederwolf, secretary of the Fort Wayne Commercial club; business of organizing and electing officers of Indiana branch of the Yellowstone Trail Association. The proposition is to extend the road east to Plymouth Rock, thus making "a good road from Plymouth Rock to Puget Sound."

FOUR GOVERNORS TO MARCH.

San Francisco, May 16.—Four western governors will march in a preparedness parade which is to be held in San Francisco in June under the auspices of the Pacific Coast Defense League, according to an announcement made here today. Militiamen from ten states and local labor and fraternal organizations will also be in line. The state executives who have accepted the invitations to participate are Gov. Hiram W. Johnson, of California; Gov. E. D. Royle, of Nevada; Gov. James Withycombe, of Oregon; and Gov. Ernest Lister, of Washington.

The first section of the grandstand at the pageant grounds was finished Tuesday noon and the stage was well under way. The lower picture shows Superintendent George W. Brown, of Chicago, who is in personal charge of the gigantic seating job.

MORE WELLS TO BE STARTED IN FEW DAYS

Rich Vein is Struck by the Flat Rock Oil, Gas & Mining Company.

Following the successful shooting of a well drilled by the Flat Rock Oil, Gas and Mining company on the Davidson farm in Monroe township late Monday afternoon, operations will begin within the next few days on the drilling of another well 600 feet west on the farm of Charles Simmers.

Before being shot the well on the Davidson farm averaged from twenty to twenty-five barrels a day. Since being shot it is conservatively estimated that it will produce 100 barrels a day.

The Flat Rock Oil, Gas and Mining company is composed almost entirely of Fort Wayne men, all of whom are jubilant over the favorable prospects for extensive operations in the future. The company has leased a total of 1,400 acres of land and other companies have taken option on as much land as possible in that section of the county. A company of Marion capitalists expect to start a well two miles east of the Davidson farm.

The officers of the Flat Rock Oil, Gas and Mining company are: John Tillman, president; Ralph W. Guenther, vice president; William Scheele, treasurer, and Robert O'Connor, secretary. The other members of the company are Frank Falls, A. D. Palmer, James McNeal, Irvin Geddes, L. E. Roussey and William B. Weaver.

JEFFERSON SCHOOL PLANS OPEN NIGHT

With the desire to afford parents, and especially the fathers of pupils an opportunity to see the actual work of their children in school, Principal F. W. Miles, of the Jefferson school, will hold an "open night" at that school on Friday evening, May 19, from 7:30 o'clock to 9 o'clock. There will be a demonstration of work in the solid branches, such as reading, writing and arithmetic.

"We will have no school in our building during the afternoon of that day," says Principal Miles, "so that pupils may rest and get ready for the evening. Parents who are thoughtful will have their children go to bed in the afternoon, so they may be wide awake at night. It is hoped that all parents will grasp this opportunity to see their children at work. It is a great chance for fathers."

VILLA SEEKS A NEW ARMY

Bandit Has Recovered and is Attempting to Recruit Followers.

BORDER SITUATION NOW LESS CRITICAL

Gen. Scott Believes Gen. Obregon is Acting in Good Faith.

Field Headquarters in Mexico (Via Wireless to Columbus, N. M.), May 16.—Francisco Villa has recovered from his wounds and has been busy for some weeks attempting to raise a new army in the state of Durango, according to a story told here today by a Mexican who was captured in the engagement at Ojosuelos late in April.

Cavalrymen are riding hard on the trail of small bands of bandits in the vicinity of Rubio ranch 20 miles from here where three Villa bandits were slain by an American forage detachment yesterday. It was reported there were about 50 in the band.

Julio Cardena, one of the slain, wore clothing indicating that he possibly participated in the raid upon Columbus.

NET RESULTS ARE GOOD.
Scott Believes Border Conference Accomplished Much.

Washington, May 16.—The net result of the military conferences at El Paso, as reported today by Maj. Gen. Scott to Secretary Baker, has been to convince the Carranza government that the United States has no other purpose in its operations in northern Mexico than to stamp out brigandage and as a consequence there exists substantially an unwritten understanding that the Carranza forces shall endeavor to demonstrate their ability to handle the situation as the necessary first step toward withdrawal of the American punitive expedition.

Gen. Scott believes Gen. Obregon is acting in good faith and that the border situation is less critical today, so far as the American government is concerned.

LAST MINUTE NEWS.

BERLIN IN WARNING TO NEUTRAL SHIPS.

Washington, May 16.—Germany, in a note presented to Secretary Lansing by Count von Bernstorff today warns that merchant ships flying neutral flags must obey the provisions of international law in regard to their conduct when stopped by a German submarine, and that they incur danger should they turn their ships in the direction of a submarine.

GEN. CARRANZA HAS GIVEN HIS APPROVAL.

Washington, May 16.—Gen. Carranza has agreed to Major Gen. Scott's informal understanding with Gen. Obregon which provides that Carranza forces shall endeavor to show their ability to control the situation in northern Mexico while American troops remain for the time being.

GERMAN GUNFIRE STILL INCESSANT

Still Hammering Away at French Positions Before Verdun.

Today's War News Given in Summary

German activities on the Verdun front are being continued energetically west of the Meuse where the French positions in Avocourt wood and hill 304 are being subjected to an incessant bombardment. There is a hint of possible developments of importance east of the fortress on the French right flank, heavy shelling of the French lines in the Eix and Moulainville sectors of the Woerthe region being reported. The only infantry activity mentioned in this afternoon's official bulletin from Paris was in the vicinity of the Thiaumont farm northwest of the fortress, where a German hand grenade attack is declared to have been completely repulsed.

News is awaited of further movement of the German battleships reported to have left Kiel for Riga. Petrograd recently has indicated an expectation that a powerful offensive by the Germans against the Riga-Dvinsk front was in immediate prospect.

Whether a sea operation is to be undertaken in conjunction with the land movement remains to be developed.

Italy is following the example of Great Britain and France in prohibiting the importation of certain luxuries and bulky articles not strictly necessities as a measure conserving the national resources for war purposes and to lessen the strain upon ocean traffic.

Paris, May 16.—The bombardment of the French position in the Avocourt wood and about hill 304 still continues, according to the French official report issued today.

A weak German attack with grenades northwest of Thiaumont farm, was repulsed. In the Woerthe shelling is proceeding along the sectors at Eix and Moulainville. On the rest of the front there is quiet.

FRENCH LOSSES SANGUINARY.

Berlin, May 16.—The repulse by the Germans of several attacks against positions on hill 204, with sanguinary losses to the French, is announced in today's war office statement.

MAY CHANGE ROUTE OF LINCOLN HIGHWAY

Movement to Use Monroe-ville Road is Discussed at Meeting.

For the purpose of discussing the proposed changing of the route of the Lincoln highway, existing from the present route to the Monroeville road, a meeting of thirty Ohio and Indiana members of the Lincoln highway association interested in the highway east of Fort Wayne was held Tuesday at the Anthony hotel. Martin H. Luecke presided. The meeting was attended by the Allen county board of commissioners, the Ohio county board of commissioners, the Ohio county representatives of the highway association and others interested in the proposed changing of the route. The matter was discussed at length, but no action was taken as the matter must first be presented to the officials of the Lincoln highway association, the state highway commissioners of Ohio and the Allen county commissioners. That the change will eventually be made was the consensus of opinion of those in attendance. The meeting followed a luncheon served in the dining room of the Anthony.

NEW ARMY IS STILL LARGER

Analysis Shows a Bigger Fighting Force Than First Announced.

BILL A GOOD ONE, SAYS CHAMBERLAIN

National Guard on Trial During Next Few Years, He Declares.

Washington, May 16.—Revised figures on the army reorganization bill agreed upon by the house and senate conference and submitted to the senate today by Chairman Chamberlain show that the new army will be even larger than announced when agreement was reached last Saturday.

Careful analysis shows the maximum strength in time of peace will be 211,000 officers and men, including 25,000 staff troops, Philippine scouts and unassigned recruits and that the war strength will be 230,500 troops, which with staff troops, scouts, etc., added, will bring the aggregate maximum strength of the regular army to 261,500. The national guard as reorganized would total 457,000, making a total of 718,500 available.

Good Bill, Says Chamberlain.
"The results of the work of the conference, while possibly disappointing to some few who have made hobbies of certain features," Senator Chamberlain told the senate, "must as a whole be welcomed by all who are reasonable and unprejudiced as a good bill. For the first time in our history we have provided for an army that is well balanced throughout and which will be an efficient fighting machine. It provides for troops enough for the required overseas garrisons and remaining troops at home will be such as will make a complete brigades and divisions, and the regular army will no longer be a bit and miscolored collection of regiments and battalions as it has heretofore been, due to piecemeal legislation of former years. Not only are the higher tactical units properly provided for but the internal structure of regiments and companies of all arms have been improved to meet the requirements of lessons learned in recent wars."

Real Working Units.
"The company units will no longer be skeletons, but real working units of about two-thirds war strength. An infantry company will be 100 men in peace and 150 in war; a troop of cavalry will be seventy in peace and 105 in war; a battery will be 125 men in peace and 190 in war."

"The officers' reserve corps and the reserve officers' training corps have been adopted as written in both original bills. They provide for the education, selection and training of civilians in time of peace for the duties of officers in time of war, and to a great extent they will obviate the past selections of untried and unknown persons for commissions on the outbreak of war."

National Guard on Trial.
"The national guard will have great inducements to improve and progress than was hoped for before this year and it will be entirely during the next few years to prove that the claims made by its representatives were correct and that it was only held back from becoming a real asset in our national defense by forces over which it had no control. These obstacles, it is hoped, have been removed in the new bill and time alone can tell whether the national guard will take its place as an important factor in the army."

FORT WAYNE NIGHT JUNE 6

Opening Pageant Presentation to Be Brilliant Affair.

TAKING CARE OF VISITORS' PROBLEM

Home-Coming Committee is Badly in Need of Many More Rooms.

SPACE AT EXPO.

On account of a rearrangement of the space for the circus acts and some of the exhibit booths, additional space at the Fort Wayne Industrial exposition is now available. Apply to R. B. Carmine, the office secretary of the Centennial office, Commercial club, for space and terms.

DON'T MAKE A MISTAKE.

If you have bought a one-dollar ticket for the pageant, and have laid it away with the belief that it is a reserved seat ticket, get it out quick and take it to the reservation booth at Wolf & Desautel's where you will receive a reserved seat ticket in exchange for it, free of charge. The regular ticket is NOT reserved unless you do this. Don't make a mistake. If you haven't bought a ticket yet, you can go direct to the reservation booth, if you wish, and buy your reservation. If you want to call the ticket booth by phone ask for 3289.

Will you be on hand "Fort Wayne Night?"

That's the big opening event of the Fort Wayne pageant, Tuesday, June 6. This first night has been named "Fort Wayne Night" in order that the people of Fort Wayne may attend the performance on the initial evening and give to it their enthusiastic and earnest approval. In no better way can the true community spirit find expression, for the hundreds of patrons in the east, knowing that their own friends are looking upon their work with sympathetic consideration, will put into their work the force of their best efforts.

Many of the pageant box parties are being planned for this night which upon the series of three presentations of the great play, and it looks as if the opening event would find Fort Wayne on hand with its enthusiasm and appreciation to give the production the encouragement of its whole-hearted sympathy and applause.

Some, who are deeply interested in the play, and who believe that to get from it all that the production has to give, it will be desirable to see it more than once. Hence, their anxiety to witness the opening presentation.

Others, fearing the possibility of rain during any of the three evenings, want to make doubly sure of seeing the play; hence their purchase of tickets for the opening night.

Still others, viewing the matter from a patriotic viewpoint, believe that it is due the out-of-town friends that the people of Fort Wayne insure them a seeing of the play when they come pouring in for the second and third nights.

Splendid Seat Sale Today.

Harry Triskett, in charge of the reserved seat booth, is a mighty busy boy today. "The business opened up much better this morning than it did yesterday," said he. "The people are glad to know we have designated the first evening as 'Fort Wayne Night,' and they're going to make it a real event as far as the audience is concerned. A good many box parties are being formed, and these seats are going nicely."

busy this week sending out invitations to the thousands of former citizens whose names are being furnished by the home friends.

Four hundred names per day have been pouring in upon the office, and the clerical force has been busy mulling out the invitations as rapidly as possible. It is believed that the number of home-comers will run up into the thousands, although many of them will be unable to send word of their acceptance of the invitation until during the last few days before the celebration.

Rooms Are Needed.

This brings up two important problems for the solution of the home-coming committee—problems which require the active assistance of hundreds of loyal Fort Wayne people. The first of these problems is the matter of securing places for these people to stay during their visit to the city. They will not expect to be entertained at the expense of the association or anybody else. They will come with the belief that Fort Wayne people will at least tell them where they can find simple and comfortable sleeping rooms where they may stay during their visit to the old home, which has urged them to come. Therefore, the committee pleads with the people of Fort Wayne to assist in finding places for these home-comers to stay. If anyone has rooms to rent, leave the information with R. B. Carmine at the Centennial headquarters, where it can be kept for reference when needed. Or, if anyone has a suggestion of a plan whereby these friends can be entertained, come forward and co-operate with the committee in extending the glad hand in the way of comfortable places to stay. The visitors are coming with the means to pay for their entertainment, but it is up to Fort Wayne to help them find rooms which shall serve as their homes while they are here.

The other problem which confronts the home-coming committee is the securing of two hundred automobiles for use on the morning of Homecoming and Historic day—Wednesday, June 7—when all of these friends will be taken on a 25-mile automobile ride over the entire city. Those who will tender the use of their machines with driver, may notify Mr. Carmine at the Centennial headquarters or W. H. Scheiman, chairman of the home-coming committee.

MERCHANTS ARE BUSY

Preparing for the Elaborate Decoration of Their Buildings.

One point in the matter of preparing for the centennial which has been somewhat overlooked for the present, but which will blossom forth in all its patriotic beauty, is the quiet activity of the merchants and business block owners in preparing to decorate their places. "Just to indicate what's doing," observed J. B. Crankshaw, chairman of the committee on decorating and illumination, "there's our business block half a square off Calhoun street, on one of Dry Goods Co., Wolf & Desautel and J. H. Gastoff & Co. have been in frequent consultation with the decorating the east-and-west streets, that has let a contract for decorating at \$100. Another business building has given contracts for a total of \$230. I want to tell you there will be one beautiful transformation when this work is completed."

Three decorating firms—the Burdick committee, and these are placing decorations on business houses entirely in harmony with the general scheme of decorating adopted for the street work.

MR. FOSTER AT BLOOMINGTON

To Tell About the Fort Wayne Centennial and Other Celebration.

Samuel M. Foster, member of the Indiana historical commission, is at Bloomington today, to deliver an address on the occasion of the opening of the pageant there in connection with the state university. This pageant will be given in the daytime on the beautiful campus of the university. State Pageant Master Landon is in charge.

A number of other Fort Wayne people, chief graduates of the university, will witness the great outdoor play. Mr. Foster in his address, will refer to the Fort Wayne pageant and speak in a broad way of the influence of the

modern dramatic portrayal of the story of the community.

AT THE WOMAN'S BUILDING

Preparing the Rooms to Receive Their Exhibits for Centennial.

A misunderstanding with reference to the plans of conducting the Woman's building display and service, has gone out to many who are entitled to an explanation. Everything in the Woman's building will be absolutely free, except admission to one room, namely, that which will be known as the loan exhibit of rare old heirlooms and reminders of the days gone by. A charge of ten cents will be asked at the entrance to this room. Everything else is absolutely free to all.

In one of the other rooms will be the display of birds confined exclusively to the showing of the feathered creatures which inhabit northern Indiana. The children, when they view this wonderful exhibit, in charge of Miss Margaret Hanna, will not be shown a collection of birds from the tropics or from the distant regions of the earth; but they will all be specimens from the community in which these children have seen them in their wild state. Experts will imitate the songs of the birds, and in every way the exhibit will be a true educational demonstration of bird life about Fort Wayne. This display is free.

Many people will loan their collection of curios of all sorts, all suitably labeled and placed in cases. This display also, is free.

The Woman's league is preparing a room for the use of visitors, where refreshing punch will be served and where conveniences for writing and reading will be provided. The hostesses will be the past presidents of the club, assisted by others who have added to the success of the organization. All will be welcomed to this rest room. Fox Bros. & Co. are providing the furniture.

A Model Sick Room.

In charge of Miss Irene Byron and Red Cross nurses, a model sick room will form one of the good exhibits of the Woman's building. In one of the windows will be placed a model bed for the provision of out-door air to the invalid in the treatment of tuberculosis.

The Mary Wayne Pénrose chapter, Daughters of the American Revolution, is preparing an appropriate exhibit and rest rooms in the building, free to all.

Mrs. Ben Levy will have charge of the rest room features of the entire building. Arrangements have been made for rest room space in many parts of the building.

The public library is arranging for a comprehensive educational exhibit in the Woman's building.

QUESTIONS AND ANSWERS

Q—Is it true that all of the circus acts at the industrial exposition are free?

A—Anyone who pays 25 cents to see the exposition gets the circus acts and the concerts by the Highlands band free.

Q—Is there a parade in connection with the pageant?

A—No. The pageant is not a parade. It is given on a stage, the same as a theatrical performance, only on a much larger scale. All of the parades are entirely separate from the pageant. The pageant is given only at night—June 6, 7 and 8.

Q—Where do I send in names of former Fort Wayne citizens so an invitation can be sent to them to come to the celebration?

A—Call phone 3000, the centennial headquarters, and give the name to the party that answers. R. B. Carmine, the office secretary, will see to it that the invitations are sent out the very same day.

Q—I want to get reserved seats for the pageant, and I don't know who is selling them. Where can I get tickets?

A—Go direct to the ticket booth at Wolf & Desautel's.

THE "CORN DANCE" CHILDREN

Are Called for Rehearsal Wednesday Afternoon at 4 O'clock.

A special rehearsal of the boys and girls who take part in the "corn dance" at the opening of Scene I of the pageant is called for Wednesday afternoon at 4 o'clock at Shrine hall, Saengerbund building, West Main street and Maiden lane.

All who have been cast for this picturesque part of the opening scene will be expected to report promptly and bring their part up to a high degree of perfection Wednesday afternoon.

Miss Van Buren plays the part of Ramona Gonzalez in "June's Ramona." Before entering the motion picture field she had many notable engagements on the stage in the support of many of the best known stars.

METHODISTS ALMOST A UNIT FOR UNION

Conference Action Paves Way for Final Action in 1918 and 1920.

Saratoga Springs, N. Y., May 16.—The unification of the Methodist Episcopal church and the Methodist Episcopal church south, was endorsed almost unanimously by the Methodist general conference today.

The conference adopted the report of the committee on unification, which provides for further negotiations with the southern church, paving the way for final action by the general conference of the southern church in 1918 and by the northern church's general conference in 1920.

Vigorous Contests Loom.

Two vigorous contests were forecast by the announcements that the committee on episcopacy had voted to make a supplemental report recommending a further increase in the number of new bishops to be elected and that the committee on state of the church had decided against striking from the requirements for church membership the prohibition against theaters, cards and dancing. Both recommendations, it was predicted by conference leaders, would meet with much opposition.

The committee at a special meeting finally voted, 173 to 37, to recommend the election of seven bishops with powers of general superintendents, and a missionary bishop for Singapore.

Dr. Martin Is Heard.

"I beg of you to make provision for the church of the orient which will lay the foundations of the Methodist Episcopal church there," said Dr. Wallace W. Martin, district superintendent of the Methodist Episcopal church of the Fort Wayne (Ind.) district, in a speech yesterday opposing an increase in the number of bishops in addition to the two missionary bishops for Africa.

The amusement question came up for action before the committee on state of the church which adopted the minority report of a sub-committee which had deliberated on the matter. The majority of the sub-committee, headed by Chancellor James R. Day, of Syracuse university, recommended that the prohibition against theater attendance, dancing and games of chance be eliminated, while the minority recommended that the discipline remain unchanged. The vote of the full committee in favor of the minority report was 113 to 43.

GEORGE ADE TELLS WHY HE RESIGNED

Opposes Attitude of Purdue Faculty Toward Student Enterprises.

Brook, Ind., May 16.—George Ade, who has tendered his resignation to Governor Haldston as a member of the board of trustees of Purdue university, has issued the following statement:

"I am not resigning at this time because of any recent complications or sudden disagreement with anything happening at Purdue. For a long time I have not been in full accord with the faculty general policy of repression and regulation in the matter of student enterprises. No doubt the faculty must exercise a pretty firm control of undergraduate activities, but I think this could be done without nagging the students into a sullen and resentful mood. I could write a book about eccentricities and irresponsibilities of college students, but I am still of the opinion that you cannot teach a bird to fly by trying him in a limb. It has seemed to me that the kind of control exercised at Purdue in recent years did not encourage the spirit of self-reliance, or cultivate a spirit of initiative. It was good training for subordinates, but not for executives. I am not maintaining that a faculty should take orders from the students, but I think there should be a sort of fellowship between the bodies, especially when it comes to getting out and making a fight for the reputation of the university. I believe that the tact and diplomacy necessary to secure a hearty and friendly co-operation between the faculty and students needs the inspiration of leadership as much as the iron hand of discipline. I was supposed to represent the alumni on the board. I was not sure that my private opinions would be approved by the alumni. I had definite instructions from the association. My duties as trustee were largely perfunctory. I did not feel that I was wielding much influence and so I was content to let some other alumnus step in and serve a term."

SHE HAS FOUND WAY TO INTEREST HUBBY

MRS. B. F. ROLLER

San Francisco, Cal., May 16.—Mrs. B. F. Roller, "the physical culture bride," has discovered the way to hold a husband.

Here is the recipe: "Wrestle for 10 minutes before breakfast so that he will start out the day feeling healthy."

"Know something about all the sports he knows. Be able to talk of the baseball game intelligently and outpoint him on plays if you can. This keeps him from the club where he goes to talk of sports and lends an air of companionship which makes a wife seem like a pal."

"Keep in athletic trim so that he will admire your suppleness, and by constant exercise be able to indulge in some of his sports, such as wrestling or boxing."

Mrs. Roller is the wife of Dr. B. F. Roller, the well-known wrestler, formerly in Seattle, but now in the east. Mrs. Roller is in San Francisco, having returned recently from a trip to Honolulu.

Fearing to get out of trim while en route, Mrs. Roller astonished passengers by running a mile around the steamer docks each morning, manipulating ropes and teaching other young women tricks in wrestling.

1,855 PATIENTS CARED FOR DURING THE YEAR

Lutheran Hospital Society Holds Annual Meeting Monday Afternoon.

During the past year 1,855 patients were cared for at the Lutheran hospital, according to the report which was submitted at the annual meeting of the hospital society held Monday afternoon in the auditorium of the nurses' home. Of this number 926 were residents of Fort Wayne, while 721 were non-residents. There were also 123 babies born at the hospital during the past twelve months.

All the officers were re-elected for another year and are as follows: Rev. Philip Wambsgans, president; R. Moellering, vice-president; Rev. August Lange, secretary; August Freese, treasurer; William Baule, financial secretary; W. Moellering, O. Bengs and C. Seidlandroff, trustees. Rev. Frederick Wambsgans and Rev. Paul Miller were re-elected chaplains of the hospital. Hospital Sunday will be observed on the first Sunday in August at which time a special program will be rendered in the hospital grove.

The receipts during the year, which amounted to \$36,860.47, was sufficient to cover all the expenses of the institution, including \$2,000 interest. The property of the association is valued at \$155,993.96. During the year a portion of the expenses is listed as follows: Salaries, \$10,477.58; groceries, \$7,140; eggs, \$1,394; meat, \$4,367; milk, \$1,834; butter, \$2,893.

Mrs. Herman Mackwitz, secretary of the Aid society of the hospital, stated in her report that the society now had a membership of one hundred and fifty. During the year the members made the following articles: Three comforters, twenty-six napkins, thirty-seven towels, forty-four dresser covers, 243 bed sheets, 430 pillowslips and 993 pads.

AMERICANS NOW SAFE FROM FURTHER RAIDS

Washington, May 16.—American communities along the Mexican border are now safe from further raids similar to that at Glenn Springs, administration officials were confident today. They indicated that with additional United States troops and national guardsmen being distributed along the border only a general American outbreak beyond the border, Carranza soldiers participating could endanger American border towns. "Such an outbreak is considered highly improbable by officials here."

MUSIC TO FILL IN WAITS.

Moosers Want No Dull Moments at Convention.

Chicago, May 16.—The charge of arrangements for a convention to be held in Chicago, May 17, is planning to which occur between speech and music. Fifty minutes of music, known today, fifty minutes of opera stars are under contract. Speeches by suffragists on state and national affairs were started yesterday by several speakers. According to plans there will be thirty speeches made each day and a convention week.

RURAL CREDITS NEARBY.

Washington, May 16.—Rural credit legislation was a long step nearer enactment today because of passage of the House late yesterday of the Glass bill by a vote of 295 to 10. Differences between this measure and the bill already passed by the senate probably will be ironed out soon in conference. The House bill contains provisions more liberal than the senate measure. Under a rule limiting general debate to five hours and providing for a final vote Friday night, the House took up consideration of the administration shipping bill.

HEARING FOR MORIN IN UPRISING PLOT

Kingsville, Texas, May 16.—Jose M. Morin, former Villa army officer and alleged leader of a proposed uprising of Mexicans in Texas, New Mexico and Arizona, now in jail here, probably will be taken to San Antonio tomorrow for a preliminary hearing, according to United States officers. Twenty-seven men in all, it was said, are held in jail here in connection with the alleged plot. Arrests continued in the case, according to federal officers, and it is believed all the leaders will be detained before night. The proposed outbreak, it is alleged, originally was set for May 5. Later it was postponed until May 10, but before this date Morin was arrested.

NEWS OF FORT WAYNE'S NEIGHBORS

LIGHTNING BURNS TWO BARN.

Warsaw, Ind., May 16.—Two barns were completely consumed by fire and one slightly damaged as the result of the electrical storm which passed over Kosciusko county. The barn of Theodore Haab, who resides a short distance west of Milford, was burned to the ground and four head of horses consumed. The members of the family heard the crash and looking out of the window saw the flames shooting up from the roof of the building. Owing to the large quantities of hay stored in the barn the flames spread rapidly and it was almost impossible to save any of the contents. The loss is covered by insurance carried in the Farmers' Mutual. Fire destroyed the barn of Sarah Garman, located two miles south of Claypool.

FORMER PONELO MAN KILLED.

Montpelier, Ind., May 16.—Milton L. Collins, 28, formerly a Poneto young man, who has been in Indianapolis and was an employee of the real estate department of the Fletcher Savings and Trust company of that city, was killed in an automobile accident near that city and C. E. Morris, clerk at the Claypool hotel, was injured slightly. M. S. Lloyd, a driver from a garage in that city, was driving the machine and it attempted to pass another machine going at the rate of about forty miles an hour when it skidded. Collins was thrown against a watering tank and his neck was broken.

BAD CHECK CAUSES ARREST.

Warsaw, Ind., May 16.—An attempt to cash a check for \$125 on the Globe Clothing company here caused the arrest of Miles Makemson, the seventeen-year-old son of Homer Makemson, who resides a short distance north of Pierceton. Young Makemson bought a suit of clothes at the Globe and offered in payment a check for \$125, bearing the signature of John Perry. The check was made out to Carl Betz and was payable at the Pierceton bank. When questioned the boy stated that he had been given the check by a party at Pierceton and as a reward for passing it was to get a new suit of clothes and one dollar besides. He refused to divulge the name of the party.

WARSAW COUPLE MARRIED.

Warsaw, Ind., May 16.—A very pretty wedding in which Everett Shipley and Miss Lucile Morris were united in marriage, was performed at the home of the bride's parents, Mr. and Mrs. B. Q. Morris, Monday. The ceremony was performed in the presence of a few of the intimate friends of the young couple. The ceremony was performed by Rev. A. W. Littrell, the beautiful ring service being used. The home was artistically decorated with white lilies and pink sweet peas. After a honeymoon at Yellow Banks Mr. and Mrs. Shipley will be at home to their friends at their farm seven miles southwest of this city.

KNOCKED DOWN BY LIGHTNING.

Columbia City, Ind., May 16.—Ray Phillips, salesman at the William Shiner grocery, was knocked down by lightning during the morning storm. He and his father had been working in the tool house some distance to the rear of their dwelling and when the storm came up they were ready to start for the house. The young man was carrying a pair of tinners in his hand and when the lightning flash came the tinners were thrown for a distance of fifty feet. There is a slight ravine between the house and the tool shed at the Phillips home, and it was while in the ravine that the lightning struck him. Mr. Phillips, who was wearing a pair of rubber boots, escaped the shock. He picked his son up and he was soon all right and then continued their journey to the house.

INDOOR LIFE MAKES FAT

TRY OIL OF KOREIN TO KEEP WEIGHT DOWN, OR TO REDUCE SUPERFLUOUS FAT.

People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against over stoutness, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat in the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any persons who are satisfied in their own mind that they are too stout are advised to go to a good druggist and get a box of oil of korein capsules, and take one after each meal and one just before retiring at night.

Even a few days treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of the old energy; footstep become lighter and the skin less flabby in appearance as superfluous fat disappears.

Oil of korein is inexpensive, cannot injure, and helps the digestion. Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial. Advertisement.

has resigned, following an investigation instigated by the school board of alleged misconduct on the part of the school principal. It was alleged that Mr. Hayden was indiscreet in his actions toward certain pupils at the school. Complaint of Mr. Hayden was made by girl pupils, it is understood whose parents believed, after hearing their stories, that the principal carried his protestations of friendship too far. Whether with good or bad intentions, it was felt that such actions should not be permitted.

CHILD HAS NARROW ESCAPE.

Bluffton, Ind., May 16. Vera Johnson, the small grandchild of Mr. and Mrs. Levi Lucabaugh, in whose home she is visiting in Liberty township, met with a painful experience, which nearly cost her life. She ate some medicine, thinking it was candy. Dr. Garrett was summoned and succeeded in reviving the child who had gone into convulsions. Although out of danger, the child still is very weak.

INFANT DROWNS IN JAR.

Portland, Ind., May 16. Clara Grace Caster, aged sixteen months, and the only child of Harley C. and Mary Bailey Caster, was accidentally drowned at the family home one mile west of Westchester. The baby was playing near a twelve-gallon jar, which contained less than five inches of water. Having dropped a comb and several articles into the jar it is supposed the child attempted to reach for them and fell head first into the water, pulling a bucket into the jar as she fell, the bucket concealing her from view.

NO MORE SUNDAY FUNERALS.

Auburn, Ind., May 16. There will be no more Sunday funerals in Auburn if the wishes of the Auburn Ministerial association are carried out. At their meeting at the Y. M. C. A. Monday evening every pastor of the city was present. A motion was made to discourage the idea of Sunday funerals. This motion to be announced to the public. The association decided to hold meetings on the streets Saturday evenings whenever possible. The street meetings will be of an evangelistic nature.

SYRACUSE BOY IN CAMP.

Warsaw, Ind., May 16.—Dallas McKelvie, of Syracuse, is representing Kosciusko county at the camp of military instruction, which opened today at the Culver Military academy on Lake Maxinkuckee. The camp will end May 20. This short term is open only to the high schools of the state.

CULVER CAMP IS OPENED.

Over 500 High School Students in Military Training There.

Culver, Ind., May 16.—Camp Woodrow Wilson sprang into being yesterday when more than 500 high school students arrived at the Culver Military academy and began two weeks of military training. The boys were issued uniforms, rifles and mess kits and assigned to companies. Culver cadets, which includes the famous "black horse troop," are assisting the officers of the academy in instructing the recruits.

The course is designed primarily to train high school boys so that they may be leaders in schools which plan to introduce military instruction as a part of the school work next year.

Among the states represented at "Camp Woodrow Wilson" are Illinois, Indiana, Ohio, Michigan, Iowa and Kentucky.

HOOSIER POET IN FILMS.

Lockerie Street Scenes to Be Shown in Centennial "Movies."

Indianapolis, May 16.—James Whitcomb Riley made his debut as a motion picture star at his home on Lockerie street yesterday. A large number of scenes showing Mr. Riley telling a score of small children the history of their state were staged. The individual "star" of the scenes, in addition to Mr. Riley, was his niece, Miss Elva Riley Eitel, the 3-year-old daughter of Mr. and Mrs. Edmund H. Eitel. Miss Eitel was not one bit "camera shy."

The scenes staged are to form the part of the state centennial film which is to be a feature of the various centennial celebrations this year.

NEW CANDIDATES START CLIMBING TOWARD THE TOP

Offer of Ninety Thousand Bonus Votes for Combination of Twenty-Five Dollars Worth of New Subscription Payments in Sentinel Big Automobile Campaign Interests Many Who Join Merry Race.

Not since the original announcement of The Sentinel's big automobile and prize campaign has anything been received with such genuine enthusiasm and favor as the 90,000 vote bonus and \$200 in gold. As a special event it bids fair to stand out in this interesting campaign as the most liberal inducement placed before the eager candidates.

An impressive feature in connection with the offer is the number of new candidates that are now entering and the many who, hitherto inactive, are getting busy. Still, this is not surprising when it is considered that now, and during the next twelve days of this offer, more votes can be gotten on new subscriptions than at any time later. Older candidates are finding it expedient to look to their heels, for these candidates carry an impressive air about them that denotes their mean business.

Concerning this phase, one of the new entrants said: "You can believe that I mean business. Here I've put off entering the campaign for three or four weeks. But I just couldn't stay out. I saw my friends getting closer every day to one of the automobiles, and I decided I could do it, too. I am certainly going to win a car. I have not had a bit of trouble in reaching the top of the vote list, and I'm going to stay there until the end."

For a new candidate to negotiate a distance to the top is easier than it may appear. Frankly, new subscriptions will accomplish twice as much in advancing a candidate as old subscriptions. Every effort should be bent in the direction of new subscriptions, then may say to get new subscriptions, I hard, but if it is hard for one it is hard for all. Of the best you can. Other are getting new ones, so can you.

A certain candidate came to the Campaign Office yesterday and handed in five fifteen week subscriptions. "There," she said, "that's one day's work. Of course, they are little ones, but they help. I induced those people to take the paper for fifteen weeks to see how they liked the paper. They only spent \$1.50 for it, and in two or three weeks I'll call back and try to get a special payment for a longer time. In the meantime I'm working for the special offer."

The same can be done by any other woman. Ask your friends and neighbors—everybody in your neighborhood—for a subscription. If they don't at a long term subscription, get them for fifteen weeks anyhow. Once they are receiving the paper they will want to continue it and candidates can thus secure second payments which will count as new subscriptions if the original payment was also "new."

All such subscriptions in fact, say bona fide new subscriptions to The Sentinel from fifteen weeks to five years, can be clubbed together in building up a combination of \$25. Not only are the regular votes issued on each individual subscription, but an extra bonus of 90,000 extra votes will be given on the club. Candidates can turn in as many clubs as they desire and they will receive credit for each. This special offer extends until May 27th, 9 p. m.

Another thing: Candidates who secure second payments on new subscriptions turned in on the last offer, can apply them on the present offer.

The \$200 in gold, which will be given free to the four highest candidates who turn in the four highest amounts of money in new subscription payments during the vote offer, is also spurring contestants on to redoubled efforts. All are single minded in the hope that they will win one of the four gold prizes, many thousands of extra votes, and in the end, one of the four automobiles.

To guard against the possibility of making mistakes in turning in subscriptions, every candidate should observe that under no circumstances will the practice of "switching" subscriptions be tolerated, and any attempt to thus gain extra votes will prove utterly useless and only lose the votes in the end.

Some candidates are under the misapprehension that if The Sentinel is going to a certain address and is merely changing to another member of the family or household, or any other person of the same address, that such procedure will make a new subscription out of an old one. IT WILL NOT.

The chief of this campaign is to

Dyspeptics Should

Avoid Drugs And Medicines

Try a Little Magnesia Instead. Some people instinctively shut their eyes to danger, and it may be that instinct or custom or habit cause dyspeptics to take drugs, patent foods and medicines, artificial digestants, etc.

But closing the eyes does not banish the danger and it is certain that neither drugs nor medicines possess the power to destroy the harmful excessive acid in the stomach, which is the underlying cause of most forms of indigestion and dyspepsia. They may give temporary relief, but eventually the question must be taken, and at the time the acid remains in the stomach as dangerous as ever.

Physicians know this and that is why their advice is often to sufferers from digestive and stomach trouble is to get about as much of pure bicarbonate of soda from your druggist and take a teaspoonful of a little water immediately after every meal. This will instantly neutralize the harmful acid in the stomach and keep all food fermentation, thus enabling you to enjoy hearty meals without experiencing the least pain or unpleasantness afterward.

LESS BEER CONSUMED.

But Internal Revenue Report Shows Increase in Whisky Output.

Washington, May 16. Notwithstanding the fact that prohibition laws have become effective in seven states since July 1, 1915, approximately 7,000,000 gallons more whisky has been produced in the United States so far during this fiscal year ending June 30, than over before. Returns to the internal revenue bureau approximate the total increase for the year at 10,000,000 gallons.

During the same period the production of beer has decreased more than 1,000,000 barrels, or 10,000,000 gallons. From last year's figures, the total production of beer for the year ending June 30, is estimated to be about 10,000,000 barrels. An extraordinary increase in the amount of beer, cigarettes and tobacco is expected for the current year. The tax collected during the year ending June 30, 1916, shows an increase of approximately \$5,000,000 over the year ending June 30, 1915.

DAILY BIBLE READINGS FOR THE HOME

Acts 14:8-20.

8 And there sat a certain man at Lystra, impotent in his feet, being a cripple from his mother's womb, who never had walked;

9 The same heard Paul speak; who steadfastly beholding him, and perceiving that he had faith to be healed,

10 Said with a loud voice, Stand upright on thy feet. And he leaped and walked.

11 And when the people saw what Paul had done, they lifted up their voices, saying in the speech of Lycaonia, The gods are come down to us in the likeness of men.

12 And they called Barnabas, Jupiter; and Paul, Mercurius, because he was the chief speaker.

13 Then the priest of Jupiter, which was before their city, brought oxen and garlands unto the gates, and would have done sacrifice with the people.

14 Which when the apostles, Barnabas and Paul, heard of, they rent their clothes, and ran in among the people, crying out,

15 And saying, Sirs, why do ye these things? We also are men of like passions with you, and preach unto you that ye should turn from these vanities unto the living God, which made heaven, and earth, and the sea, and all things that are therein;

16 Who in times past suffered all nations to walk in their own ways.

17 Nevertheless he left not himself without witness, in that he did good, and gave us rain from heaven, and fruitful seasons, filling our hearts with food and gladness.

18 And with these sayings scarce restrained they the people, that they had not done sacrifice unto them.

19 And there came thither certain Jews from Antioch and Iconium, who persuaded the people, and, having stoned Paul, drew him out of the city, supposing he had been dead.

20 Howbeit, as the disciples stood round about him, he rose up, and came into the city; and the next day he departed with Barnabas to Derbe.

A Splendid Start.

Announcement that William E. Mossman has pledged the sum of fifty thousand dollars to the building fund of the Fort Wayne Young Men's Christian association, contingent solely upon the raising of the complete fund of \$300,000 which has been set as the goal of the endeavor is a splendid start in a splendid work. It is a cause not only for rejoicing upon the part of those directly connected with the task of raising the big popular subscription, but it gives occasion for gratification to every man and woman who desires an advantageous start in life and a wholesome future for the boys of this city who will be the men of tomorrow.

Mr. Mossman's magnificent benefaction, the largest ever given in this city, was given, too, with becoming modesty. He saw the great need and the tremendous possibilities for good of such an enterprise as is proposed. He saw the opportunity to do something for the city he loves that will constitute not only immediate usefulness but a continuing usefulness as well as an enduring memorial. As he expressed it when the thunderous acclamations of gladness at the conference dinner of business men forced him to speak a word of acknowledgment, he preferred to do this thing while he was yet here to see others enjoy its benefits and privileges rather than to leave it to be done after his own life work should be ended. He expressed, too, the profound desire that its benefits should be widespread and that its influence should reach out to the boys of the city and the farm of Allen county alike.

It would be difficult to conceive of either a spirit or an action finer than that. This is by no means the first of Mr. Mossman's benefactions. A man of large vision, of generous impulses, but best of all a man of deep convictions of duty and opportunity to be helpful to his fellowmen, he has again and again given of time and effort and money to public enterprises and public effort worth while. His generosity and his devotion will prove a splendid inspiration not only during the Y. M. C. A. campaign now under way, but for future undertakings of similar character in Fort Wayne as well.

The senate bill providing government aid for the construction of good roads provides that the sum of \$140,600 of Uncle Sam's money would come to Indiana for this purpose during the coming year, \$281,200 for the succeeding year; \$421,800 for the third year, \$562,400 for the fourth year and \$703,000 for the fifth year. The aid, of course, is contingent upon the communities benefited paying an equivalent sum or one-half the cost of road construction. There need be no doubt but that Indiana will measure up to the requirement. With the good roads awakening evidenced in this state during the past few years, that money is as good as ours as soon as congress definitely ratifies the senate bill.

The organization of Indiana republicans behind the boom for the nomination of Charles W. Fairbanks for president by the republican convention at Chicago is rising to the dignity of absolute art. To illustrate the fact that no chance is to be overlooked, it may be cited that it is to have a big committee working in eight-hour shifts on a twenty-four hour schedule to see that every delegate who reaches Chicago personally hears all about Mr. Fairbanks and his candidacy. The friends of other aspirants for the honor will realize that they have some fight on their hands when they encounter that organized phalanx of Hoosier republicans at Chicago, in June.

The national convention of the Brotherhood of Railway Trainmen now in session in Detroit, is expected to take action that will materially advance the movement for an eight-hour day for train crews. It will perhaps take some time to bring about this universal condition on American railroads, but that it is certain to come there is little reason to doubt. The movement is general in all industry. It may not be so easy to arrange for it in railroad work as in some other lines, but adjustment to that end is certain to be worked out finally.

Announcement is made that the Gary Tube company is soon to have a new \$25,000,000 plant to give employment to ten thousand men. Perhaps you have noticed that whenever Gary talks it is unfailingly in the biggest sort of figures. To be fair about it, however, we'll have to admit that Gary usually squares its performance with the numerals it has employed in telling what it's going to do.

Spring collection of taxes in Allen county ran considerably over the million-dollar mark, and it's no trouble at all to find fellows who apparently feel that they've individually paid the greater part of the whole thing.

EQUAL SUFFRAGE

(Kansas City Star)

We know what suffrage will do. And I say to you that after a complete and thorough tryout an overwhelming majority of the people of Kansas, men and women, are now enthusiastic supporters of equal suffrage and there is not the slightest possibility that the policy will ever be abandoned.

All the political parties have been more careful to nominate as their candidates clean, high-minded, honorable men. The legislature has given a great deal more attention to legislation that will elevate the morals of the state and progressive-forward-looking humanitarian legislation. The women were directly responsible for the enactment by our last legislature of a mothers' pension law, a child hygiene bureau to promote the health of our boys and girls, and an industrial welfare commission which compels all employers of labor to pay decent, living wages and a decent schedule of hours, and which absolutely wipes out the curse of child labor.

They say the women do not want to vote, and will not vote if given an opportunity. We have proven beyond the question of a doubt in Kansas that is not true. The woman vote in Kansas is only about 15 per cent. less than the male vote. They not only vote, but they vote right; they vote intelligently and discriminately; and have been a distinct force in making Kansas the great state that it is. Arthur Capper, governor of Kansas.

PATIENT MUST BE "BAD GONE" FIRST

State Laws for Treatment of Insane Wrong, Says Speaker.

Indianapolis, May 16.—An answer to the question, "Why does not one voluntarily retire to a hospital for the insane for a season?" was given today at the general session of the National Conference of Charities and Correction by Dr. E. E. Southard, a noted alienist, who is director of the Boston Psychopathic hospital. It appears that most people do not go to such institutions because they do not fancy that kind of a life and because the laws of most of the states do not favor early treatment of insanity. A man has to be "bad gone" before the state gives him any attention.

Voluntary commitment laws and arrangements for temporary care of mental cases in Massachusetts and in the city of New York were highly commended. From private resources and otherwise, it is becoming customary to give specialized attention to those even suspected of insanity, many of them being cared for outside of any institution. The Psychopathic hospital of Boston was described as a clearing house for cases of all sorts and as a laboratory.

"Rural life may be more or less remote, including communities nearly suburban, and others so shut away that visitors to them find an illustration of history," Miss Ethel De Long, of the Pine Mountain, (Ky.), settlement school, told the National Conference of Charities and Correction in a paper she read today.

"Yet, whatever the degree of rural life," Miss De Long said, "the country school may have its ideal. It should be an interpreter, between the life of towns and cities and that of the country and should serve as a light house for those sitting in darkness because of poverty of communication."

"Hygienic conditions may be im-

proved through its influence. The large agencies of the state and nation should be available for those who could not know of them except for the help of someone better informed. Hook worm, trachoma, and tuberculosis are problems for state and federal aid and the schools perform an equally important service in bringing local conditions to the attention of these bodies. Means of recreation for young people and older ones as well, can be supplied if the school has the real welfare of the community at heart.

"Clubs and playgrounds meet a fundamental need in the country, just as they do in the cities, and if a life made wholesome by the right elements of play and work, were commoner, the country would not be drained so often for the city and the per cent. of insanity among country women would decrease."

CLASS OF SALTS

CLEANS KIDNEYS

If your Back hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking and you doubt you will wonder what became of your kidney trouble and backache.—Advertisement.

FARMER IS HAPPY AT END OF TRIAL

Ralph Wise is Elated With the Results Tanlac Gave Him.

"I am mighty glad I tried Tanlac," Ralph Wise, a well known farmer, who lives on rural route No. 8, Fort Wayne, said recently while discussing the work of the new medicine in his case.

"For a long time I suffered with stomach and liver trouble," Mr. Wise continued. "There was a sore spot on my stomach that has bothered me for 5 years. Often I would cramp immediately after eating and the pain would be very severe."

"I heard about Tanlac and decided to try it. I have taken four bottles of the medicine now and am greatly improved. The pain has disappeared from my stomach. I am not bothered any more with cramps that formerly attacked me. Yes, I'm glad I tried this new medicine."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, nervousness, loss of appetite and the like and is a fine tonic, building up to health and strength weak, run down people.

Tanlac is now being introduced in Fort Wayne at the Wayne and Calhoun street stores of the Meyer Drug Co., where the Tanlac Man is explaining the new remedy. It also may be obtained in Fort Wayne at the other Meyer stores, Calhoun and Columbia, 1420 Calhoun and Broadway and Taylor.—Advertisement.

TEN-DOLLAR HOSS BONE OF LAWSUIT

Ed Evans Acquitted in City Court on Charge of Selling Diseased Animal.

A little more than changed hands recently for a cash consideration of \$10 and again for \$10 and still later was a detail of a joblot \$40 bargain that included a good buggy and a tolerable set of harness, figured as the bone of contention in a state case that engaged one hour of the good time of the city court and near half a score of witnesses in the municipal tribunal Tuesday morning.

Edward L. Shondell, rural route 15, charged Ed Evans with selling a horse knowing the animal to be diseased. The precise affliction of the little mare is a case of heaves, which Shondell said gripped her when he made the purchase and which Evans declared was a post-burgain development.

Dr. Charles J. Gruber, president of the Indiana board of veterinary registration, was called to the witness stand as an expert. Shondell declared he had purchased the animal along with the buggy and harness for \$40 on the guarantee that the mare was perfectly sound. The court seemed to think that a nag that could hop the market in ten-dollar deals was entitled to some latitude for indulgence of the hypochondria of her sex and acquitted the defendant.

Itinerary Driver Fined.

William Wordell, driver of a jitney bus, drew a fine of \$1 and costs, amounting in all to about \$15, on being convicted of a charge that he had driven his carryall past a street car standing to discharge passengers at Main and Harrison streets. He did not deny driving by, but said he saw no passengers entering or leaving the car. Two passengers—a very large lady and a child—had just stepped from the car as the jitney was whizzed by.

Other City Court Cases.

Frank Kelly was conducting an interesting experiment respecting the effects of copious doses of alcohol on the human system and its mental equipment was doing an animal dance on all four at the city dump, when Officer Joe Degitz, of the wagon squad, and Patrolman George Heller got to him. He was chased from his trance and locked up. Judge Kerr let him go.

Dell Chapman, a drunk, was fined \$1 and costs, Robert Connor, another drunk, was continued until Wednesday, and Henry Freitag, held for several days to become thoroughly sober, was allowed to go home.

Prosecutor John C. Hoffman dismissed the assault and battery case against Fred Sheldoll.

The \$100 bond of Laura Baugh, a negroess arrested on a loitering charge pending investigation of her part in the robbery of a white man on the street, was declared forfeited. The woman jumped her bail and went to Toledo.

FORGER REDMOND ESCAPES.

Dispatches from Michigan City de al the escape from the state prison there of George Redmond, who was sentenced from this county last December for forgery. He was detailed as a trustee and employed as chef to the warden of the penitentiary. He disappeared from the prison Monday morning soon after he had been dispatched from his cell to the Warden's residence to get breakfast, feigning illness and getting into the hospital, where he was supposed to be until afternoon, when his absence was discovered. Redmond forged a \$25 check here last fall with the name of Rev. Robert E. Kelly, of the Cathedral clergy, and passed it at the Washburn depot for a ticket to St. Louis and received the balance in change. He was arrested by Officer Frank Cleverton. Redmond is a skillful forger and served a term in the Minnesota prison at Stillwater for a similar offense. The man is crippled.

STOLEN TOOLS PAWNED.

A lot of stonecutters' tools stolen from two chests at the Geake stone yards Saturday, were found at a pawnshop by Detective Sergeant W. F. Yappert, who has a description of the men who pawned them.

WOMAN TAKES BAD CHECK.

A stranger who engaged a room of Mrs. Laura Blackburn, 1444 Broadway, paying \$4 in advance, gave her a check for \$10 and received \$6 cash in change. The check is worthless and the stranger evidently has disappeared.

WILL DEVELOP BOND BUSINESS.

Department is Established by German-American National Bank.

A bond department has been established by the German-American National bank and J. Herman Bueter, ex-county treasurer, has been placed in charge. The bond department is to be conducted in connection with the bank, particular attention being paid to the purchase of municipal bonds and other tax-exempt securities. Theodore Wentz and Mr. Bueter Monday purchased \$40,000 worth of road bonds from the county treasurer of Jay county and also \$10,000 worth of the same kind of bonds from the treasurer of Adams county.

HAIRCUTS 35 CENTS.

Increase Will Go Into Effect in Union Shops on June 5.

Effective Monday, June 5, haircuts in all the union shops in the city will be 35 cents, an advance of ten cents. This action was taken Monday evening at the regular meeting of the Fort Wayne Barbers union. All other prices in the tonsorial line are to remain the same. As a result of the increase in the price of haircuts the barbers employed in the various union shops of the city are to receive an increase in wages of \$1 on the week.

Special hours were adopted at the meeting for complimentary work. The shops will open one hour earlier, at 7 o'clock, and close at the usual hour, at 5 o'clock.

There is little change in the condition of Mrs. James Clark, 1203 St. Mary's avenue, who stepped backward off the curb at the Anthony hotel Sunday evening directly in front of a jitney bus and was knocked down. She is conscious only part of the time.

Society

On every side is heard talk of the Centennial celebration and the pageant. Club women are enthusiastic on the subject and the Woman's league is striving to make June 8 one of the representative days by having Fort Wayne's prominent citizens present and so far as possible occupy box seats and in other ways leading distinction to the appearance of the audience and thereby gracing the occasion when Gov. Bristow and Hon. William H. Taft are present.

With Miss Marie Centlivre in the leading feminine role, Miss Maribel Olds as the comedienne and Earl Thompson, Al Gessler and Ross Davis all in important roles, the promised "movies" of local people in a real play at the Jefferson theater is being eagerly anticipated. Real rehearsals began today and there are to be pictures of Fort Wayne crowds and dancers and scenery, just as is done in working out any scenario before the camera.

The Lakeside Normal school is planning to have a flower festival on June 10.

Mr. and Mrs. H. B. Master and family left on Monday for a two weeks' stay at Atlantic City.

Miss Martha Vail of South Webster street, entertained the South-Sea club Tuesday afternoon.

Mrs. Lucinda Deemer of Tiffin, Ohio, is visiting her sister, Mrs. Anna Hazard, of Third street.

Miss Ethel Rohan left on Sunday evening for Pueblo, Co., to visit her sister for some months.

Mrs. Stephen Trentman has returned to Chicago after a few days' visit with Mrs. H. O. Bruggeman.

Mrs. Peter A. Thompson, of Kinnaird avenue, is going to Lafayette on Thursday for a visit with relatives.

The Dwyck club will be entertained on Wednesday afternoon by Mrs. Charles Rossett, of Riverside avenue.

Misses Marjorie Kilgore and Bessie Smith are going to Delphi to visit Miss Kilgore's grandmother for a few days.

TODAY'S AID TO BEAUTY

An especially fine shampoo for this hair, one that dissolves and entirely removes all dandruff, excess oil and dirt, easily be made at trifling expense by simply dissolving a teaspoonful of can-oil in a cup of hot water. Pour over scalp and massage briskly. It creates a soothing, cooling lotion, leaving the scalp spotlessly clean, soft and pliant, while the hair takes the glossy richness of natural color. A fluffiness which makes it seem heavier than it is. After a can-oil shampoo arranging the hair is a sure.

USE-BUD SODAS
Cracker for You That Splits in Two.
If Grocer Sells Them

Miss Mary Redmond, 1926 Washington boulevard east, recently, Elias and Elise of the valley formed a beautiful decoration and a buffet luncheon was enjoyed during the time. Other guests who enjoyed the occasion were Misses Mildred Scherer, Elvora Gause, Emma Franke, Esther Halper, Louise Barker, Eider and Henrietta Baker. Miss Mary Chapman, of 802 Wilt street, has issued invitations to a shower party to be given in honor of Miss Scherer.

The Misses Marie and Louise Scherer were honored in a very enjoyable birthday party given Sunday at the residence of Mr. and Mrs. Martin Kemmer, on the Bluffton road, seven miles south of the city. There were games, refreshments and a general good time. The guests included John Schwartz, Herman Wesley, Mr. and Mrs. Hart and daughter, Mr. and Mrs. John Craner, Mrs. Veranda and daughter, Mr. and Mrs. Will Savine and daughter, Mrs. Tirza Kemmer and family, Louis Givin, Mr. and Mrs. Homer Savine and daughter, Mr. and Mrs. Fred Prosser and son, Mr. and Mrs. David Savine and daughter, Arthur Savine, Ed Broese, Mr. and Mrs. Ray Doctor and daughter, Misses Phoebe and Martha Tomkinson, Misses Ruth, Helen and Velma Hohl, Misses Etta and Flora Baker, and Misses Elsie and Mary Kemmer.

Hoffman-Fonner.

Miss Vashel M. Fonner, daughter of Mrs. Lillian M. Fonner, and Mr. Alois M. Hoffman were married at 8 o'clock Tuesday morning at the Catholic rectory, J. A. McCarthy officiated at the marriage ceremony and mass. The bride was attended by Miss Frances McGuire and the groom by his brother, Mr. Eugene Hoffman. The ushers were Messrs. Clem Eckrich and Clarence Alter. The bride looked very lovely in a plain old-fashioned looking suit of blue tulle, with short full skirt and a cape-like effect about the jacket, with which she wore a flower bonnet of "crushed" pink roses. The bride carried a white prayerbook with marker of satin ribbon and lilacs of the valley. The bridesmaid wore a brown silk suit with hat to correspond and held a bouquet of pink roses. After the service the wedding party were served a breakfast at the home of the bride, 1031 Fairfield avenue. The dining room was tastefully decorated in spring flowers with pink and white the prevailing colors. Later in the day the bride and groom left via the Pennsylvania lines for a two weeks' absence. Mr. Hoffman is a clerk in the U. S. R. & I. offices and is a highly respected young man. The bride is an attractive and sweet young woman with many friends. After their return Mr. and Mrs. Hoffman will make their home with Mrs. Fonner.

SATURDAY CLUB CLOSES YEAR.

Mrs. H. B. Sale Hostess and Miss Hanna Talks on Birds.

The Saturday club held its closing meeting for the season on Monday afternoon with Mrs. H. Brook Sale, president of the club, at her home west of the city, Hickoryhurst. Miss Margaret Hanna had been invited to give a talk on birds, of which she has made a study for several years and the members of the club in attendance spent a delightful hour hearing of the songsters right about them, but with which few were familiar. The club decided to change its meeting days from the first and third Mondays in the month to the second and fourth Mondays and will begin its next seasons work on October 9. Mrs. Charles R. Lane read the program of study laid out for the next year's work. It will be a continuation of the study of Indiana. Mrs. Sale served refreshments and was assisted at the time by Mrs. E. G. Hoffman and Mrs. J. J. Kline. Mrs. G. W. McCaskey extended an invitation to the Saturday club to attend a lecture by the state biologist at the First Presbyterian church, for which Mrs. D. W. Moffat will be the hostess and other members of the Woman's Reading club will be assisting hostesses. Mrs. McCaskey said the invitation is extended to all club women of the city. The date will be announced. The members of the Saturday club are Mesdames D. A. Curry, W. H. Crighton, G. F. Bliss, J. H. Breidenstein, A. J. Deizer, C. R. Dryer, G. P. Evans, J. P. Evans, M. B. Fisher, H. R. Freeman, J. C. Hoffman, Thomas Jackson, John Jacobs, C. R. Lane.

Favorite Recipes of Movie Players

Irene Hunt

(By Irene Hunt.)

To me there isn't anything more delightfully different than donning a big apron and fussing around in the kitchen.

My cooking fancy leads me to creating light dishes and adornments, rather than the heavier foods. I have been very successful at making bungalow cream salad dressing.

This is the recipe I use in following proportions:

Two eggs, 2 tablespoonfuls of sugar, 1 teaspoonful of salt, cayenne pepper, 1 tablespoonful of butter, 1 cup of vinegar, 1 cup of water and one teaspoon of cornstarch. After beating the eggs, add the sugar and mustard, salt, pepper and cornstarch. Beat all smooth. Add vinegar, water and butter. Put this on a slow fire and stir steadily. Let it come to a boil for about two minutes and then remove from the fire.

AT KEITH PALACE

THE LETTER FROM HOME.

Playlet at New Palace Reduces Dementia Americana.

Dementia Americana, the defense made famous in the recent criminal history of this country, is ridiculed cleverly in the sketch, "A Letter From Home," which Thomas P. Jackson and company are presenting on the current bill at the Palace. "Don't get sore on yourself and your wife and the fellow she ran away with. Be sorry for the fool that took her," is the trend of advice given the brooding young fellow whose wife had found life with him too much on the dullard order and eloped with another fellow.

The real sensation of the bill is the Princess Kalama, the restless hula hula dancer, who, with the assistance of William Rao, is presenting fifteen minutes of Hawaiian entertainment, including vocal and instrumental selections as well as the famous native dance. Neil McKinley, the prominent unit, sings a bit, tells some funny stories and presides at a ludicrous mock wedding in the course of a real single act. John Gogger, the fiddling wop with the talking violin, provides a group of surprises with his bow and strings. Tearing paper and playing organs sounds rather juvenile, but there's nothing childish about the way the Morton Brothers do these things in the opening act on the bill. One of them fashions a fancy table cover and tears the words "Palace, Fort Wayne," in the paper while telling stories and seemingly doing everything except paying attention to the job in his hands.

AT THE TEMPLE.

POPULAR MELODRAMA

Continues to Please Patrons of Temple Theater.

"The Banker, the Thief and the Girl" continues to please the patrons of the Temple theater and the large crowds which have witnessed the show have voted it a decided success. The Timothy H. Hart play is a melodrama of city life and the underworld and a lesson for all is acted out on the stage.

There is not a dull moment and thrills abound from the opening curtain to the close. There is a villain whose plans are eventually foiled by the hero and hisses for the villain and applause for the hero are frequent. It is a melodrama of the old but popular type and best but not least it is a consistent

story well told. The story deals with the different phases of life on the great East Side of New York.

A large crowd of mothers took advantage of the liberal offer of the Temple management and witnessed last night's performance free of charge as guests of the players as a special observance of mother's day. "The Banker, the Thief and the Girl" will be the offering at the Temple throughout the first half of this week, the bill changing on Thursday.

Hubby Will Leave for War After He Marries This Girl

MISS MARGUERITE B. LAWRENCE

Alameda, Cal., May 16.—Miss Marguerite Burns Lawrence is soon to be a "war bride." She will leave here shortly for Montreal, Canada, to become the wife of Walter S. Sutherland, who is tending to enlist for war service following his marriage.

Miss Lawrence, who is an accomplished musician, is the daughter of Amos J. Lawrence of Montreal. She has, however, been living with her sister, Mrs. A. J. Messenger, of Alameda, for several years. Sutherland, a civil engineer, is a recent graduate of McGill university.

FIRST DELEGATE TO REACH CHICAGO FOR CONVENTION IS A WOMAN.

Mrs. L. F. Lusk

"Men are emotional sex," declares Mrs. Lusk of Montana; "You can't drive women to frenzy by a keynote speech!"

By Honor Fanning.

Chicago, Ill., May 15.—"When women share with men responsibility for national politics, national conventions will not be the tumultuous, nerve straining gatherings they are today, for women will bring into politics deliberation, sincerity and serenity."

So says Mrs. Louise F. Lusk of Missoula, Mont., first of the republican national convention delegates to arrive in Chicago, and one of the eight delegates to represent Montana in the convention that opens June 7.

against serenity. Mrs. Lusk proceeded to tumble one tradition down upon another.

"Men are the emotional sex, not women," said the woman-delegate, with a winsome smile that had the imp of fun in it. "Men are more nervous and high-strung than women. The strain of modern life presses harder upon men than upon women."

"Women are taking politics seriously. They will be serious in conventions and conferences; they will act. I am sure, with deliberation, with dignity and with a high purpose."

"They will not be driven to frenzy by the fine phrases of a keynote speech; they will give judicial consideration to the business of the convention."

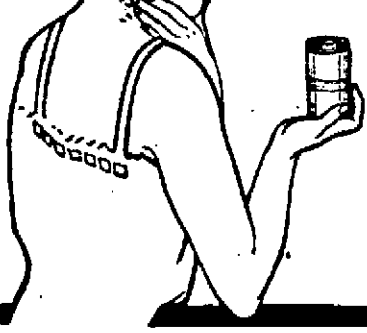

The national conventions will be the voting woman's opportunity, her first big opportunity to show that she has passed beyond the kindergarten of politics, that she is ready to deal with the affairs of the nation."

"There will be less than half a dozen women among 1,000 men in the republican convention, but we will make our presence felt. We are prepared to act on committees, to remain locked in the Coliseum for as many sessions as they want to keep us there; we will work like delegates, and expect no privileges or immunities because we are women."

Mrs. Lusk is a director in the First National bank of Missoula, and works at her roll-top desk every day, the same as other directors. Her husband, Frank Lusk, will be a convention guest.

SEATTLE OUTCLASSES RENO AS CITY OF EASY DIVORCES.

King County Court House in Seattle, which has taken the record from Reno.

By Jack Jungmeyer.
Seattle, Wash., May 16.—Seattle has ousted Reno from the distinction of being the divorce center of the United States.
The tower of the King county court house here is the symbol of easy and prolific severance of marriage ties.
It has been dubbed "the divorce mill." Sixty-two default divorce cases tried here in one day recently called attention anew to the fact that Washington state leads the Union in the number of shattered marriages. The proportion is in excess of 500 per 100,000 of population.
The average grist of the mill is from 22 to 25 divorces a week in Seattle alone. On many days the misedited are separated at the rate of one every hour.
The documents in these cases afford an interesting commentary on why people no longer stay wed.
Cruelty—given a rather wide latitude here—leads the list. Of 33 decrees recently granted, 14 hinged on this ugly passion.
Non-support, cases where love seems to have simply fizzled out slowly, comes next with eight out of the 33.
Drink alone was chief factor in only two divorces, but had a bearing on five others. Desertion claimed a toll of seven. Immorality featured five; jealousy two, and extravagance two.
Women were the plaintiffs in 25 of the 33 cases tabulated.
Ten years' marriage about the average time for marital discord to reach the breaking point.
Half the homes considered in the above list were childless, and in the other half 20 children were affected. The wife sought custody in only seven instances.
That alimony is a comparatively unimportant consideration in breaking the bonds is shown in the fact that it was demanded in only six suits, averaging \$32.50 per month.
Superior court judges here agree that the law, permitting a wide latitude in divorce, is making serious inroads on the binding quality of marriages.
Lack of legal machinery to check up on default cases, where suits are not contested, is also a big factor in making divorce easy.
As a result, one family in every 200 in the state of Washington is scheduled to be disrupted by divorce, with the proportion much greater in Seattle.

FEAR OF ATTACK IN EGYPT IS PASSING

Turk is Not Expected to Launch Extensive Raids in Future.

Cairo, Egypt, April 15. (Correspondence of the Associated Press)—Serious Turkish attacks on the Suez canal and Egypt, with the coming of the hot weather and the drying up of many of the desert water-holes, are now said to be only a remote possibility, though sharp raids may, it is thought, be attempted by the Ottoman commanders.

Turkish troops are still on the Sinai peninsula, an arid tract of Egyptian territory lying between the Suez canal and the nominal boundary of Turkey in Asia, stretching across from Rafa on the Mediterranean to Akaba on the gulf of the same name forming an arm of the Red Sea. They are, however, the object of repeated observation on the part of the allied armies, and reconnoitering parties have kept in touch with them and made themselves fully acquainted with their dispositions. Only recently the occupation by allied troops of Jifjafa, about sixty miles to the east of the Suez canal, placed an obstacle in what would have to be the main line of a Turkish advance towards the canal. This runs from El Aoudja to Ismailia.

Two other practicable routes lead from the Turkish positions across the desert sands towards Egypt proper. The first runs parallel with the Mediterranean coast line from Rafa through El Arish and Katia to El Kantara, but some time ago the Katia district with its water supply came into the allies' possession and rendered difficult any attempt by the Turks to force their way along to the canal banks and Port Said.

The second remaining line of possible approach is further to the south from Akaba by way of the oasis of El Hasana towards Suez. It was this oasis occupied by Turks and Arab horsemen which was bombed by allied airmen in March.

Nothing is permitted to be recorded of the preparations made by the allies to meet any effort at a Turkish offensive movement.

The Prince of Wales, now a staff captain, a few weeks ago made a tour of the entire front and saw the allied troops at their work of strengthening their line, which runs through districts where the Islamites on their flight from Egypt are said to have drunk from wells still in daily use.

OSSIAN NEWS.

Ossian, Ind., May 16.—Mrs. Josephine Peel, of Los Angeles, Cal., came to Ossian Friday afternoon and was a weekend guest with her mother, Mrs. Winifred Thurber, and with her brother and sister-in-law, Mr. and Mrs. Frank M. Thurber.

Thomas M. Doan, who has been at Huntsburg, O., thirty-four miles east of Cleveland, for the past few months, returned to Ossian Saturday and is visiting with his daughter and son-in-law, Mr. and Mrs. E. H. Roe.

Mr. and Mrs. H. C. Trevey went to Fort Wayne Sunday to see the former's brother, William Trevey, who has been very ill with pneumonia.

Mr. and Mrs. Floyd Hayes and family spent Sunday at Kingsland, visiting with Mr. Hayes' mother, Mrs. George Green.

Mr. and Mrs. William Colton and children, Catherine and Franklin, went to Prospect Sunday where they spent the day visiting with Mr. and Mrs. Steve Colton.

Mr. and Mrs. Charles Karns, of Danville, Ill., Mrs. C. E. Sturges, Mrs. Clara Deam, Mrs. Anna Sixby and Miss Martha Boyd, of Bluffton, were Sunday afternoon guests of Mrs. Fred Mink.

Mr. and Mrs. Harry Bolton, of Fort Wayne, came to Ossian Saturday and visited till Sunday with Mrs. Bolton's parents, Mr. and Mrs. Conrad Norwalt, Jr. They then went to Bluffton where they took Sunday dinner with Mr. Bolton's parents.

Renn A. Johnston went to Montpelier Sunday to attend the funeral of his cousin, Mrs. Will C. Johnston. Mrs. Johnston was quite well known in Ossian, having frequently visited here with her uncles, David Craig and James Johnston. She died Friday at 2:15 a. m., following an operation for carcinoma of the kidney. She is survived by one daughter, Mary Janet Johnston.

Mrs. L. F. Chaffant and Miss Marie Chaffant left Monday for Garrett, where

they visited until today in the home of the former's son and daughter-in-law, Mr. and Mrs. Fred Chaffant. They then went from Garrett to Mishawaka to visit with Mrs. Chaffant's daughter, Mrs. Ella Wolff. Mrs. Chaffant will return to Ossian Saturday, but Miss Chaffant will remain several weeks.

Mr. and Mrs. Don Davis and baby spent Sunday at the home of Mr. and Mrs. Harry Glass.

Miss Mary Etta Weissell, of Bluffton, was a weekend guest with Miss Mary F. Harter. They both spent Sunday afternoon as guests of Mr. and Mrs. G. A. Morton.

Mr. and Mrs. John Gilbert and family, of Bluffton, spent Sunday as guests of Mr. and Mrs. Ernest Vananda. Mrs. Gilbert and Mrs. Vananda are sisters.

Mrs. Frank M. Thurber, Mrs. Winifred Thurber and their guest, Mrs. Josephine Peel, of Los Angeles, Cal., motored to Maysville, Monday, to visit with Mr. and Mrs. Alfred Richards, the latter a daughter of Mrs. Winifred Thurber and a sister of Mrs. Peel. Mrs. Peel and her mother will remain for an extended visit.

Mrs. Frank E. Foughty was in Montpelier Sunday attending the funeral of Mrs. Zada Johnston, widow of W. C. Johnston.

Mrs. Jasper McCormick, of Toledo, O., came from Marion Saturday and spent the weekend with her friend, Mrs. Carl Wilson. She left Monday evening for Wilshire. Mr. and Mrs. Fred Vananda and family spent Sunday with Mrs. McCormick in the Wilson home.

Mr. and Mrs. John Kleinknight and children visited Sunday in Kingsland with the former's parents, Mr. and Mrs. Kleinknight.

The members of the Friendship circle of the M. E. church were guests last night of Mrs. Dora Hoover.

Russell Wake, of Roanoke, was a Sunday guest of Miss Lulu Prough.

Mrs. Albert Numbers, of Fort Wayne, was in Ossian Saturday calling on friends and looking after their property. They expect to move back to Ossian about June 16.

Miss Grace Dorr was a visitor in Fort Wayne Saturday.

Miss Lucile Davis is on the sick list again.

Mr. and Mrs. Lester Henline had as Sunday guests Mr. and Mrs. Chase Clark and family and Mr. and Mrs. E. M. Kelsey, of Zanesville, and Mrs. Rose Brooks, of Fort Wayne.

Mr. and Mrs. Wesley Swank are entertaining a little daughter, who arrived Monday morning. This makes the thirteenth child in the family.

Mother's Day was appropriately observed at the several Ossian churches on Sunday. The exercises were held in the Presbyterian and M. E. churches in the morning and at the U. B. church in the evening. Rev. Garfield Dowe, of Ossian M. E. circuit, delivered a Mother's Day sermon at the Emmaus church. The floral decorations at all the churches were very pretty and each mother was presented with a beautiful rose. Special music was also rendered.

At the Presbyterian church a girls' choir sang a number of selections and at the M. E. meeting Miss Mary Way sang a solo and a mixed quartet also sang. The various pastors delivered especially helpful sermons on Motherhood.

Miss May Weaver was hostess for the Philathea Girls on Friday evening. The devotional exercises were led by Mrs. A. F. Roe, the teacher, and Mrs. Frank K. Baker conducted the book study. A social hour followed during which contests and conundrums were enjoyed. The hostess served very delicious refreshments of fruit salad, cake and coffee. Those present were Misses Katherine Baker, Blanch Wilson, Ida Kreigh, Mary Roe and Marjory Nill and Mesdames Otto Wilson, A. F. Roe and Frank K. Baker. The next meeting will be with Mrs. F. K. Baker.

L. D. King and Dr. Van Horn, of Findlay, O., were in Ossian Sunday to see the former's sister, Mrs. Mary E. Ullom, who is ill at the home of her daughter, Mrs. A. H. Stoker. Mrs. Ullom's condition continues about the same.

Miss Daisy Spaulding has returned to her home in Montpelier after a several days' visit with Dr. and Mrs. D. C. Wybourn.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.

FASCINATING FLORENZO HIRES LAWYER TO WARD OFF ADMIRERS.

Left to right: Signor Florencio Constantino and his protector, Attorney Charles A. Kleinman.

Seattle, Wash., May 16.—He believes in safety first. That's why Signor Constantino carries an attorney with him.

Temperamental grand opera artist in whose repertoire stage love-making plays the most important part, Florencio Constantino, a Buenos Aires (Castilian), is taking no chances with the mashing female of the species.

To keep these fair here worshippers at a respectful distance is the job of Charles A. Kleinman, his attorney, who accompanies him.

"Constantino is very temperamental, you understand," said Kleinman here. "It is my job to keep his head surrounded with barbed wire entanglements, preventing any assault from his admirers, as well as to keep the Signor from becoming too earnest in his artistry."

"He has to be handled just like a boy, because he has the enthusiasms and impulsiveness of a boy. But for some protection, Constantino would be constantly subjected to the blandishments of women who are not content to admire him merely as a great singer."

Since his debut in America the Spanish artist has been known as the "man of many law suits."

He lives in Los Angeles, and has a wife and family.

Inheritance Tax Record Is Set in Estate of Nicholas McCarthy.

Indianapolis, May 16.—The largest amount of inheritance tax ever assessed in Marion county was levied by John T. McCloskey, tax commissioner, against the estate of Nicholas McCarthy, a pioneer of Indianapolis, who died in January. The estate is appraised at \$643,187.38, and the tax on this amount is \$14,849.40. The estate includes \$283,718.24 in personal property and \$359,469.14 in real estate.

Backache Is Discouraging

But Not So Bad If You Know How to Reach the Cause.

Nothing more discouraging than a constant backache. Lame when you awaken, pain pierce you when you bend or lift. It's hard to work or to rest. Backache often indicates bad kidneys. Fort Wayne people recommend Doan's Kidney Pills. Read this case:

Mrs. W. E. Thiele, 1531 E. Lewis street, Fort Wayne, says: "I had been suffering from backaches and sharp twinges through my kidneys, especially when I leaned over or in any way used the muscles of my back. This, with other troubles, caused my health to run down. I used several boxes of Doan's Kidney Pills and I was greatly relieved at the rapid improvement they made. They gave me complete relief from my suffering."

True, but, at all dealers. Don't simply ask for a kidney remedy; get Doan's Kidney Pills, the same that Mr. Thiele had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and it will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. ENCOURAGE USE OF WOODEN SHOES

German School Authorities
Advocate Them for
the Pupils.

Berlin, April 20. (Correspondence of The Associated Press.) After more than a century and a half of relative unpopularity and disuse, except among the peasantry, wooden shoes are becoming the vogue with school children once more, and their use is being actively and practically encouraged by school authorities.

The reason, of course, is the scarcity and unprecedented expensiveness of leather shoes which gradually have caused people to forget old time dislike of and stigma attaching to wooden shoes. Hundreds of school children in the past few weeks have taken, either to leather shoes with wooden soles, or to the old all-wooden "pantins."

The first move in favor of a resumption of wooden shoes was taken by the school authorities in notifying teachers that they should countenance the use of such things in spite of all the noise made when the children clattered about the bare floors in them.

Then the authorities of the suburb of Lichtenfeld went a step farther and offered a premium of one mark to all children home in part or entirely supported who would wear wooden shoes with wooden soles for a period of four weeks. Those authorities who have charge of supporting the families of soldiers spent a considerable sum of money in the purchase of several hundred pairs of shoes, which were offered to the public at prices ranging from a little over a dollar to a dollar and a half a pair.

At first only the boys took to the new shoes, but gradually the girls too have adopted them, and hundreds of children of both sexes wear them to school daily and save their expensive leather shoes for Sundays and special occasions. Gradually they are winning a vogue in other parts of Berlin, and, of course, are widely worn in the country districts.

The history of the "pantins" or wooden slipper, generally without heels of any sort, goes back for centuries. Along in the early years of the eighteenth century an edict was issued in Prussia against their use, and not only were persons who disobeyed punished, but communities which permitted their use were fined heavily. For a long time, however, they continued to be so popular that the edict had to be renewed more than once.

People really stopped wearing them only when they became a sort of badge of poverty, and their use has never entirely disappeared in country districts where they are far better protection than leather against mud and wet, and where their durability, naturally commands itself to the peasants.

Paper shortage, like the leather shortage, is also having its effects in the Prussian schools in the decree by the minister of education that from now on slates shall to the fullest possible extent replace the old-time paper booklets in which the children have been accustomed to do their lessons.

In issuing his decree, Minister von Trott zu Solz called the attention of teachers to the fact that because of the shortage of paper children who still have to use the bound books must be made to use up every available space, and that the books no longer need to be enclosed in a heavy paper cover, all of which goes to waste.

FIND SOFT WATER IN WELL.

Drillers for Orleans New Waterworks
Encounter Second Phenomenon.

Orleans, Ind., May 16.—When the third well for the waterworks system, under construction here, was completed at a depth of 115 feet, an analysis at the state laboratory showed the water was soft and entirely different from that in either of the other wells, although the water from each is pure. The powerful stream of water found twenty-eight feet below the surface, the mystery of which remains unsolved, seems to bear an unlimited quantity of water, and the speed of the stream is unchecked. It is planned to use this underground stream as a reserve supply.

PRIZES AWARDED IN ESSAY COMPETITION

At the offices of the city board of health, Monday afternoon, Mrs. Josephine L. Nesbitt bestowed the prizes awarded in the composition contest engaged in by some two hundred pupils of the grade schools on the subject, "Why Clean Up and Beautify?" a large crowd of the pupils assembling for the event. The prizes were given to Edward Averill, George Massey, William O. Master, Mabel Fell, Lewis Wilson, Frank J. Travers and Thelma E. Elliott. The prizes were in cash donated by Mrs. Nesbitt, Col. D. N. Foster, president of the board, spoke briefly to the children, commending the interest they had taken in the campaign for making Fort Wayne a city of cleanliness and beauty and saying to them that they would in time become citizens who would be leaders in the work for good civic conditions. The women counselors in the backyards campaign are meeting Tuesday afternoon with Mrs. Fred McAlloch, 3836 East Berry street, to complete their arrangements for inspection of backyards entered in the competition. The inspection is to begin Wednesday.

CAMPAIGN CLOCK IS STARTED ON ITS RUN

(Continued from Page One.)

for several minutes and started the campaign for a Young Men's Christian Association building with an enthusiasm that assures success.

The gift of Mr. Mossman is the largest individual benefaction ever given in Fort Wayne. The letter announcing the gift was read by Arthur H. Perfect, president of the Y. M. C. A., following an illustrated lecture showing the work of the Y. M. C. A. all over the world by Eugene E. Stiner, state secretary of the Y. M. C. A. After the cheer went up a speech was delivered from Mr. Mossman and as he arose to speak the cheering was renewed, together with the waving of handkerchiefs. Mr. Mossman was visibly affected by the demonstration and the genuine enthusiasm with which his munificent contribution had been received.

"I have been thinking for some time what I could do for Fort Wayne," he said. "Some time ago my son, B. Paul Mossman, came to me and told me of the contemplated Y. M. C. A. campaign. He told me he wanted me to start the ball rolling. I did not decide until my visit to Muncie to inspect the Y. M. C. A. building at that place. While it means a sacrifice I thought it would be better to give while I was living than to leave it to my heirs. I feel it is now up to you people to come across and make me pay the subscription. I want to do it."

After Mr. Mossman had concluded the banqueters demanded to hear from B. Paul Mossman. He, too, was affected by the oration that had been given to his father. "It is the happiest moment of my life," he said. "I'm proud of my father. I know we will succeed in this campaign and in less than ten days we will have our \$300,000."

S. F. Bowser is Toastmaster.

"It certainly looks as if this crowd is master of the situation," declared S. F. Bowser upon taking charge as toastmaster of the evening. When Governor Ralston arose to speak he was given a most hearty welcome. "I did not come to make a speech, but for the purpose of indicating by my presence that I am personally and officially interested and in sympathy with the movement you propose tonight," he said. "But I cannot help but think how ineffective are my words and my presence as compared with the generous offer of this grand old man. It is more like he that make me doubly proud of being governor of Indiana." Governor Ralston's address in full appears elsewhere in this issue.

Frank C. Ball speaks.
Frank C. Ball, of Muncie, president of the Ball Brothers Glass Manufacturing company, was the third speaker of the evening. "I want to extend greetings from the Muncie Y. M. C. A. to the new Fort Wayne Y. M. C. A.," he said. "You'll win with such a company of men in this movement. I knew of your enthusiasm before I came, but I did not expect so much enthusiasm. I am glad to see so many interested in this work. I venture to say that the gentleman who has given this generous subscription has made many good investments, but never before has he made an investment that will bring him such returns as he made tonight. These are the kind of investments that pay; investments that are made for the public good."

"The Young Men's Christian Association is the best institution in the world for forming good character and manhood. I believe that Fort Wayne is destined to be one of the leading cities of the middle west. Build for the future."

Mr. Ball declared that the Young Men's Christian Association is fast becoming a world power and that the establishment of such an institution in Fort Wayne would be the most important event in the history of the city. The Y. M. C. A. embodies the three greatest institutions in the world, the home, the church and the school.

"So many young men are drifting with no fixed purpose in life and unless they are rescued they will drift upon the rocks," he continued. "The Young Men's Christian Association is that safe harbor in which many young men have drifted to safety. We are laying the foundation upon which the future generations will rest and the future generations depend largely upon what we do."

The speaker declared that in his opinion conservation of manhood and womanhood of the country was far more important than the conservation of the forests, streams and minerals. "I believe we should be prepared to defend the honor of our country, but give the young men clean hearts and pure souls and it will not take them long to defend our country."

MR. MOSSMAN'S LETTER GIVING \$50,000 TO THE FORT WAYNE Y. M. C. A.

Mr. Arthur H. Perfect, President Fort Wayne Y. M. C. A.—My Dear Mr. Perfect:—I want to have a part in helping the boys and young men of Fort Wayne and Allen county build a Y. M. C. A. I realize they cannot do it themselves; we older fellows will have to help, and help LIBERALLY, to put through this campaign for \$300,000.00 for an institution that will mean so much to this and future generations.

I was born and reared on the farm, so I am interested in the farmer boys, and I want them to have a part in this Y. M. C. A. As a young man I engaged in manufacturing and in mercantile business, so I am equally interested in the young business men of our city. I believe that a Y. M. C. A. should be a home and a center for all the activities of the boys and men of both city and country. I want the boys of this beautiful city of ours to have the best opportunities to get a start in life. The Y. M. C. A. throws around the boy the best environment and safeguards him from many bad habits and evil ways. It gives to every boy, rich or poor, a chance to educate himself, to develop his physical powers and to awaken the spiritual side of his nature. In short, the Y. M. C. A. helps to make ALL-ROUND men, the greatest asset a community can have. Therefore, I feel that this campaign is a city and county-wide movement, and that all gifts to this Y. M. C. A. are gifts to the city and county for an institution that is just as much needed as any other public benefaction.

With these thoughts in mind I take great pleasure in presenting to you for the Fort Wayne Y. M. C. A. campaign fund my subscription for fifty thousand dollars (\$50,000.00), to be paid according to the regular subscription plan as outlined by your committee, and on condition that the sum of \$300,000.00 is pledged to this fund in this campaign.

Yours respectfully,
W. E. MOSSMAN.

goodly company, the flower among men; to serve a model for the world, and be the fair beginning of a time."

"The success of this campaign does not depend upon the campaign director, but it does depend upon every man and woman," he said. He closed with an illustration of a foot ball game between Cornell and Princeton, in which Cornell scored a virtual victory in the face of impending defeat by holding Princeton for downs when there were only a few minutes to play and the ball was in Princeton's possession on Cornell's five yard line. Mr. Mogge told of the Cornell rooters urging their men to get together, which they did and thus saved the day. He pointed out that Fort Wayne people must get together.

"The new Fort Wayne official flag has the 'Y' in it. It represents a blue field of opportunity for the 'Y' with its stars of white, purer, nobler life for men. There are two stars—one is W. E. Mossman; the other shines brilliantly tonight. The other star to equal this must yet be discovered and named."

A vote of thanks was tendered to Mrs. Margaret S. Olds and the ladies for the magnificent dinner and the splendid manner in which it was served.

Pledge for \$100.
At a meeting Monday of the Saturday club at Hickoryhurst, the suburban home of Mrs. H. Brooke Sale, the members voted to pledge one hundred dollars to the new Y. M. C. A. to furnish a room therein, which will also be maintained by the club.

Some Reasons Why
The prospectus sets forth the following reasons why Fort Wayne should have a modern association building:

"Fort Wayne needs just such a place for the boys and young men to spend their leisure under wholesome influence. The association helps struggling young men to help themselves—a wise philanthropy, not a charity."

"The association is a clearing house in the interests of manhood. It is a practical every-day-in-the-year agency of tested merit for the betterment of boys and young men."

"There are a hundred and one attractions of a demoralizing nature open to young men. A well-equipped association is the great counter attraction. Its preventive value alone makes it tremendously worth while."

"Fort Wayne manufacturers, corporations and business houses will be able more and more each year to depend upon the association for young men of character to enter their employ."

"Membership privileges are open to all young men, regardless of class or creed, and there are probably twenty thousand men and boys of membership age available to the influence of the association in Fort Wayne."

"The association attracts, reaches and benefits hundreds of young men who work for moderate salaries and who need and deserve some respectable place under Christian influences in which to spend their social and recreative hours."

"The association, its friendships, fellowships, helpful counsel, environment and privileges meet an actual and vital need in the community not met by any other single organization."

"Provision has been made for the young women—why not the young men? The young men of today are the husbands and fathers of the near future. They are the social and political leaders, they are our men of affairs and business. The boys and young men should have the very best training possible for life's responsibilities."

THREATENED HIS LANDLORD.

Andrew Ireland, of Cedar Creek township, was fined \$10 and costs Monday afternoon in the court of Squire Henry J. Grabner for pointing a deadly weapon at his landlord, Joseph Mayhew. Unable to settle he was taken to the county jail.

Because of lack of evidence the case against Ella Bowers, charged with provocation, was dismissed by Squire C. W. Raybroun. The complaining witness was Mattie Waters. The two women are neighbors residing on Thompson avenue.

An affidavit charging insanity has been filed in the court of Squire Grabner against George P. Nickelson, 39 years old, a well known young farmer residing in Lafayette township. He has an estate valued at \$1,500.

SEEK TO FIX BLAME FOR AKRON DISASTER

Nine Killed, 28 Injured
When Restaurant Building Collapses.

Akron, O., May 16.—State and city officials today were planning a searching inquiry into the collapse of the Crystal restaurant here last night in which nine

persons were killed and twenty-eight injured, two probably fatally.

The restaurant was crowded when it was wrecked, and slid into an excavation on an adjoining lot where a new building is to be constructed. Survivors told of hearing the sound of blasting on the adjoining site just before the building fell.

Search Is Completed.
Searchers completed a hunt of the wreckage early today without finding any more bodies and all of the missing have been accounted for. None of the injured died during the night.

Mayor W. J. Laube, after a conference with the city safety director and building inspector, announced today that he would begin an investigation to fix the responsibility.

Word came from Columbus that state building inspector, announced today, day to avoid either in the mayor's investigation or coming one of their own.

Blasts of Dynamite.
Blasts of dynamite, set off in an excavation for a new building directly north of the restaurant, unsettled the foundation. The restaurant was a one-story structure with a two-story tale front, and the latter toppling backward added a great weight to the falling roof.

A dynamite charge, set off from away from the restaurant a few minutes before the disaster, is believed to have been the direct cause.

The crash came at 6:16 p. m. in the midst of dinner, when the restaurant was crowded and when thousands were on the streets during the evening rush.

So suddenly did the ceiling cave in and the walls crumble that those who were not instantly killed were knocked unconscious.

W. C. THEEK WILL GO TO NAPOLEON

Succeeds C. D. Porter as Wabash Freight Agent at That Point.

W. C. Theek has been appointed Wabash freight agent at Napoleon, Ohio, succeeding Charles P. Porter, who was promoted and transferred to Fort Wayne two weeks ago. For a number of years Mr. Theek was agent at West Union for the company. Napoleon is his native town and it is with considerable gratification that he is able to return there with a desirable and lucrative office. Fifteen years ago he was a telegraph operator at Napoleon. The announcement of an agent at West Union has not been made.

Timekeeper Frank J. Grier, of the Pennsylvania Western division, has returned from Wawar, where he owns a cottage, bringing the information that the greatest rise in the history of the lake, time considered, occurred last Sunday, when the water rose eight inches in twenty-four hours.

HELPED BUILD RAILROAD.

Old Paper Revives Memories of Pioneer Railroad Man.

In looking over some old papers at his home yesterday Frank Kinade, engineer at the Radisill school, found a commendation written for his father over fifty-two years ago. It bore date of June 1, 1864, and stated that "the bearer, John H. Kinade, has been in the service of the Pittsburgh, Fort Wayne and Chicago road twelve years in the capacity of foreman of repairs in the maintenance of way, embracing the several duties of conductor of gravel and freight and passenger trains. I consider him a prompt and efficient man, quite competent to the satisfactory discharge of such duties and I take pleasure in testifying that while in the service of this company his labors have been of advantage to the company and creditable to himself. Aug. Bradley, Supt. Eastern Division."

There are many old employees in Fort Wayne who remember John Kinade. He commenced work with the road when it was under construction and helped to grade the roadbed and lay the tracks down Lafayette street, to the old canal, which was the terminus of the road for awhile. He died about thirty years ago.

DETOURING WABASH TRAINS.

Washout on Chicago Division Tied Up the Line Several Hours.

The terrific rain last night caused a washout on the Chicago division of the Wabash and made it necessary to detour three trains. The trains detoured were westbound passenger train No. 3, eastbound passenger train No. 6, and westbound freight No. 55. They came down over the Wabash via Montpelier, Ohio, to Fort Wayne and thence west over the Pennsylvania to Clark Junction. No serious damage, other than the breaking of the line, resulted from the washout.

JOINT MEMORIAL SERVICE.

B. L. E. and Auxiliary Hold Services at Bethany Church.

Division, No. 337, B. L. E., and Division 333, G. I. A. to B. L. E., will hold memorial services at Bethany church, Rev. Shiley officiating, on Sunday, June 11. The B. L. E. will pay tribute to the memory of five of its deceased members and the auxiliary will honor the memory of two deceased members. The flower ceremony will be observed.

TO VOTE ON EXCURSION ROUTE.

F. Walburn, chairman of the transportation committee for the annual excursion of the Mutual Benefit association of the General Electric works, announces that the excursion will be to Cedar Point, none of the other points talked of offering good inducements. "The only matter of doubt," said Mr. Walburn, "is the road over which the trip will be made—the New York Central or the Nickel Plate—and this question will be put to a vote at the works in a week or two," he continued. The excursion will be on Saturday, August 12.

COMPLETING OFFICE TODAY.

The north end of the second floor of the new store house at the General Electric works has been transformed into a large office, which will be occupied jointly by R. O. Giff, head of the receiving department; J. F. Koels, head of the

shipping department; and Walter C. Giff, head of the claims department. The combined clerical force numbers about fifty. Mr. Giff is already installed in his new office and Mr. Koels and his clerks will be there the latter part of the week.

ONE ACCIDENT IN SIX WEEKS.

The officers and employees at the Wayne Knitting Mills are feeling quite confident over the fact of their safe record of operations at the big plant. During the past six weeks only one accident involving employees is taken in consideration. This splendid condition is the result of the efforts in the safety first movement practiced by all of the employees.

IN CHARGE AT HARRISON STREET.

William Rutledge and A. E. Pender are the gatekeepers at the new Harrison street crossing of the N. Y. C. the former working during the daytime and the latter at night. The watchman's shanty was set in position yesterday and the crossing gates arrived yesterday and will be installed in a few days. The foundations having already been built.

TO HOLD ELECTION MAY 23.

The Electro-Teknole club, of the General Electric works, will hold its annual meeting and election in the firemen's quarters in the basement of the office building on Tuesday night, May 23. It is proposed to nominate and elect officers the same night without any ceremony. Following the election the annual held day will come in for some discussion and the meeting will close with a banquet.

FIRE IN WABASH CAR SHOPS.

A fire which started in a pile of slabs, created some excitement and slight loss to property in the Wabash car shops at Toledo last evening. The blaze looked serious for awhile, because of the very inflammable character of the slabs, but the fire was extinguished by the company firemen before the city department reached the scene.

HANDLING A CIRCUS TRAIN.

The Pennsylvania is handling the Wheeler Brothers' circus this week. Tonight the show will be transferred from Muskegon to Bayruss, tomorrow it will be taken to Lima and Thursday it will be taken to Delphos, where it will be delivered to the Clover Leaf. There are twenty-two cars in the train.

PRESBYTERIANS GOING EAST.

A twelve-car train, loaded with Presbyterians from the west, passed through the city at 1:30 o'clock this afternoon. The party is en route to Atlantic City, where a convention is to be held.

YOUNG JOY RIDERS ARE GIVEN CHANCE

Lads Who Borrowed Auto-

mobiles Fined in the Circuit Court.

In the circuit court, Tuesday, charges of grand larceny were charged to unlawful possession of an automobile in the cases of Morris Monroe, 17, of 2707 Little street, and Robert Lippes, 16, of 116 Masterson avenue, who were bound over from the city court Monday for the theft of an automobile belonging to Henry C. Pasquinet, the real estate man. The lads were represented by Attorney Herbert L. Somers and entered pleas of guilty, receiving fines of \$25 and costs and thirty days in jail. The jail sentences were suspended during good behavior. To Detective Sergeant Walter Hume, who apprehended them, and Chief of Police Charles Lenz the lads had confessed to taking three automobiles within the last two weeks, using the cars for joy riding and then abandoning them. Judge John W. Egge, who gave them a good scolding and counselled them to better ways, if they would avoid the rigorous penalty of the law, Claims to Be Common-Law Wife.

Barbentors' local union No. 350 and Alexander Lombard, president, and William Jackson, secretary, of the organization, have begun suit in the circuit court against Carl Burman, Mrs. Carl Burman, Etta Rose and Etta Burman to have the court determine who should be the lawful beneficiary of \$100 in death benefit that is the due of someone by reason of the decease of Paul Burman, a member of the union who died this year. The deceased designated no beneficiary and both his parents, Mr. and Mrs. Carl Burman, and Etta Rose-Burman, who declares she is the common-law wife of Paul Burman, lay claim to the \$100 death benefit. The local union has the cash ready to pay to someone, when it can be determined who is lawfully entitled to receive it. The complaint states that the plaintiffs have been informed that Etta Rose or Etta Rose-Burman was not the wife of Paul Burman. Emrick & Emrick are attorneys for the plaintiff.

Notes of the Courts.

In the cases of Diederich J. and Louis J. Brandt vs. Diederich Brandt the circuit court has rendered judgment on the findings of Special Judge David E. Smith for the defendant and both plaintiffs have prayed and have been granted an appeal to the appellate court.

The suit of Emil Vandrick vs. the Holland St. Louis Sugar company, for damages, has been set for trial July 6 before a jury in the superior court. The case came here on a change of venue from Adams county.

The suit of Donald Akey vs. Noah Stuckey has been sent from the superior court to DeKalb county on a change of venue.

The superior court has given judgment for \$26.22 to the plaintiff in the suit of W. D. Sager vs. Arthur Bitner.

On her cross-complaint the superior court has given a divorce to Emma Baker from Arthur Baker and restored her maiden name, Bohay.

By the will of the late Carl Mesing his entire estate is left to his wife, Wilhelmine Mesing, and Carl F. and Louis Mesing are named executors.

The case of Harry M. Root vs. Morris Meyer for \$103 damages will be heard by a jury in the circuit court May 21.

Robert J. Dawson, found guilty Saturday night by a jury that tried him on an indictment charging criminal assault on 15-year-old Elsie Barker, of Monroeville, was presented in the circuit court Tuesday for sentence and received two to twenty-one years in the Jeffersonville reformatory. Dawson seemed little concerned when sentenced.

WILL HAVE 19 STATIONS.

C. C. East, superintendent of transportation for the Ohio Electric Interurban railroad, has notified William Tonkel, superintendent of highways in Allen county, that nineteen stations will be established from the overhead bridge in Monroeville to the city limits of Fort Wayne where the interurban will unload broken stone for repairs and construction on the Lincoln highway, which parallels the electric line most of the way from Fort Wayne to Monroeville. The stone is brought from Middleport, O., and these stations will establish a great convenience. Superintendent Tonkel will go over the line in a few days with an official of the company and designate the precise location of these stations.

SPRING TAX COLLECTION.

The total collection of taxes on the spring installment, payment of which ended May 1, amounts to \$1,000,528.63. The figures have just been tested by County Treasurer W. F. Rankin and his deputies. The city paid \$33,339.21 of this total and the county \$737,333.25. The total delinquencies in the city amount to \$12,917.42 and in the county to \$1,311.61. In solvent taxes to the amount of \$82,125 were paid. A year ago the total taxes paid were \$945,325, this year showing a gain of \$81,863.68. Treasurer Rankin says the tax collections this year are the heaviest they ever have been.

YUM! YUM! INDIANS KETCHUM WHALE! EAT GOOD FAT!

MAKOH INDIANS, Neah Bay, Washington, cutting up 80-foot whale on the beach after an 8-hour battle to land the monster. The whale was killed by harpoons, floated by means of inflated skins, and towed ashore by the hunters in dugout canoes.

The picture shows the leviathan being cut into strips, each hunter getting a cross section of the animal, corresponding to his position in the canoe. The meat is "jerked" and dried, the blubber or fat rendered and used as a cooking staple of the Makah household. Sometimes a number of whales are caught during a season, and sometimes not one. There is always great excitement and hearty feasting when the hunters have good luck.

NEW YORK CENTRAL OFFICIAL IS HERE

Supt. M. L. Reynolds Visits Proposed Improvements With Board.

M. L. Reynolds, superintendent of the Fort Wayne division of the Lake Shore railroad, came from Hillsdale, Mich., Tuesday afternoon to discuss with the board of works several improvements in which the New York Central is interested. With Mayor W. J. Hosey, the members of the board and the city engineer the north approach of the Harrison street bridge, the site of the proposed Ogawa street subway and the Lake Shore's shop grounds were inspected. Improvements at all of these places are contemplated.

WILL BE READY FOR PAGEANT.

Good Progress in the Paving of East Creighton Avenue.

The Grace Construction company finished pouring concrete for the foundation of the new pavement on Creighton avenue from Calhoun to Lafayette, Tuesday afternoon, and operations will be suspended there until late next week to give the concrete time to season, after which the asphalt shooting will be rolled on the street. The Grace company will have the pavement finished in ample time for the centennial pageant in Reservoir park, for which occasion the board of works has been extremely anxious for an early completion of the work.

In making a tour of inspection of public work Tuesday, Mayor W. J. Hosey and the board visited the big east end sewer and found the J. B. Sheets Construction company making good progress, but still handicapped by the difficulty of obtaining men. It is hard to get men to go into sewer trenches to work when there is much employment above ground.

BOARD OF WORKS PROCEDURE.

At its meeting Monday afternoon the board of works received from nine resident property owners a remonstrance against the resolution to pave with brick the alley between Clinton and Calhoun streets from Murray street to Wallace street and the alley between Murray and Wallace from Clinton to Calhoun. There was received a petition for the construction of a sewer in the alley between Maumee avenue and which street, from the alley west of Warren street to Roy street. Plans were ordered for the paving of Hanna street from Radisill boulevard to McKinzie avenue and the final assessment rolls for the paving of Wayne trace were ordered. The board approved the plat of Federal Tenth addition, situated at Dawson and Prince streets.

The ladies of St. Andrew's Catholic church will give a card party Wednesday afternoon at the hall on New Haven avenue.

THE DEATHS.

KELSEY.

Mrs. Eliza Jane Kelsey, widow of the late Isaac J. Kelsey, died at 12:45 o'clock Tuesday morning at the family home, 1293 Spy Run avenue, at the age of 68 years and three months. Death followed a stroke of paralysis which she suffered Monday evening. She sustained the first stroke nearly a year ago.

Mrs. Kelsey was born in Starkie county, Ohio, in 1848, but came to Fort Wayne in 1863 and had resided in this county ever since with the exception of a few years when the family resided in Ligonier. She was married to Mr. Kelsey in 1863. She was a member of the United Brethren church.

She is survived by a son, Homer J. Kelsey, of this city, one daughter, Mrs. John Weller, of Fort Wayne; one grandchild, three brothers, Henry Crawford, of Fort Wayne; George Crawford, of Columbus City, and John Crawford, of Los Angeles, and two sisters, Mrs. James Craig, of Churubusco, and Mrs. Allen Crawford, of Corvina, Cal.

Funeral services Friday morning at 9:30 o'clock at the late residence and at 10 o'clock at the Calvary U. B. church, Rev. J. W. Borkert officiating. Interment at Lindenwood.

GALBREATH.

Robert Hagan Galbreath, aged 66 years, died at 11:45 o'clock Monday night at the home of his niece, Mrs. Herman Mann-Doulton, 2023 South Calhoun street, following an illness which extended over a period of six years. However, he had only been bedfast a few days.

The deceased was born June 8, 1850, in Ohio, near New Comerstown, but at the age of three months came with his parents to Indiana. He had resided in Adams county, near Decatur, nearly his entire life.

He is survived by two brothers, George W. of St. Louis, and J. C. Galbreath, of Denver, Col.; one sister, Mrs. Harriet Martin, and five nephews and nieces.

Funeral services Thursday morning at the residence, after which the body will be shipped to Decatur, where funeral services will be held and interment made.

FUNERAL NOTICES.

"If George Jacobs Says So, It's So"

Greatest Piano and Piano Player Sale Ever Put on in Ft. Wayne

Open Thursday, May 18th and Lasts Until June 1st.

The Jacobs Music House Will Enlarge and Remodel

JACOBS SAYS:--

"I am going to give the People of Fort Wayne and Northern Indiana some mighty big Piano Bargains in the next few weeks."

WHY DOES HE SAY THIS?

Because Mr. Jacobs has taken over the room adjoining his present store, now occupied by the Stogdill jewelry business, and as a result both stores are to be remodeled into one of the biggest and finest music houses in the state of Indiana, if not the Middle West.

A Great Remodeling Sale Will Be Held in Order to Reduce Stock in the Shortest Possible Time

As the store is to be turned over to carpenters, painters, paperhangers and mechanics during the process of remodeling the risk of spoiling the fine finish of instruments now in stock at the Jacobs warehouses is too great.

We have decided to place about fifty instruments from our stock of Player Pianos and Pianos on sale

AT PRACTICALLY WHOLESALE PRICES

Such instruments from the Jacobs standard line as the A. B. Chase, Kranich & Bach, Krakauer, Washburn, Shoninger, Brinkerhoff and others, will go in the lot to be sacrificed. Aside from strictly new instruments will be a number of slightly used Pianos and Players that will sell for less than half of their original cost. Here are a few of the bargains in used Pianos and Players:

One Haines Bros., former price \$350 Sale Price \$ 80
One Hinze Oak Case, in first-class condition Sale Price \$125

One \$450 Walnut Weber, elegant tone Sale Price \$160
One \$275 Huntington, can't be distinguished from new Sale Price \$145
One \$400 Wegman, practically new (used six months) Sale Price \$215
One \$375 Packard, mahogany case Sale Price \$168
One Packard walnut, looks like new Sale Price \$200
One \$600 Kimball Player Piano, oak case, looks new Sale Price \$298
One \$800 Apollo, strictly up to date, slightly used Sale Price \$350

While we are remodeling we are closing out several lines of Pianos and Players at a reduction of from \$50 to \$100. These are brand new instruments--in fact the opportunity of a lifetime that will probably never be presented again.

Two Reasons for Remodeling and Putting on This Sale.

The reputation of the Jacobs Music House for stating the plain truth in its advertisements is well established, as it has been the policy of this establishment in past years to TELL THE TRUTH. This, then, is one reason why we are remodeling. OUR INCREASED BUSINESS DEMANDS IT. We have another reason:

WE HAVE TAKEN THE AGENCY FOR THE COLUMBIA GRAPHOPHONE AND WILL
FIT UP ONE OF THE FINEST STUDIOS FOR TALKING MACHINES TO BE FOUND
IN THIS PART OF THE STATE AND WILL CARRY A COMPLETE LINE OF GRAPHOPHONE RECORDS.

We Have Explained the Reason---Now Profit by the Opportunity.

ALL HONOR TO THE MEN OF FORT WAYNE BACK OF THE Y. M. C. A. MOVEMENT, SAYS GOVERNOR RALSTON.

Governor Samuel M. Ralston was one of the principal speakers at the business men's dinner Monday evening, given in the new Shive building, for the purpose of arousing interest in the Y. M. C. A. campaign, which started Tuesday. Governor Ralston spoke as follows:

Mr. Toastmaster and Gentlemen: I was invited to speak to you not to exceed ten minutes and I shall respect the limitation placed upon me.

I have not journeyed to your city to make you a speech, but for the purpose, and I might say the sole purpose, of indicating by my presence on this occasion that I am both personally and officially in sympathy with the movement you are proposing to launch here tonight.

Personally, I am for this movement, because in common with other fathers of Indiana, I have sons who are in need of the helpful influence of a Young Men's Christian association, and officially, I am for it, because it is a most potent social force in the life of our state. The more organizations of this character we can have in Indiana, the more secure will be both the young manhood and the public welfare of the state. Both, therefore, as father and as governor, I am back of your movement.

Man is a social being. He is a social being while he is yet a boy. It is this social attribute in him that makes his environment at times most helpful to him, and again at times most hazardous to him, and hence society's wise concern for his surroundings.

When I was a young man I was asked to affirm in a debate that "Man is the architect of his own fortune, and not the creature of circumstances." To my mind, at that time, the affirmative of the question was manifestly right, and any suggestion to the contrary was the quintessence of foolishness. I pressed my views--I won't say argument--so earnestly that the judges found with me, but I have since concluded this was because they knew nothing more about the question than I did. The question was and is indeed a two-sided one. There are vital truths on either side thereof and this is why we are today giving so much attention to environment in our educational, church and social work.

We like to think that man was born to rule, and that he is the master force in civilization. Every day, and every hour of every day, we are reminded that he gets on towards better things just in the degree he succeeds in turning his environment to his advantage.

It is apparent, therefore, that the matured portion of society--those who out of experience have reached the point that enables them to discern the moral element in a situation and to feel a sort of coercion to act or not to act in a given premise--should vigilantly seek, through proper environment, to strengthen the young manhood of their community.

The Young Men's Christian association movement emphasizes the important part environment plays in the life of young people, and its paramount ob-

HON. S. M. RALSTON.

ject is to surround them with proper influences. As an organization, it strives to qualify them, or perhaps I should better say, to have them to qualify themselves with moral courage and constantly the high aim of physical, mental and moral growth, that they may eventually fill efficiently the place assigned them in life.

The game of life must be played honorably. Fouls have no place among gentlemen and young men cannot learn too soon the importance of their being on the square with their fellows. The organization you are contemplating would have men to be on the square with one another, whether it be on the athletic field, in the forum or behind the counter. The man who does not measure up to this standard is deficient in moral fibre, and the chances are he could not resist betraying his trust, if he were a bank cashier. Such a young man should have the advantages for character building afforded by a Young Men's Christian association, and he should follow its ideals as faithfully as a scientist pursues the course of a star. There is no rule by which to estimate the value of such an institution to a city.

Your movement, therefore, gentlemen, will be fraught with mighty consequences. It will touch and help thousands in your community not reached by any other organization. A part of its work will be to rescue the boy on the street, who is not reached even by your churches. It will seek to educate for some useful avocation the eye and the hand of hundreds of the street urchins not reached even by your schools. It will lay hold in a gentle manner of the boys in the lower stratum of life and seek to establish them on a higher plane in society with a companionship that will encourage them towards the better things of life. It will provide innocent and high class enter-

tainment and open fields of splendid opportunity to those whose home training and advantages have been quite sufficient, but who, under changed conditions, are forced to adjust themselves to new environment.

There is no reason for Fort Wayne, not having an up-to-date Young Men's Christian association. No one will presume to say that it is not needed here. Your big financiers are for it, and they are going to help to get it. Your big railroad men are for it, and they are going to help to get it. Your big merchants are for it, and they are going to help to get it, and your working people are for it, and they are going to help to get it. I have not a doubt but that in truth all your good people want it, and that they will help to get it. Every city needs such an institution, and Christian people everywhere pray for it.

You are a thrifty people here. Your vision of life is broad and you have the power and ability to have whatever you want to aid in the creation of a better citizenship. All honor to the men of Fort Wayne back of this movement. Some years ago Queen Victoria knighted George Williams because he founded and promoted the Young Men's Christian association, and likewise the people of this goodly city will bless the memory of the men who shall bring to Fort Wayne a greater Y. M. C. A., well housed, well equipped and well conducted.

LIFE BUT HARD KNOCKS.

Indiana Jun Dealer Has Busy Day With Quarrel and Accident.

Columbus, Ind., May 16.--Jerome Wissell, a junk and fur dealer, has made up his mind that life is a succession of hard knocks. He had an argument with Winfield Baker about the price for old rubber, and Baker, he says, threatened to strike him with a hammer. Wissell telephoned for the police, who responded in an automobile, and on the trip struck a small machine driven by Dr. E. A. Rickmeyer. After some delay, the police arrived and Baker was arrested. Wissell then set out on his bicycle to attend to some business and was struck by an automobile driven by J. R. Dunlap. He suffered injuries so severe that he will be unable to appear in the city court against Baker for several days.

WILL SHOW LIFE OF LINCOLN IN INDIANA

Notable Feature of Historical Film for Hoosier Centennial.

Indianapolis, May 16.--The story of the life of Abraham Lincoln in Indiana is to play an important part in the historical motion picture being made by the Interstate Historical Pictures corporation. The picture is to be shown in every county in the state as a feature of Indiana's centennial celebration.

Some of the incidents to be shown in Lincoln's early life have been a matter of little known. There is no doubt but that the motion picture will serve to revive the interest of Lincoln's life in this state. One scene which will seem familiar to everyone will be that of the boy Lincoln studying his book by the light of the log fire. Practically every history of Lincoln uses this view, which is said to be historically accurate. The beautiful and pathetic story of

Lincoln's devotion to his mother and his grief over her death, which culminated in his securing a traveling minister to speak a simple funeral service, long after she had been laid to rest, can be told in a graphic way through the motion picture. Many scenes of Lincoln's boyhood activities will be reproduced to show that even in his early life, "Abe" had begun to make "service" to others, the guiding rule of his life. He will be shown as the "Flatboatman" and as the "Raileplitter," and as he was when president of the United States. His departure from Indiana for Illinois and his return for a visit to his old home for a glance at his mother's grave and his visit to Indianapolis, on which occasion he made a speech on the site where the Claypool hotel now stands, will be shown in the centennial film.

Huntington Sets High Standard. The Huntington county celebration, the first to be held in the state, set a high standard of excellence. Both in preparation and execution the observance was ideal. Months ago Chairman J. M. Scudder began work in the schools in the introduction of Indiana history, thus preparing the way for a real civic celebration. While one day of the week of observance was given over to out-of-door celebration in the way of school spectacles and tableaux, the main feature was the wonderful exhibit held in the court house. It was historic, in its excellent collection of relics, its reproduction of historic spots in the county, such as the old Indiana trading post, the Walahah and Erie canal, an old stage coach, pioneer cabins and the old log schoolhouse, and in the biographical, his-

torical and descriptive manuscripts on Indiana and Huntington county. It was also educational in contrasting the life and accomplishment of the pioneer days with the progress and achievements of 1916 as shown in the exhibits of the schools. And in every sense it was thoroughly patriotic and made for civic betterment. The Huntington centennial observance was in thorough keeping with the purpose and ideals of the Indiana historical commission and is well worthy of emulation by the ninety-one other counties of the state.

STEAMSHIP SERVICE TO NOME TO RESUME

Most Northerly City in the
World Isolated Since
Last October.

Seattle, Wash., May 16.--Steamship service to Nome, the most northerly city in the world, which has been isolated since last October, will be resumed on June 1 with the sailing of the steamship Umatilla from Seattle, followed by the steamship Victoria on June 2. Soon after the last south-bound steamer left Nome on October 23 last, Bering Sea was entirely frozen over, and it was necessary, because of the winter cold, to suspend mining operations at Nome. The 2,000 or more people who were left behind when the last steamer sailed prepared to face the long winter. During the winter there was a letter mail service by dogteam from Fairbanks, but newspapers, magazines and parcels were not carried. The United States signal corps maintained connection with the outside world by means of cable and wireless.

The arrival of the first steamers from the south, in the last week in June, is the occasion of even greater excitement in Nome than the finish of the annual dogteam race. The people are advised by cable of the departure of the boats from Seattle, and eager watch is kept for their smoke. Sometimes the steamers have a hard battle with the ice and are held for many days only a few miles from Nome, with ice conditions so unsafe that no one ventures to walk to shore. Again, the season may be favorable and the boats will come in sight of Nome without difficulty, and see firm ice between them and the shore. In such a case the passengers, or most of them, will walk to Nome over the ice, and will have a more prosaic landing than if they waited to be hoisted in the basket of the aerial tramway. There is no wharf at Nome and can be none, for there is no harbor. Passengers are taken ashore in the tramway and freight by lighter and tramway.

Both of the boats now preparing to sail for Nome have every berth reserved, and all the cargo room is spoken for. Much of the cargo will be reading matter, vegetables and fruit, of which the people of Nome stand in great need after eight months of imprisonment. Most of the north-bound passengers are men interested in mining in Nome, and their families. They go out in autumn and return the next summer.

Freddie Welsh is Getting in Bad

CHAMP BARRED FROM WISCONSIN AND NEW YORK RINGS FOR FOUR MONTHS.

Milwaukee, Wis., May 15.—Freddie Welsh, lightweight title holder, has been barred from fighting in Wisconsin for four months as the result of a number of violations of the rules of the boxing commission, and automatically will be barred from New York. Serious charges proved against him before the commission placed to be true in part, and the champion had so consistently evaded rulings that the commission of this state as well as the New York body, hung the can on him till September.

It was charged that during his bout with Ever Hammer Welsh lacked up considerable booze between rounds. However, this charge was not pushed, and the conviction came upon other counts. Neither Freddie Welsh nor his manager appeared at the hearing, but Tom Andrews presented a letter from Pollock telling his side of the argument.

INDIANA FOOTBALL SQUAD WORKS GREAT

Bloomington, Ind., May 15.—Coach Eickm, after a month's work, now has the spring football squad at Indiana university running so smoothly that it has the appearance of a full squad working in mid-season form. Out of forty-four men who signed up in the course, twenty-five are out every day and all appear at least once or twice during the week.

Most of the work thus far has been in the rudiments of the game, such as handling the ball, punting, tackling and interference. There has been some scrimmage, but this was called for chiefly in an effort to improve the work at tackling and at interference. A few new formations have been tried but they were said to have been in minor importance.

The big coach, who is spending his first year at Indiana, having come here last March as director of athletics from the University of Arkansas, where he held a similar position for five years, recognizes that the crimson players are weak in many of the elementary essentials of football but expects to have them in good shape for the opening of the fall term by the end of the present semester.

Many candidates are making excellent showings and there are some who will have to be reckoned with in making out the first string players next fall. There seems to be a wealth of material for the back field positions and, according to present indications, Indiana will have one of the fastest backfields in the conference next season.

RIVAL OF HURLING KING EQUALS WORLD RECORD

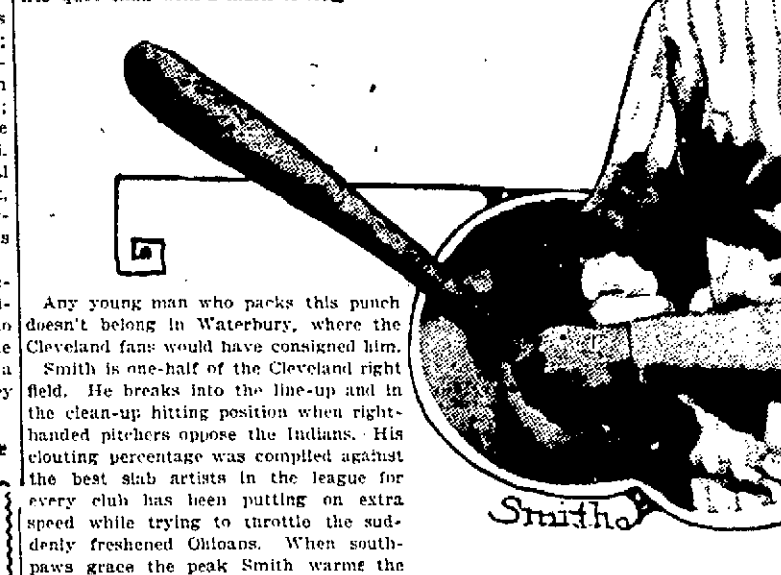

Fred Kelly being defeated in high hurdles by Earl Thompson in their race in Los Angeles recently to break the world's record. Kelly, the champion, is on the left. The race was the outcome of a previous dead heat which the men had run at one of the A. A. U. meets. Under the rules of the association all dead heats must be run off. Both men went in determined to break the present high hurdle record held by Kelly. In this they were unsuccessful, although Thompson won the race in 15 seconds, equalling the world's record and beating the king of hurdles by a very slight margin. This, however, does not hurt Fred Kelly's standing as his world's record still holds.

He could hit pretty fair, but he was a mediocre out-fielder.

Ann Arbor, Mich., May 15.—Harry Tut-hill, trainer for the Detroit Americans, former trainer of the West Point cadets' football eleven, and now under contract to condition the University of Michigan gridiron candidates, has issued his first order. He has told each member of the squad that from now until the training season ends, in November, there shall be no cigarette smoking.

Ann Arbor, Mich., May 15.—Track Coach Farrell has his squad in active training outdoors for the meet with Leland Stanford university here May 20. Michigan's overwhelming victory over Notre Dame recently brought satisfaction to Farrell, who is convinced that his athletes should not be considered favorites in the contest with the Californians.

Chicago, May 15.—The Chicago Nationals, although winning a greater percentage of their games so far this season, are not showing the "pep" which Manager Tinker expects them to. For this reason he stepped into the fray in the first game against the Cubs' old rivals, the New York Giants. Tinker's presence put a new spirit into the players and kept them on their toes. The grounds were muddy, but nevertheless the manager was satisfied that his players have the "stuff" if they will only cut loose with it. After the game he said he was pretty sore about the legs, but was going to jump into the pasture every time his regulars showed lack of "pep." Tinker's arm seemed as good as ever, and he seemed to have his batting eye, although he did not get a safe hit during the game.

COMING WITH CIRCUS TENT AND BRASS BAND

Judge Neil Urges Mothers Pension as Patriotic Preparedness.

With a large circus tent, some singers and a band, Judge Henry Neil will invade Indiana on Sunday, May 21st.

He will begin a big tent campaign in the state for a mothers' pension law, which will be before the Indiana legislature for adoption in January, 1917.

Judge Neil will pitch his tent in many Indiana towns. These meetings will be "patriotic preparedness convocations," but he is not a peace-at-any-price man, as he is willing to fight at any time for human preparedness.

Indiana is the only large northern state which has not yet adopted the mothers' pension system. Judge Neil will carry his big tent auditorium to every section of the state, so that many persons will have a chance to hear his appeal.

The tent will be pitched at North Judson, Starke county, for the first meeting on Sunday, May 21st.

Judge Neil has succeeded in having the pension system adopted in 27 states. Maryland enacted this law a few days ago.

Judge Neil receives no compensation for his work. There will be no charge for admission. This big tent will seat one thousand.

On Sunday, May 28th, he will put up his big tent at Demotte, Jasper county.

"The mothers' pension law begins to save money for the tax payers as soon as it is in force," said Judge Neil, in discussing the value of the pension system. "Indiana tax payers now pay from ten to fifteen dollars a month to orphan homes and other institutions for taking care of children whose mothers are living. The mothers can take care of their own children at less expense. Mothers are fitted by nature to take care of children."

"Children raised in institutions are expected to return to family life somehow. When they grow-up and get married they do not know how to keep house and many of them fail and their failure is an expense to tax payers."

"But the greatest saving is in the police department prisons, asylums and hospitals. Child-poverty produces most of Indiana's criminals, defectives and failures. Children weakened by poverty and disgraced by charity are usually unable to make good in life. No man would raise a horse or steer on half rations and expect it to do well. But Indiana is raising children who never had enough to eat, their homes are insanitary and they are not given a mother's care, because the mother must be doing washing for the children of some other woman."

"Mothers cannot be both bread winner and mother. It is all that most fathers and mothers can do to raise a family. When the father dies, or goes to a hospital, to jail, or deserts, and the mother is left with two jobs, she fails at both. The state pays in the end. The poverty-child, neglected by the strong people of a Christian community, degenerates and becomes a charge on the state. The first law adopted in Illinois is the best so far adopted in any state. It is just one statement as an amendment to the juvenile court laws and reads as follows:

HAMMER THRASHES BITTER ROOT KID

The Bitter Root Kid took an awful lacing from Ever Hammer at Kenosha last night, sticking through seven rounds of sledge hammer mauling, and collapsing at the moment the referee called it off. Hammer had his man every second. The Kid announced, when he recovered consciousness, that he was out of the fight game for good.

HONOR OF VIRGINIA GENTLEMAN ENOUGH

Chicago, May 15.—Dave Robertson, right fielder for the New York Giants, will appear before Justice Carlton Pruty, of Winnetka, Ill., today on a charge of speeding in an automobile. Being a "Virginia gentleman," and having "honor" in all that saved him from being held in court yesterday with the probability that he would have missed yesterday's game with the Cubs, Robertson had been out to lunch at a suburb and was hurrying back to Chicago for the afternoon game with the Cubs when arrested. He was taken before the justice, where he gave his name and occupation. The judge consulted a sporting sheet and remarked to the ball player:

"I see you made a home run yesterday and sent in three runs ahead."

"Yes, sir, and I want to repeat today," Robertson answered.

"Then I had better keep you here and perhaps the Cubs could win today," Justice Pruty said.

"But on the honor of a Virginia gentleman," Robertson started to say, when the judge broke in with "that will do. If you are a Virginia gentleman your honor is good until tomorrow morning at 11 o'clock."

Robertson reached the ball park in time for the game.

OHIO EXPECTS MRS. SNEATH TO TRIUMPH

Tiffin Woman May Head National Federation of Women's Clubs.

By Frank Dildine.

Tiffin, O., May 16. Ohio's candidate for president of the Federation of Women's club, which meets in biennial sessions this month in New York city, is Mrs. Laura Stephenson Sneath, of Tiffin, Ohio, and this is the marching song

MRS. SAMUEL B. SNEATH

which the Buckeye club women, to the tune of Tannenbaum, are singing in her advocacy at their club meetings: In Ohio! In Ohio! We presidential timber grow. And all approve from south and north, Her zeal, sincerity and worth. From Gibson Gate to Boston Town Has flown her story of renown, And all declare the laurel wreath Shall go to our Mrs. Sneath, From Ohio! From Ohio!

We come with faces all aglow, With pride, with joy and single mind, And one who's loyal, just and kind. We love her well; she loves us, too; Our very best we offer you! Progress and peace shall rest beneath The glorious sway of Mrs. Sneath.

For Mrs. Sneath, our Mrs. Sneath, For you we give the laurel wreath, For you we give the laurel wreath, For you we give the laurel wreath.

Her wise, true leadership we know.

St. Joe to our Mrs. Sneath.

Mrs. Sneath is among the leading club women of Ohio and for years has been prominent in the activities of the Federation of Women's Clubs. She was formerly president of the Ohio Federation of Women's Clubs and is now first vice president of the national association, as a worker in which she has served for a number of years as head of the varied departments of the organization. These duties have eminently fitted her for the high office for which she is being urged.

She is a representative American woman in the true sense of the word a student of the problems of the times which affect the interests of men, women and children and a personal exponent and example of the intellectual, constructive and cultured woman active in those fields of usefulness which the Federation of Women's Clubs has assisted in opening up to the women of America. In this work she has won distinction.

As an executive, one who knows how to do things and who does them, Mrs. Sneath has shown her marked ability in the city schools as a teacher and as a business woman in the management of the large business affairs, following his death, of her husband, the late Samuel B. Sneath. He was engaged in the banking business in Tiffin, Ohio, and also had extensive interests in New Orleans and the south. And it is significant of the capability of Mrs. Sneath that recently the stockholders of the Interstate Trust & Banking Co. of New Orleans, elected her a member of the board of directors, an unusual honor to be conferred by a great financial institution upon a woman.

ABLE TO LEAVE HOSPITAL.

M. Frank, Who Recently Had Leg Amputated, Is Much Improved.

M. Frank, president of the Frank Dry Goods company and one of the pioneer merchants of Fort Wayne, who recently had his right leg amputated just below the knee at St. Joseph hospital to prevent the spreading of gangrene that had developed in an injury, is very much improved and was able to leave the hospital and return to his home Monday. Mr. Frank is getting along even better than was expected and his complete recovery is assured.

The Greatest Suit Sale Announced This Year

A Final Clearance of Tailored Suits THAT WILL Amaze The City!

You Can Fairly Hear Women Saying: "How Can Even Tepper's Sell Suits This Way"

The mere announcement of a sale of such importance as this should be enough to bring women here bright and early tomorrow, and in increased numbers throughout the week!

For such chances come about once every blue moon! It has taken weeks and weeks to prepare for it—

We "lived" Tailored Suits, "dreamed" Tailored Suits—but you will know how well paid we feel when you come tomorrow—or any day this week!

And to come right in the midst of the wearing season! My what luck!

And then—

To make it even bigger and better we have taken every single solitary suit in our stock and grouped them in with the four special prices. NOT A SINGLE RESERVATION.

Every Suit in Tepper's New Store is included! And that's some announcement!

This is an event as far different from the usual season-end disposal as day is from night!

There are only two good and sufficient reasons for giving a sale of such magnitude in the midst of the wearing season; one is our fixed policy to keep this New Store Perpetually New! The other—to better emphasize to the Fort Wayne Buying Public the values that this store really DOES give.

Five store buying power means a whole lot in an event of this character!

But it's to be a sad ending for Suits so fine!

We wonder to ourselves if any woman ever had a better Suit opportunity than this.

The late Spring models are included—any and all! You couldn't pay full price if you wanted to!

When you come here to look—you're going to learn how well Facts and Figures link up together at TEPPER'S.

Tell this bit of good news to your neighbor!

Fashionable Garments----Bountiful Assortments; Prices Bordering Half

Isn't that everything your heart could wish? This store never does anything by halves—except to cut prices for our "say-so" in the paper is our do-so in the store.

Suits for Business, for Street, for Dress, for Traveling! Suits for the go-away or stay-at-home!

Suits of Poplins, Serges, Gabardines, Worsteds, Mean's Wear Serges, Black and White Cheeks, Taffeta Serge and Silk Combinations, Pique Twills, Braid on Serge, Poplin or Gabardine—or perhaps trimmings at cuff and collar, with a bit of contrasting silk.

Could any one imagine a more pleasing assemblage?

And the STYLES—Remarkable how many.

Long coats—short coats—coats fitted—coats loose. Some that flare—others belted—others plain.

It will be a most easy matter for you to find yours!

AND THE PRICES! READ!

11-YEAR OLD LAD KICKED BY HORSE

Clarence Hantz, aged eleven years, son of Mr. and Mrs. Fred Hantz, of Angola, is a patient at St. Joseph's hospital suffering from a severe fracture of the skull which he sustained early Tuesday morning when he was kicked by a horse. He was hurried to the Fort Wayne hospital where an operation was performed at once.

The little boy had gone into the barn to do some early morning chores when the accident occurred. The horse's hoof struck him in the rear of the head. A portion of the skull, about the size of a silver dollar was carried in. He was unconscious when picked up and remained in that state until after the operation. His condition is extremely serious but it is thought by attending physicians that he will recover.

FORGER LOCKED UP; WIFE IS DESTITUTE

Erasmus Trent is the name given by a young man arrested by Detective Sergeant W. E. Pappert, Tuesday, on a charge of forgery. The man can identify the other near the transfer corner after the plain clothes man had been detected to find the fellow who passed a worthless check for \$5 at the store of Levy Bros., on Berry street, almost opposite police headquarters, Tuesday morning. Trent purchased two pairs of shoes, one pair for his wife and another pair for his little girl and some jewelry, the bill amounting to \$225. He gave in payment a check for \$5 signed with the name of Lorenz & Hartmann, of the packing house, getting \$50 cash in change. When arrested he had on him a check for \$5 signed with the name of Lee Compton. At 1221 Hanna street Detective Pappert found Trent's wife and child. Mrs. Trent said they had listened out of Lima, Ohio, where her husband was wanted for passing forged checks. The woman told the officer she was entirely destitute. Trent and his wife belong in Clinton, Ky.

FT. WAYNE MAY BE ON ROUTE OF AERO RACE

Van H. Derrine, president of the Commercial club, and Frank Bodin, president of the Rotary club, Tuesday, wired to President Haskin, of the Aero Club of America, requesting him of the heavy operation of the city of Fort Wayne in the event the Pennsylvania railroad is selected as the route for the national transcontinental airplane competition which is scheduled to start from New York Sept. 2.

According to a message from New York, the probable route will be through Baltimore, Washington, St. Louis, Kansas City, Dallas, Fort Worth, Waco, Austin, San Antonio, El Paso, Tucson, Yuma and San Diego and thence up the coast to San Francisco. A second route proposed is through Philadelphia, Pittsburgh, Canton, Detroit, Chicago and Fort Wayne.

Y. M. C. A. GATHERING NEARING ITS CLOSE

Cleveland, May 16. Today brought the closing sessions of the International Y. M. C. A. convention and it was announced that Maj. Gen. Leonard Wood, of the United States army, who was expected to give an address this evening, would not be present as he is at a military camp at Ogdenhorpe, Cal. Arrangements were then made to close the convention at 6 p. m. with an address by Gen. Secretary John L. Mort on "The Added Responsibility of the North American Association Occasioned by the War."

The forenoon session was devoted to consideration of the reports of the committee on findings and of the committee on the international committee's report.

CADESSIA GROTTO INITIATES CLASS

Following a banquet at the Masonic temple Monday evening, Cadessia grotto No. 50, Vespers of the Enchanted Realm, an organization of Master Masons, presented their spring ceremonial at the majestic theater, initiating a large class. Visiting prophets from Chicago, Elkhart, Toledo and other places attended the ceremonial, among them being Grand Master of Ceremonies H. W. Ordway, of Chicago. The class was the largest given the order since Cadessia was instituted. After the initiatory rites the prophets were entertained for an hour with a special performance by the Arthur Clamague opera company, now playing at the Empress.

MRS. FORD STIRS UP THINGS IN DAYTON

Fort Wayne Lady Breaks Up Happy Home of Hubby and Affinity.

Mrs. William R. Ford, of Fort Wayne, did not quite make good her threat to go to Dayton, Ohio, and pump lead into Mrs. Fred Miller, the seductress of Mr. Ford, but what she did do was quite as effective and more satisfactory in its consequences. Mrs. Ford had her husband brought back here some two weeks ago from Dayton on a warrant charging child neglect. Ford told a plausible story in the city court, promised to pay \$15 a month to his wife to keep the children and started back to the Ohio city. Before he could get out of town he was re-arrested on a warrant sworn to by his wife charging desertion. The city court ordered him to pay his wife \$2 a week and let him go. He went.

Then Mrs. Ford raised the price of her fare to Dayton, where she consulted the police, of which the upshot was a blue-ribbon raid on a candy shop conducted by Ford and Mrs. Miller in the purloins of that town. On a statutory charge Ford and Mrs. Miller were convicted and each drew a sentence of one year in the workhouse. Mr. Miller agreed to take his wife again to his forgiving bosom and leave Dayton with her. Later through the intercessions of Mrs. Ford and the insurance promises of Ford to do anything for his wife and children that lay in his power, the re-arrested husband was pardoned to take a job at \$3 a day, whereof the juvenile court of Dayton will collect \$1.50 per diem and forward it to the wronged wife.

Ford ran away from Tulsa, Okla., with Mrs. Miller, in whose home he was a boarder. Miller followed them to Dayton and the dramatic personae was completed by the arrival of Mrs. Ford.

Wayne circle No. 45, C. A. R., will give a patriotic social at the home of Mrs. and Mrs. E. H. White, 2518 South Wayne avenue, Wednesday afternoon and evening. This event will mark the first anniversary of this circle. All patriotic orders have been invited.

JUST ABOUT 60,000 TONS WEEK'S TOTAL

Hostile Submarines Keeping Up Blows to English Shipping.

London, May 6. Correspondence of The Associated Press.—Hostile submarines have been sinking each week about 60,000 tons of shipping with the regularity of clockwork and the consequent scarcity of tonnage is causing the Englishmen to look forward to a food crisis in this country which is believed by many to be not far off.

About \$1,500,000,000 worth of food has to be brought to these shores every year. In normal times, with the help of neutral shipping, the British mercantile marine can just about manage it. But not so now. The underwriter's view is that the odds against making a safe passage are more than ten times as great as before the war; and, with the increase of enemy submarines, so the odds increase, neutral shipping becomes

more and more shy of entering British waters, and food becomes scarcer and dearer. Estimates of the 1916 crop in foreign countries are not encouraging and the question is raised as to whether the forerunner is in a position to supply the demands here even if conditions were normal. The following shows the decrease in wheat lands estimated by the International Agricultural Institute for 1916: Canada, 14.9 per cent.; United States 11.9 per cent.; France 8.6 per cent. In other countries the decrease is said to be in the same proportion.

Although every effort has been made to remedy the situation by giving up all available land to crop raising, the British board of agriculture has been hampered by lack of labor. True, thousands of women have replaced men called to the colors but the board finds that they are not sufficient to utilize the lands to the full.
